

Vision

To be the fountainhead of new ideas and innovations in science and technology and continue to be a source of pride for all Indians.

Mission

To create an environment that shall foster the growth of intellectually capable, innovative and entrepreneurial professionals, who shall contribute to the growth of Science and Technology in partnership with industry and develop and harness it for the welfare of the nation and mankind.

Director's Report

Indian Institute of Technology Roorkee is among the foremost of Institutes of national importance in higher education and research in engineering science and technology with a global exposure through considerable international linkages. Since its establishment as the first technological university in Asia in 1847, the Institute has played a vital role in providing the technical manpower and know-how to the country and international society as a whole. In continuation of the previous years, the academic pursuit and excellence in basic and applied research of the institute are significantly fostered further by large number of international cooperation in the year 2012 that includes long and short term visits of more than 65 distinguished professors and scientists and 175 (278 in 2012-13) faculty members and officers in various courses of the institute from abroad. The Institute ranks amongst the best technological institutions in the world and has contributed to all sectors of technological development. The institute has also been considered a trend-setter in education and research in science and technology and corporate leadership in technology driven international companies in recognition of the achievements of its alumnus holding the most coveted positions as Chairman, Hindustan Aeronautics Limited, Chairman, VSNL, Secretary, University Grants Commission, Chairman, Telecom Regulatory Authority of India, Chairman, Airports Authority of India, Director General, EME, Chairman, Railway Board, Member Engineering, Indian Railways and many others.

The Institution started in 1847. During the period Institution was known as Roorkee College (1847), Thomason College of Civil Engineering (1854), Thomason College of Engineering (1947) and University of Roorkee (1947). On September 21, 2001, the University was converted into Indian Institute of Technology Roorkee by the Government of India through an Act of Parliament and it was

recognized as a seventh Technical Institution of National importance.

We are aware of the enhanced expectations of student community and public at large and strive to live up to our image that has been so assiduously built up over the years. It is our continuous endeavour to work towards attaining higher standards of excellence in all spheres of activities. We are committed to achieve our goals to create an environment wherein intellectually capable, innovative and entrepreneurial professionals are nurtured and trained to work unceasingly to serve the nation and society. We intend to keep pace with the continual progress in the fields of science and technology.

The institute has witnessed a substantial increase in students' intake and we have made every possible effort to timely develop the infrastructure and necessary facilities to meet the needs of the students.

India has a vast number of young, enthusiastic and talented minds. They eagerly look forward to joining institution like ours to get nurtured, trained and prepared for technological challenges that lie ahead on path of their professional development. The development of the nation depends upon their technical competence and work ethics that they have imbibed during their formative years as students.

Core Values

- Academic integrity and accountability
- Respect and tolerance for the views of every individual
- Attention to issues of national relevance as well as of global concern
- Holistic understanding, including knowledge of the human sciences

- Appreciation of intellectual excellence and creativity
- An unfettered spirit of learning exploration, rationality and enterprise
- Sensitivity to social responsibilities

In order to increase collaborative learning and experience sharing, 67 MoUs have been signed with several institutions of higher learning and research within India and abroad. These MoUs, are mutually beneficial and rewarding and provide new avenues of growth in teaching and research for the faculty and the students. These initiatives also help us to contribute to the development of leading technologies.

In recent times, the institute has played important role in projects which are directly related with the development of the nation, e.g., Development of Small and Micro Hydro Power Projects, Solar Water Heating System, Seismological and Ground Motion Studies, RFID and Sensor Networks, Design Fire Facility of Atomic Energy, Rural Technology Action Group, Prime Minister Gramin Sadak Yojna, Development of Projects on River Brahmaputra, Waste-to-Energy Plants to name a few. A lot of digital strong motion accelerographs deployed in the cities of north and north east India lying in seismic zones V, IV & III.

Extensive work has been done by the Institute faculty through projects supported by the UNDP, Government of India and the State Governments for providing benefits of technological developments in the field of Information and Communication Technology (ICT), especially to the poor and marginalized masses living in remote areas through e-governance and e-learning. The institute is the national coordinator of two projects under the MHRD sponsored National Mission on Education through ICT, one on providing education through VSAT Enabled Mobile e-Learning Terminals (MeLTs), and the other on "Software Tools, Open Source Tools and Simulation Tools". These projects aim at bridging the gap between "educational divide" and the "digital divide" and meet the challenges of providing quality education and better governance for the masses in all parts of the country. The institute faculty is also involved in the development of virtual labs, pedagogical methods in teaching and research and text book series in various Engineering/Scientific fields.

In order to meet the requirement of producing high quality graduates, we also have to carry out research and be a part of the latest developments in different fields of science and technology and incorporate them in our curriculum by constantly revisiting our course contents and provide greater flexibility to make the system more learner centric as compared to the institution centric. We have therefore, made conscious efforts to increase the number of postgraduate and research students also.

Annual Report

The annual report highlights the work that the I.I.T. Roorkee has done during 2012–13. It includes the contributions made by different departments and units, and their main achievements. This comprehensive document is a compendium of work done by various departments and centres of the institute which becomes an authoritative record of its activities and available for ready reference. It helps to identify and encourage those who have done well, and to determine areas where scope for further improvement exists.

Admission

The IIT Roorkee campus provides a stimulating, vibrant, lively and enriching learning environment with a blend of Undergraduate (UG), Postgraduate (PG) and Ph.D. students. The students are admitted in various UG and PG programs through all India level entrance examinations, namely JEE, GATE, CAT, and JAM.

For the year 2012, IIT Delhi was the Organizing Institute for IIT-JEE 2012 and in all 479651 candidates appeared in 1067 centres spread across the country. The examination was conducted on 8th April 2012. In IIT Roorkee zone, the examination was conducted at 140 different centres in Twenty Four Cities of five different states viz., Haryana, Himachal Pradesh, Punjab, Uttarakhand and Uttar Pradesh and a Union Territory Chandigarh. The total no. of registered candidates in IIT Roorkee zone was 66,492, out of which 63,433 candidates appeared for the examination and 1717 candidates were qualified and 871 selected candidates got seats in various IITs/ISM Dhanbad.

All India **Second Ranker** was from Chandigarh in Roorkee Zone.

The students are admitted to various postgraduate programmes of the Institute through All India Entrance Examinations viz, **Graduate Aptitude Test in Engineering (GATE)** for admission to postgraduate courses with Ministry of Human Resources and Development (MHRD), Govt. of India scholarships in Engineering, Technology, Architecture and Science and **Joint Admission Test for M.Sc. (JAM)** for Admission to M.Sc.-PhD, M.Sc.-PhD. Dual Degree and other Post-B.Sc. programmes at IITs.

The **GATE 2013** computer based **ONLINE** examination in fifteen papers {AR, CE, GG, MA, MT, PH, TF, AG, BT, CH, CY, MN, XE and XL} was conducted on Sunday, January 20, 2013 (in two sessions) and in **OFFLINE** mode rest 06 papers {CS, ME, PI, EC, EE and IN} were conducted, on Sunday, February 10, 2013 (in two sessions) which were coordinated by IIT Bombay:

The **JAM 2013** OFFLINE examination, in 09 papers {BL, CA, CY, GP, MS, BT, GG, MA and PH} was coordinated by IIT Delhi and the examination took place, on Sunday, the February 10, 2013 (in two sessions). In IIT Roorkee zone, a total number of registered candidates was 7,095 across 11 centres in 8 cities and 342 candidates qualified out of 4,887 appeared candidates for JAM 2013.

Currently the Institute offers Bachelor's Degree courses in 10 disciplines of Engineering and Architecture, Postgraduate's Degree in 55 disciplines of Engineering, Applied Science, Architecture and Planning. The Institute presently has 7783 students that include 6441 UG/PG students and 1342 Ph.D. scholars enrolled in different Departments & Centres.

Academic Infrastructure

B. Architecture Course was started in 1956. The Department has the singular distinction of being the first in India in instituting a Masters Degree course in Architecture (M.Arch) in the year 1969-70. Masters Degree course in Urban & Rural Planning (MURP) was started in 1973-74. The department of Architecture and Planning imparts high quality education in the professional fields of Architecture and Planning and offers Bachelor of Architecture, Master of Architecture, Master of Urban and Rural Planning and Ph.D programmes. At present 29 Ph.D scholars are pursuing research in the department. The department has unique facilities like Climatology Lab, Computer Lab and Computerized Design Studios equipped with the state-of-art equipment and software and an Art Lab and a Workshop. During the year 2012-13 many faculty earned various honors and awards and visited a number of institutions in India and abroad and participated in seminar, symposia and conferences. Faculty members of the departments are engaged in sponsored research and consultancy projects and have published number of research papers in International and National Journals and Conference Proceedings and published two books.

During the period, the Department of Biotechnology created state-of-the-art facilities to strengthen the ongoing teaching (UG&PG) and research programmes by purchasing sophisticated equipments worth rupees 367.00 lakhs. These include instruments like Maldi-TOF-TOF, Preparative HPLC, GC-MS, Fluorescent Assisted Cell analyser, multistacked Incubator Shakers etc. The department took several initiatives for improvement of its teaching and research facilities. Six new research projects from ICMR, CSIR and DST for a total outlay of Rs. 183.96 lakhs have been funded during 2012-13. In addition to these new projects, eleven research projects with total financial outlay of Rs 756.72 lakhs are already being executed in the department.

The Department of Chemical Engineering has made significant growth in research and publications. Department faculty members are members of Editorial Board of a number of Research Journals. Dr. V.C. Srivastava, Assistant Professor, Department of Chemical Engineering has been awarded Young Engineer/Scientist/Researcher award by Indian National Academy of Engineering (INAE), Indian National Science Academy (INSA) and Institution of Engineers, India.

The Department of Chemistry is equipped with the state-of-the-art facilities like IR and UV-Visible spectrophotometer, Gas Chromatograph, ESI-MS, GC-Mass, HPLC, AAS, Elemental Analyzer, Flame Photometer, Cyclic Voltammeter, LCMS-MS, Raman Spectrophotometer, Surface Area Analyzer, Rheometer, VSM etc. to provide academic as well as industry oriented training to the undergraduate and post-graduate students. The department has lately taken several initiatives for the betterment of its teaching and research.

The Department of Civil Engineering offers a four-year course leading to the Bachelor's Degree in Civil Engineering. The Department also provides education at Master's and Ph.D. levels in eight disciplines of Civil Engineering. The Department has unique facilities like Boundary Layer Wind Tunnel, Asphalt Rheometer, Electronic Total Stations, Flex 2D Software, 1000 kN Electro-hydraulic actuators, Electronic bed level recorder, Water Hammer and Surge Tank Experimental set-up, Data Acquisition System and Universal Testing Machine.

In the Department of Earthquake Engineering, four major areas of Earthquake Engineering viz., Structural Dynamics, Soil Dynamics, Engineering Seismology & Seismotectonics and Instrumentation have been nurtured for the last fifty years. Several major facilities have been developed in the Department including a low cost railway wagon, shock table for dynamic testing of structural models, a computer controlled shake table to stimulate strong ground motion, a quasi static testing laboratory having servo-controlled dynamic actuator systems and servo-controlled compression testing machine, a soil dynamics laboratory equipped with liquefaction table and cyclic triaxial testing system, a seismological observatory having state of the art broadband seismograph to record earthquake ground motion, a strong motion network of 300 digital accelerographs deployed in the Himalayan region to measure strong ground motion due to moderate and major earthquakes and a state-of-art 12 station telemetered network to monitor local seismicity in the environs of Tehri Dam.

Department of Earth Sciences is one of the leading departments in country in diversified fields of geology and geophysics. The Department offers 5-

years integrated M.Tech. courses in Geological Technology and Geophysical Technology and a two years M.Sc. course in Applied Geology. A number of research scholars are actively engaged in Ph.D. research resulting in large number of research publications. A number of laboratories in the department have been modernized through the induction of specialized high quality instruments.

The Electrical Engineering Department of IIT Roorkee is the first in India to start the postgraduate programme in electrical Machine Design in 1954 and after few years it was converted into Advanced Electrical machines. Later on three more post-graduate programmes were started. The department offers a bachelor degree courses in the Electrical Engineering and an I.D.D. course in Electrical Engineering with Master of Technology in Power Electronics. It offers Master's courses in Power System Engineering, Power Electronics & Electric Drives, Systems & Control and Instrumentation & Signal Processing. There are four major groups of faculty working in the areas of Power Systems, Power Electronics, Electric Drives, Systems and Control, Instrumentation, Biomedical Signal Processing and Image Processing. The faculty members of the department are also providing consultancy services in the area of small hydro in collaboration with AHEC. In addition to DST and CSIR sponsored projects, the department is also piloting MHRD sponsored projects on Mobile e-Learning Terminals, Open Sources Simulation and Virtual Laboratory under National Mission on Education through Information Communication Technology.

The Department of Electronics & Communication is one of the major departments of the Institute offers a wide spectrum of academic programmes at undergraduate and postgraduate level. The department has always been on a high growth path. In this year, the Electronics & Communication Engineering department signed a Memorandum of Understanding with RailTel & Ministry of Communications in the presence of honourable Minister of Communications, Shri Kapil Sibbal, for a Center of Excellence in Telecommunication (TCOE). RailTel will provide a grant of Rs. 12.00 Crore over a period of next 5 years to support cutting edge research in broadband technology and applications.

The Department of Humanities & Social Sciences teaches several core and elective courses to students of all branches of B.Tech, as well as B. Arch. The Department also runs specialized core and elective courses for M. Tech., MCA and MBA. The Department runs an evening course in German language. One of the remarkable achievements has been the spurt in the research activities of the department in recent years. The Communication Research and Training Laboratory of the department, which possesses multimedia software for language teaching has recently been upgraded

to its full capacity, i. e. 60 booths. The addition of new software and data has also enriched the Psychology Laboratory, Computer Laboratory, and the Economic database.

Like previous years, the 41th International P.G. Diploma/M. Tech. Hydrology course commenced from July 2012 with 25 nos. of participants including 10 sponsored candidates from India and abroad in the Department of Hydrology. The M. Tech. final year programme also continued with 17 students. At present 17 students are pursuing their doctoral research in the Department.

The Department of Management Studies has organized sponsored workshop and seminars on the emerging trends of management including knowledge management, technology management and entrepreneurship development. The knowledge sharing practices have been motivated amongst faculties and students through peer learning approach. As a part of social responsibility the Department also conducted QIP programs for effective teaching. A number of workshops on research methodology were organized in and outside of the Department and Institute.

The Department of Mathematics runs five year integrated M.Sc. in Applied Mathematics, two year M.Sc. in Applied Mathematics, and industrial Mathematics and informatics. The Department also running interdisciplinary MCA programs. The Ph.D. programs are run not only in basic and recent fields of mathematics but also in several interdisciplinary areas of Applied Mathematics and Computer applications. All the programmes are well received in the industry and students are getting good placements in Industry and Academics, for PDF in abroad.

The Department of Mechanical & Industrial Engineering offers Bachelor's Degree courses in Mechanical as well as in Production & Industrial Engineering. It also provides education at Master's and Doctoral level in five disciplines of Mechanical and Industrial Engineering. The department has laboratory and workshop facilities with modern sophisticated equipments to carry out research and consultancy in almost all the major areas of Mechanical and Industrial Engineering.

The Department of Metallurgical and Materials Engineering has procured state of the art equipment "Thermomechanical simulator (TMS) for the research work. Two major sponsored projects in the area of thermo mechanical processing of Zr-Nb alloys and development of erosion resistant duplex stainless steels were sanctioned based on this TMS facility available in our department. The first batch of dual degree, B.Tech (Met) and M.Tech (Materials Engg) students has joined the department in this year. The significant work has been done in the area of failure analysis, development of ultrafine grained materials, nanostructured coatings for corrosion resistance,

tribological applications, metallic foams, electroless coatings for RADAR, Metallic and Polymer matrix composites, Spray forming, Powder Metallurgy, Friction Stir Processing of Al alloys, Development of materials for hydroelectric power plants and mini hydel projects.

The Saharanpur Campus has three departments viz. Department of Paper Technology, Department of Polymer and Process Engineering and Department of Applied Sciences and Engineering.

Department of Paper Technology

The Department of Paper Technology is one of the oldest Departments of the Saharanpur Campus which offers academic programs at various levels in Pulp and Paper Technology. The Department has well developed academic infrastructure. Its faculty is engaged in teaching, research and industrial consultancy. The courses aim to cater to the needs of Paper Industries across the country.

Department of Polymer and Process Engineering

Department of Polymer and Process Engineering (DPPE) is a new Department of the Indian Institute of Technology Roorkee, located in the Saharanpur Campus. The Department offers academic courses leading to B. Tech in Polymer Science & Technology, and a Dual Degree Program of B. Tech in Process Engineering with MBA. The Department also performs fundamental and applied research in Polymer Science and Technology, Process Engineering and Management. The courses aim to cater to the needs of the vastly developing and hugely demanding "Polymer and Process Industries" across the globe.

Applied Sciences and Engineering

The Newly incepted Department of Applied Science and Engineering comprises multi-disciplinary faculty members at present mainly related to Physics, Chemistry, Mathematics, Humanities (English literature), Electrical /Electronics Engineering background to cater the need of multi-disciplinary students at Saharanpur Campus of IIT Roorkee. Our faculty members, and scholars provides a home to the most promising doctoral and post-doctoral research with an access to state of art educational/Research Laboratory resources and unparalleled laboratory for both Basic/Applied Science and Engineering research.

1. All the above Departments have procured State of the Art research and laboratory equipment worth Rs. 15 Crore including FIST project sponsored by DST, New Delhi. Most of the instruments have been installed and some of them are in the process of installation. List includes; AFM, Glove Box, Galvanostat, Hot Stage Polarizing Microscope, FE-SEM, Twin Screw Extruder, Micro Injection Molding, Rheometer, U.V. Vis., and other wide range of

laboratory equipment for paper, polymer and process programs.

2. Sports Complex development is in progress.
3. Multi Story Faculty Residential Complex (TRIVENI APARTMENT) has been allotted to the faculty members.
4. Air Conditioning of New Technology Block is in progress.
5. Library, Auditorium, Guest House is under restructuring and modification process.
6. Purchase of Physiotherapy Equipment for Dispensary is in progress.
7. Saharanpur Campus is now connected with NKN network

The Department of Physics provides an excellent teaching environment to its students pursuing their studies for Ph.D., M.Tech. (Solid State Electronic Materials), 5-year Integrated M.Sc., 2-year M.Sc., and B.Tech. students. The Ph.D. programs are focused on advanced topics in several thrust areas of Physics in the fields of Atomic & Molecular Collision Physics, Atmospheric Physics, Condensed Matter Physics, Laser Physics, Nuclear Physics, and High Energy Physics. The Department has well developed research laboratories in the areas of Smart materials, High-Tc Superconductors, Functional nanomaterials. New research Labs in the area of PV-Solar, Quantum Optics and Radiation Detectors are coming up. A new advanced facility of pulsed laser has recently been added and has started functioning. The computing facility in the Physics Department consists of two Sun Fire X 2200 M₂ X 64 Servers (dual-core dual-CPU), ideal machines for number crunching. In addition about five high speed works-stations have been added.

"The Department of Water Resources Development and Management (formerly WRDTC) was established in the year 1955 by the Government of India with the objective to train serving engineers from Asia, Africa and other developing countries in various aspects of water resources engineering and to bring together engineering talent from these countries for a first hand understanding and appreciation of each others problems and to help evolve, by pooling of knowledge, new techniques in water resources development and management suited to conditions of Afro-Asian region. In addition, the programme of education in the Department helps foster a feeling of brotherhood amongst the engineers of various countries. Since its creation in 1955 the Department has trained 2543 serving engineers from 50 countries".

AHEC provided technical support to the public utilities of the state of UP, Uttarakhand, Chhattisgarh, Bihar, HP, Andman & Nicobar, Mizoram, Arunachal Pradesh, Gujarat, Madhya Pradesh, J&K and Financial Institutions viz. PTC, MNRE received in small hydropower projects. Small hydropower project planning, design, drawings, specially, for remote border areas of the country in Ladakh, Arunachal Pradesh and

Uttarakhand, Performance testing of small hydropower stations in 8 states and training to the field engineers was carried out. The establishment of the state of the art small hydro power hydraulic turbine laboratory with the support of Ministry of New and Renewable energy, Government of India is in progress.

“CTRANS is a Centre of Excellence in the area of Transportation Systems promoting multidisciplinary and high quality research and education in Transportation Systems with collective participation of Engineers, Scientists and Researchers from Science & Technology, Humanities and Social Sciences, Architecture & Planning and Management Studies background. The first batch of 16 M.Tech (Infrastructure Systems) students have joined the Centre this year. The Centre played a lead role in the implementation of 1700 km of State Highways in the State of Bihar under Rashtriya Shram Vikas Yojana. ROMDAS, Ground Penetrating Radar, Vibration Exciter System, HPLC etc. are some of the high end lab infrastructure available with the Centre.”

Centre for Nanotechnology (CNT) has further strengthened its mission of Academic excellence with the active participation of its faculty drawn from different departments. Its faculty has made from different departments. Its faculty has made significant research contributions in upcoming areas of Nanotechnology. CNT has successfully admitted students to the fifth batch of M.Tech. program. CNT is now equipped with several state-of-the art facilities namely, Zetasizer, DSC, LCR meter with magnetic measurements set up, Surface profiler, Upright microscope with fluorescent attachment. UV-VIS-NIR spectrophotometer and Fluorimeter, Spin coater, Gel-doc system, High speed refrigerated centrifuge, Laminar airflow hood, Orbital shaking incubator, Deep freezer for its M.Tech/Research students. Molecular modeling software has been installed for modeling and simulation work.

A Centre of Excellence in Disaster Mitigation and Management was established at IIT Roorkee in March 2006 for national capacity building in Disaster Mitigation and Management. A full time M.Tech. Program in Disaster Mitigation & Management was approved by the Senate of the Institute.

Service Centres

The Institute Computer Centre (ICC) is an academic service centre providing the following:

- Facilities for B.Tech/M.Tech/MCA computer related laboratory classes
- Special needs for hardware/software of Research Scholars
- Central bulk licensing of Engineering/Scientific software
- High-Performance Computing

- Central data storage facility

The Centre maintains a comfortable environment, conducive for research & training for both students and faculty. It has eight job-specific labs with about 250 workstations/desktops of latest configuration in 100/1000 mbps CAT 6 based structured network having Gigabit Managed Switches with Internet connectivity at every system. Centre has computational and software licensing servers ranging from rack mounted servers to high-end Blade Servers with SAN (Storage Area Network) and NAS (Network Attached Storage). Centre is also equipped with laser printers and scanners. Linux based HPC Cluster, and all the other servers (including software licensing servers) can be accessed within the campus including DPT Saharanpur Campus. ICC has state-of-the-art hardware and software for applications such as: CAD/MCAD, Computational Fluid Dynamics (CFD), FEM & FEA Image Processing / Scientific Visualization, 3D Animation/ Visual Simulation/ Geospatial imaging and analysis. Centre has mid-range to high-end configured graphics workstations. ICC's software licensing facilities provide major engineering and scientific software, which are available throughout the campus over LAN.

Institute Instrumentation Centre runs & maintains twenty Analytical Laboratories with modern Equipment for research and teaching of UG and PG students. These include AAS, DTA-TGA, EPMA, FE-SEM, FLS, ICP-MS with Laser Ablation, Powder X-RD, Single Crystal X-RD, Small Angle X-RD, SEM, SPM, SQUID Magnetometer, TEM, TIMS, UTM, VSM and Liquid Nitrogen Plant among others. Some of the notable facilities are Macromolecular Crystallographic Unit (MCU), Transmission Electron Microscope (TEM), SQUID Magnetometer and Electron Probe Micro Analyzer (EPMA).

Information Superhighway Centre (ISC) of the Institute has a star topology Gigabit Ethernet Switch based, state-of-the-art Enterprise class network with data, voice and video communication capabilities. All department and Centres are connected to the Information Superhighway Centre through Optical Fiber. The network covers 365 acres of area through 35 Km of OFC and 70 Km of CAT6/E Cat5 UTP, connecting all Departments/Centres, Hostels and Saharanpur Campus. The Intranet has 3000+ wired-line and 3200+ points through wireless access, providing internet/intranet, and e-mail facility to all faculty, staff, library, and laboratories. The ISC also has an Information Management Group (IMG) which is managed and run solely by B.Tech. students for developing website and intranet applications. Three virtual class rooms have been developed under National Knowledge Network (NKN) from NIC under MHRD Govt. of India initiative. Installed state-of-the-art Wire line Internet using Core-

Distribution access based architecture wire-line intranet with 10 Gbps uplink in Sarojini Bhawan including with previous year other campus buildings. Upgraded Oracle Sun Java Mail messaging system to provide a better and uninterrupted spam free mail services to the Institute Users. Now Institute has 8000 user license of Upgraded mail messaging system installed in active-active mode with full redundancy with separate storage to provide more mail space to the users.

Quality Improvement Programme (QIP) Centre three principal activities are being carried out. (i) Providing opportunities for faculty members of AICTE recognized engineering Colleges/institutes to improve their qualifications, i.e., Masters and Ph.D. degree programmes, (ii) Organizing Short Term Courses for serving faculty working in engineering institutes/colleges and (iii) C.D. cell activities which include curriculum development (CD) as well as its revision, preparation of monographs and text books, laboratory manuals, undertaking of inter-institutional programmes, holding of seminars, workshops and panel discussions, developing educational technology, preparation of resource materials and undertaking of any other activity which helps to improve classroom teaching. This year the QIP Center at IIT Roorkee has offered admission to 25 faculty for Ph.D programme and 16 teachers for M.Tech programme various faculty branches. Total no. of Short Term Courses run were 12, 16 workshops and 01 conference were organized.

Centre of Continuing Education is a pioneering centre in the area of continuing education. It has completed more than 55 years of service and has played a very important role in the promotion of knowledge upgradation activity in our country by organizing refresher/specialist courses and workshops for in-service technocrats and professionals. This centre acts as a single window to disseminate information and technology on latest developments. The activities organised by this centre are innovative, refreshing and stimulating and address to the current needs of the participants. Apart from the technical expertise available in the departments and centres of the Institute, experts from industries and R&D organisations are also invited to deliver talks/lectures wherever necessary. 70 short term training programmes are being conducted every year in various disciplines of management, engineering, science and technology for 1054 participants from all parts of the country as well as from the neighboring countries.

Students Activities (2012-13)

During the year 2012-13, the students performed extremely well in academics and they also excelled in organizing extra curricular activities. The predominant student activities included

participation in Students' Club, National Cadets Corps, Hobbies Club, NSS, Cinema Club, Sports Council, etc.

Elections for Students Affairs Council (SAC) for 2012-13 were held in the month of September 2012. The Students' Senate was elected and other bodies of SAC were constituted. During the year 2012-13, 104 students were given aid under the scheme "Students Loan and Aid Fund" and a sum of Rs. 13,59,000/- was distribution to the deserving needy students. To provide reimbursement of medical expenses and compensation for laptop and cycle theft, insurance policy has been taken from leading public sector insurance companies.

NCC training was imparted to NCC cadets of IIT Roorkee and the cadets took keen interest. About 420 students under various categories were enrolled for the academic year 2012-13. The NCC cadets presented Guard of Honour to Director, IIT Roorkee on Independence Day (2012) and Republic Day (2013). Various events such as Annual Training Camp, Inter Company Games/Competitions, Cultural Training, Social Service, Competitions, Awareness Lectures were held during 2012-13.

Institute's Sports Council conducted Intramural (Internal) tournaments and Annual Athletic Meet. The student winners were awarded trophies/cup in various student sports activities.

During 2012-13, several external or extramural tournaments for Volley Ball, Hockey, Football, etc. were organized. IIT Roorkee team performed excellent in these tournaments. Various coaching camps were conducted for IIT Roorkee students.

IIT Roorkee organized the 48th Inter IIT Aquatic Meet from October 2-5, 2012 and approximately 140 students from 13 IITs participated in various events. The 48th Inter IIT Sports Meet was organized by IIT Roorkee from December 17-24, 2012. About 1700 students from 15 IITs took part in the Meet. IIT Roorkee received the March Past Trophy for their excellent performance. Under overall position for general championship in the 48th Inter IIT Sports Meet, the women team secured first position and men team secured third position. Various sports facilities were upgraded in the year 2012-13.

Students' Club of IIT Roorkee is a hub of various activities related to students on the campus. It has improved in Club ambience and various facilities offered to the students. Certain other important students activities such as Cognizance, Srishti and Thomso were organized as per practice. Hobbies Club has been involved in the activities like software development, gardening, philately & numismatics, fine arts, star gazing, model and robotics, etc.

IIT Roorkee Cultural Council conducted several

cultural activities such as Pahla Nasha, Jashn, Cultural Night, Cultural Week, etc. during the year 2012-13. The Himalayan Explorers' Club organized Annual Cycle Race, Skiing Camp, Rock Climbing Camp and Commando Assault Test during 2012-13. Foreign students are part of IIT Roorkee Campus and 69 students were registered in different academic programmes. IIT Roorkee is proud of imparting education to various foreign students.

Placement

The Training and Placement office continued to play key role as facilitator and counselor to graduating students for their suitable placements and internships in companies of various sectors. Similar to previous years, this year also the placement season was quite vibrant. A total of 152 companies visited the institute for campus recruitment and a total of 917 offers were made.

The maximum and average overseas annual salary packages offered were Rs. 65 Lakhs and Rs. 38.98 Lakhs whereas the maximum and average domestic salary packages offered were Rs. 28.00 Lakhs and Rs. 7.00 Lakhs across all branches of different academic programs.

Some key companies from across various sectors which visited the campus during this academic year were Reliance Industries Ltd., Tata Steel, Hero MotoCorp Ltd., Caterpillar India Pvt. Ltd., Robert Bosch Engineering and Business Solution, Chambal Fertilisers and Chemical Ltd., Yamaha India Motor Pvt. Ltd., Jaiprakash Associates Ltd., Usha International Ltd., Larsen & Toubro Limited, Thermax India Ltd., RSPL Limited, Microsoft India Development Centre, Facebook, Oracle, Epic, Google Inc, WM Global Technology Service India Pvt. Ltd., Directi, Adobe Systems India Pvt. Ltd., Schlumberger Asia Services Ltd., Shell Technology Centre, Cairn India Ltd., Rio Tinto, ITC Ltd., Capital One Services etc.

Convocation and Other Events

The Annual Convocation 2012 of the Institute was held on August 4, 2012. On this occasion, 1639 students were awarded degrees at Bachelor's (691), Master's (826) and Doctoral (122) levels in various disciplines. Hon'ble Shri. Kapil Sibal was the Chief Guest and was conferred Honoris Causa Degree of IIT Roorkee.

Distinguished Alumni Awards were presented to seven alumni who have made major contributions in their respective fields. The recipients of these awards were Prof. Prem Krishna and Prof. Harpreet Singh under the category Academics and Research, Dr. Amit Singhal, Shri. Ravi Sharma, Shri Arvind K. Singhal, Dr. Harsh K. Gupta and Shri B.K. Chaturvedi under the category Corporate Development/ Administration.

Faculty

The Institute has 369 highly qualified faculty members, 09 Emeritus Fellows and 17 Scientific and other Academic Staff.

The faculty members are internationally recognized for their quality of research publications which appear in international refereed journals. Faculty members are associated with various decision making bodies providing advice on policy matters and technical issues at the national level. At the same time, they serve on editorial boards of different reputed international journals, review papers, serve on committees for recruitment of professionals, and are on the boards of certain organizations. Faculty members were recognized in the country and abroad for their distinctive contributions as academicians, scientists, engineers, or expert consultants.

With a view to achieve the objective of attaining academic excellence through healthy competition, the Institute has adopted a scheme of rewarding outstanding teachers and researchers on the basis of students' feedback aggregated over last 4 years and their performance in research and administration. Outstanding teacher awards were given to Prof. D.K. Nauriyal, Professor, Deptt. of Hum. & Soc. Sciences, Prof. Pramod Agarwal, Professor, Deptt. of Electrical Engg., Dr. R.D. Garg, Assistant Professor, Deptt. of Civil Engg. and Dr. R.P. Saini, Associate Professor, of AHEC.

Initiation Grant to Faculty

The Institute took an initiative of providing seed money to the new faculty members for initiating research projects under Faculty Initiation Grant-Scheme-A. Using the seed money, the new faculty members can initiate the feasibility study related to their research field and apply for major funds, thereafter, to other agencies. 13 Projects for Faculty Initiation Grant under Scheme 'A' have been sanctioned out of SRIC Fund, with a total allocation of Rs. 41.10 Lacs. 5 Projects for Faculty Initiation Grant under Scheme 'B' have been sanctioned out of MHRD Funds, with a total allocation of Rs. 26.75 Lacs.

Sponsored Research and Industrial Consultancy

The total numbers of New Sponsored Research Projects were 79 with annual turnover of Rs. 7021.41 lakhs. The numbers of new Consultancy projects have been 622 with a total outlay Rs. 3607.86 lakhs.

National and International Collaboration

The Institute has signed six MoUs with the following Institutes/Universities/Organizations for academic interactions, students and faculty exchange, and collaborative R&D work: Central Pulp and Paper

Research Institute, Saharanpur on May 2, 2012, Housing and Urban Development Corporation Ltd. (HUDCO) on May 21, 2012, Welspun Corp Ltd. On December 3, 2012, Institute of Engineering, Tribhuvan University on January 18, 2013, Dr. B.R. Ambedkar National Institute of Technology Jalandhar, Punjab on January 18, 2013 and Rural Electrification Corporation Ltd., New Delhi on February 8, 2013.

Finance and Accounts

In 2012-13, I.I.T. Roorkee received a sum of Rs. 31398.00 lakhs from MHRD to meet plan and non-plan expenditure; MHRD contributed Rs.16778.00 lakhs towards Non-plan Grant, and Rs.14620.00 lakhs towards Plan grant. Institute receipts totaled Rs.3971.17 lakhs and contributions of Rs. 317.17 lakhs from UGC and Rs.278.23 lakhs from CSIR were also received.

Auditing of annual accounts for the year 2012-13 was completed. The Institute continued to receive funds from MHRD and other government agencies for plan and non-plan commitments and R&D activities.

Director's Activities

The Director has visited Belgium, British Columbia, Alberta, San Francisco, Chicago, Houston, Washington D.C. and New York, for various research and academic collaborations and signed 6 MoU. During this period, Director has made several invited visits to various technical Institutions and Universities, both India and abroad. The Director had attended a meeting of All India IIT Faculty federation and chairpersons BOG and Director of IITs in MHRD on April 11, 2012. He had attended meeting with Sterling group of UK Universities on July 24, 2012. He had also attended a meeting with Hon'able member of SC/ST commission Mr. Raju Parmar. He presided over 3 National Workshops/Seminars and inaugurated about 7 national events held and addressed the august audience there as Chief Guest. This is in addition to his participation in IIT JAB, JEE and other entrance examination meetings. He had made visits to the various departments at IIT Roorkee during this period.

The Institute places on record its grateful acknowledgment of the financial support provided by MHRD, MNRE, DST, CSIR, DBT, MCIT, NAIP, DRDO, BMTPC, BARC, Max Planck Society, Germany, UNDP, UKIERI, Uttarakhand and other State Governments and other governmental and non-governmental agencies. Sincere thanks are due to all faculty members, scientific staff, officials, employees, students and alumni of the institute for their devotion and hard work in taking the Institute to greater heights. With their continued support, it is hoped that IIT Roorkee will continue to contribute significantly to the national cause of providing excellent technical education.

I am deeply indebted to the Hon'ble Shri Kapil Sibal Ji, Minister of Human Resource Development and Chairman, IIT Council for his guidance, support and co-operation in making this Institution move towards attaining its goal.

I take this opportunity to thank Secretary, Additional Secretary (Technical), Additional Secretary and Financial Advisor, Joint Secretary (Distance Learning), Director (Technical), Director (Finance), Under Secretary (Technical Section) and Under Secretary (IFD), Department of Higher Education, Govt. of India, Ministry of Human Resource Development for their continued cooperation in providing grants and for their interest in the development of this Institute.

I am grateful to Hon'ble Shri Analjit Singh, Chairman, Board of Governors, IIT Roorkee, for his support and guidance.

I place on record my sincere gratitude to the Members of Board of Governors, Finance Committee, Building and Works Committee, the Senate and other Committees of the Institute for their valuable contributions towards making the Institution to realize its mission. I compliment the Editorial team of the Annual Report for their untiring efforts in compiling this report.

Indian Institute of Technology Roorkee, created on 21st September 2001, is the successor Institute of the University of Roorkee, chartered in 1949 and the Roorkee College founded in 1847, which was later renamed as the Thomason College of Civil Engineering. The Roorkee College was the first engineering college to be established in the whole of the British Commonwealth, or the British Empire, as it was known at that time.

The Institute has a glorious past of more than 165 years and has been widely acclaimed for its excellence in education, research and training. A special emphasis is laid on total personality development along with the quality education and technical training of the students. The present chapter describes the organization and administrative structure of the Institute during the period between 1 April 2012 to 31 March 2013.

3.2.7 SPECIAL FACILITIES AVAILABLE TO SC/ST STUDENTS

The following special facilities are available for the applicants of SC/ST categories for admission to the various courses:

- Application fee for Entrance Examination, which is charged from SC/ST categories, is only 50% of the fee fixed for candidates of the general category.
- The cut-off percentage in the qualifying paper for admission to B. Tech. / B. Arch. courses is relaxed for SC/ST candidates.
- Minimum percentage of marks fixed for admission in all undergraduate courses on the basis of the entrance examination is again relaxed for SC / ST candidates.
- Minimum qualification for admission to M.Sc. and M. Tech. in Earth Sciences is a graduate with minimum 60% marks. This is lowered for SC / ST candidates by 5%.

- The following facilities are given to all SC/ST candidates (UG, PG, Sciences including MCA).
 - No tuition fee is charged. This exemption is irrespective of parents/guardians income.
 - Room rent is exempted.
 - The Institute provides a scholarship of Rs. 1000/- p.m. or free messing (basic menu only) and Rs. 250/- p.m. as pocket allowance.

Eligibility

SC/ST students whose parents/ guardians' income does not exceed the limit prescribed by the Government of India from time to time can opt for free messing (basic menu only) and Rs. 250/- per month as pocket allowance, in lieu of full amount of scholarship of Rs. 1000/- p.m. At present, the ceiling of gross income for such awards is Rs. 4.50 lakhs per annum. Students of reserved categories are provided textbooks from the Library under the 'Text Book Loan Scheme' against a nominal security deposit. Additional books are also provided. Financial assistance is also provided to them from Samaj Kalyan Vibhag.

Number of students belonging to SC/ST in B.Tech./B.Arch. courses at the Institute during the Academic Session 2012-2013 is as given below:

**Academic Staff : 15; Students Admitted : UG-34, PG-37, Ph.D.-03;
Publications : Conferences : 13; Journals : 17; Book Chapter : 2**

1. SALIENT FEATURES

B.Architecture Course was started in 1956. The Department has the singular distinction of being the first in India in instituting a Masters Degree course in Architecture (M.Arch) in the year 1969-70. Masters Degree course in Urban & Rural Planning (MURP) was started in 1973-74. The department of Architecture and Planning imparts high quality education in the professional fields of Architecture and Planning and offers Bachelor of Architecture, Master of Architecture, Master of Urban and Rural Planning and Ph.D programmes. At present 29 PhD scholars are pursuing research in the department. The department has unique facilities like Climatology Lab, Computer Lab and Computerized Design Studios equipped with the state-of-art equipment and software and an Art Lab and a Workshop. During the year 2012-13 many faculty earned various honors and awards and visited a number of institutions in India and abroad and participated in seminar, symposia and conferences. Faculty members of the departments are engaged in sponsored research and consultancy projects and have published number of research papers in

International and National Journals and Conference Proceedings and published two books.

Academic Staff: 15; Students Admitted: UG-43, PG-24, Ph.D.-26; Publications: Journals -50 , Book Chapter-05, Conference - 30; New Projects: 183.96 Lakhs

1. SALIENT FEATURES

Seven students were awarded Ph.D. Degree in the convocation held in 2012. The eighth batch of students in the B.Tech. (Biotechnology) programme with a sanctioned intake of 45 students was admitted. M. Sc. Biotechnology programme with a sanction strength of 37 students has also been successfully running with annual finance aid of Rs. 56.60 lakhs by DBT, Govt. of India, New Delhi. Two DST & one CSIR sponsored research project were successfully completed and six new research projects with funding from ICMR, SERB and CSIR with a total outlay of Rs. 183.96 lakhs have been received during 2012-13 against these projects. In addition to this, Eleven projects costing Rs. 756.72 lakhs are already in progress in the department.

11. SUMMARY OF MAJOR SPONSORED RESEARCH SCHEMES AND CONSULTANCY PROJECTS

PI – Dr Naveen K Navani,
Funding Agency – Department of Biotechnology, Govt of India
Budget – Rs 46.73 Lakhs

Title : Development of an aptamer based biosensing system for detection of water borne pathogen *E. coli* O157H7

Summary:

Enterohemorrhagic *E. coli* (EHEC) O157:H7 is a potentially fatal food-borne pathogen that can cause hemorrhagic colitis and the hemolytic uremic syndrome (HUS). Hallmarks of EHEC pathogenicity are the production of intestinal attaching and effacing (AE) lesions and the secretion of potent Shiga toxins. In 2007 Hamner et al reported the significant presence of *E. coli* O157:H7 in Ganges river and yet under-acknowledged health concern in India. For several health and quality control concerns it is imperative that specific detection of the pathogens be done before mitigation strategies can be directed against them. In this project, we propose to generate high affinity nucleic acid aptamers against specific hcp protein of *E. coli* O157:H7 which is a major player in gaining entry to the intestinal cells. We propose to attempt an optical detection system using aggregation/disaggregation method by conjugating thiol-modified aptamers to gold nanoparticles or quantum dots that can be used

for on-site detection system of this fatal pathogen.

PI – Dr P. Kumar
Funding Agency – DRDO, Govt of India
Budget – Rs 41.27 Lakhs

Title : Microbial degradation of toxic aromatic compounds using structural biology approach.

Funding Agency – ICMR
Budget – Rs 38.00 Lakhs

Title: Structure-based development of anti-bacterial enzyme inhibitors against enzyme involved in lipooligosaccharide (LOS) biosynthesis: Structure determination and in-silico drug design against *Moraxella catarrhalis* UDP-N-ac.

PI – Dr A.K. Sharma
Funding Agency – ICMR
Budget – Rs 35.00 Lakhs

Title: Bioinformatic and structure-based approach towards developing low molecular weight proteins with nuclease and translational-inhibitory activities as new potential anticancer agents (started in May 2012)

Summary:

The present proposal aims to adopt a bioinformatic and structure-function based approach towards evaluating the potential anticancer properties of 2S storage proteins from

selected plant seeds (*Citrus maxima*, *Citrus reticulata* and *Putranjiva roxburghii*). The evaluation of antiproliferative properties along with translational-inhibitory and nuclease activities will be performed. The three-dimensional structure analysis of native as well as its complex with specific inhibitors will be performed. A detailed structure analysis along with biochemical and biophysical studies will help in enhancing our understanding of the structure-function relationship of these proteins at molecular level. The successful completion of this project will certainly contribute towards developing them as potential anticancer agents.

PI- Dr. R. Pathania

Sponsoring Agency: Indian Council of Medical Research (ICMR),

Total cost: Rs. 49.9 Lakhs

Duration: 3 years.

Started on: September, 2012

Title: A chemical genetic approach for discovery of new chemical entities against multiple drug resistant Bacteria.

Summary:

The major cause of multi drug resistance (MDR) in bacteria is the presence of transporter proteins (efflux pumps) in their membranes that "pump out" the antibiotics from the cellular environment. Because of this multi drug resistance (MDR), available antibiotics cannot be used against many drug resistant bacteria. The present study targets on discovering efflux pumps inhibitors (EPIs) of five different families of efflux pumps which have been identified so far. The genes encoding different classes of efflux pumps will be cloned and expressed in a mutant strain of *E. coli* that lacks an intrinsic efflux pump. The recombinant strain will be used for screening a small molecule library to identify potential efflux pump inhibitors (EPIs). This will make available molecules which can be used along with the

already available antibiotics in the clinic against multi drug resistant bacteria.

PI- Dr. S. Tomar

Sponsoring Agency : SERB, DST

Total cost: Rs 37.00 Lakhs

Duration: 3 years.

Title: Structure analysis of Chitinase from *Tamarindus indica*"

Summary:

Chitinase enzyme can hydrolyze the linear polysaccharide chains of chitin and peptidoglycan. The main aim of this proposal is to understand structure-function relationship of chitinase, an important plant defense protein that possess antimicrobial activity against fungi and bacteria. Chitinase enzyme will be isolated and purified from tamarind seeds. Molecular cloning of the gene will be done by isolating RNA and by doing RT-PCR, PCR, RACE. The obtained cDNA will be sequenced, which will be used for deducing the complete amino acid sequence of chitinase protein. The structure-function analysis will be done using biochemical and biophysical methods. The secondary structure determination and stability studies will be performed at different physiological conditions using various techniques like circular dichroism and fluorescence. Subsequently, crystallization by vapor diffusion method and atomic structure attempts will be made in native form and with its substrate analog complexes. The detailed crystal structure studies together with stability and secondary structural/biochemical studies in different conditions will help in enhancing our understanding of the structure-function determination will be done by X-ray crystallography technique. Crystallization relationship of this enzyme at atomic level. A full understanding of the structure/function relationships of chitinases might facilitate the production of transgenic plants with increased resistance towards a wide range of pathogens.

4.3 DEPARTMENT OF CHEMICAL ENGINEERING

Academic Staff: 21; Students Admitted: B.Tech.- 80; I.D.D.- 31; M.Tech.-68; Publications: Books/Book Chapter- 02; Journals- 60; Conferences- 52; New Projects: Research- Rs. 19.25 Lacs.

1. SALIENT FEATURES

During last year, the Department of Chemical Engineering celebrated its Golden Jubilee Year. It has made significant growth in research and publication in last decade. Department of Chemical Engineering, IIT Roorkee organized an International Conference on “Advances in Chemical Engineering” between February 22-24, 2013; organized a workshop on “Future Trends in Chemical Engineering” on August 18, 2012. It also organized a series of Lectures by Eminent Personalities to celebrate its Golden Jubilee Year.

Prof. Surendra Kumar got retired on February 28, 2013. Two faculty members namely Dr. Shabina Khanam and Dr. V.C. Nathan joined the Department as Assistant Professors on July 09, 2012 and June 04, 2012, respectively. Dr. B. Prasad and Dr. R. Bhargava got promoted as Professor and Associate Professor, respectively. Many Ph.D. and M. Tech. research projects were completed in collaboration with widely acclaimed national and international institutions like IIP Dehradun, EIL, CBRI, BARC, etc. 60 research papers have been published in high Impact Factor journals and 52 research papers were presented in National and International Conferences.

Placement of UG students has been impressive as almost all UG students got attractive job offers in the core as well as other related companies. Department also organized two short term courses during this period with large participation from Central & State Pollution Control Board, Industries as well as Academic Institutions.

11. (a) SUMMARY OF MAJOR SPONSORED RESEARCH SCHEMES AND CONSULTANCY PROJECTS

- Hydrogenolysis of glycerol has received recent attention because the cost of glycerol as a by-product is projected to decrease significantly as biodiesel production increases. Hydrogenolysis of glycerol leads to the formation of 1,2-PD and 1,3-PDO and ethylene glycol (EG) as main products. These glycols are used widely in the syntheses of pharmaceuticals, polymers, agricultural adjuvant, plastics and transportation fuel. The commercial route to produce propylene glycol or ethylene glycol is by the hydration of propylene oxide or ethylene oxide derived from propylene or ethylene. The production of glycols by the catalytic hydrogenolysis of glycerol is a green process, as the existing methods use petroleum-derived products (fossil resources).

4.4 DEPARTMENT OF CHEMISTRY

Academic Staff: 27; Student Admitted: UG-18, PG-33, Ph.D.-42; Publication: Books/ Book Chapters-2, Journals-113, Conferences-36; New Projects : Research - 62.12Lacs

1. SALIENT FEATURES

Department of chemistry is an integral part of Indian Institute of Technology. Distinguished faculty members provide an environment where the students of B. Tech., M. Tech., M. Sc. and Ph.D. programs could explore and develop new chemistry. General areas covered include physical, organic, inorganic and analytical chemistry. However, faculty members are also involved in interdisciplinary research. This department is aiming to be one of the major centers for teaching and research in chemical sciences in India.

The department is equipped with state-of-the-art facilities like IR and electronic spectrophotometer, Gas Chromatograph, ESI-MS, GC-Mass, HPLC, AAS, elemental analyzer, flame photometer, cyclic voltammeter etc. to provide academic as well as industry oriented training to the post-graduated students. With Rs 82.47 Lakh plan and Rs 16.63 Lakh non plan grants, the department took several initiatives for the betterment of its teaching and research facilities. The faculty members visited a number of institutions and participated/ delivered talks in seminar/ symposia / conferences. The number of papers published in referred journals is 114 and 21 research papers were presented in various conferences/ symposia. A large number of students of the department have qualified NET -CSIR-JRF, GATE, UGC- JRF and other national level competitions. Moreover few students participated in summer project in abroad and international exchange program.

10. SUMMARY OF MAJOR SPONSORED RESEARCH SCHEMES AND CONSULTANCY PROJECTS

(i) Synthesis of DNFB based chiral derivatizing reagents and their application for resolution of pharmaceutical enantiomers by LC., PI : Dr. Ravi Bhushan

Summary: Pharmaceuticals marketed as racemic mixtures, such as, (RS)-Cinacalcet; (RS)-fluoxetine; (RS)-mexiletine; (RS)-baclofen; α -blockers; and Selenomethionine were chosen to develop

methods for separation of enantiomers and to isolate individual antimers for further investigation.

Marfey's reagent having DFDNB platform and its structural variants were synthesised as Chiral derivatizing reagents (CDRs), these included, FDNP-L-Ala-NH₂, FDNP-L-Phe-NH₂, FDNP-L-Val-NH₂, FDNP-L-Pro-NH₂, FDNP-L-Met-NH₂, FDNP-L-Met-NH₂ and FDNP-D-Phg-NH₂. In addition, following CDRs

were also synthesized: N-(4,6-dichloro-[1,3,5]-triazine-2-yl)-(S)-(-)-4-dimethylbenzyl amine; N-(4,6-dichloro-[1,3,5]-triazine-2-yl)-(-)-cis-myrtanyl amine, and N-(4,6-dichloro-[1,3,5]-triazine-2-yl)-(R)-(-)-cyclohexylethyl amine. These CDRs were used to prepare diastereomers of amino group containing pharmaceutical molecules.

Besides, hydrazine based CDR, (NAP-H) was synthesized to attain the functional reactivity for carbonyl group and was used for enantioseparation of six pairs of chiral aldehydes and ketones via synthesis of hydrazone diastereomers. All the diastereomers were subjected to enantioseparation by HPLC using different mobile phases. Enantioresolution of diastereomers of (RS)-Cin was also developed using TLC plates impregnated with L-His and L-Arg. The project was successful in achieving its main objective.

(ii) *In vitro* gastrointestinal based bioaccessibility of heavy metals in plants based food materials grown in active mining region (Funded by BRNS, Total funding Rs. 24.7 lacs), PI : Dr.R.K.Dutta

Summary: In this project the emphasis will be to generate data base for food materials grown near active mining sites in order to estimate the risk of transferring metals from local soil to human food chain. The site identified for this study: Khetri copper mine and Zawar zinc mine. Exhaustive elemental analysis of food materials like cereals and vegetables grown nearby the mining areas will be carried out using neutron activation analysis in collaboration with Radiochemistry Division of BARC and using ICPMS (at IITR). Since total metal concentration is not a good indicator of the toxicity of metals, we have proposed bioaccessibility study of metals of interest, which is a better index of environmental impact on food chain. The success of this project would lead to more exhaustive studies to be taken up to map the bioaccessibility of metals in various mining sites of India.

(iii) *Polymerization of biomolecules on metal oxide surfaces: Implication in origin of life ISRO, Bangalore; 23,80,000/- ; Dec 10, 2012., PI : Prof. Kamaluddin*

Summary: The immediate objective of the project will be to demonstrate the importance of transition metal oxides as efficient catalyst in the polymerization of amino acids and nucleotides. In the case of nucleotide oligomerization through 3'/5' linked products will be estimated. All living systems involve mostly 3'/5' linked nucleotides in nucleic acid. It is important to mention that metal oxides have been found to have extremely high affinity towards amino acids and nucleotides. In our recent studies (Brij Bhushan, Uma Shanker and Kamaluddin, Orig Life Evol Biosph 41, 469–482 (2011)) a series of metal oxides with different oxidation states have been synthesized and their adsorption behavior towards a series of biomolecules has been studied. It is hoped that these metal oxides will also prove to be good agent for the polymerization reaction.

(iv) Dr.Naseem Ahmed

Breast cancer, a major women killer is 70-80% overexpressed with estrogen receptors (ERs). So, ER and/or ER would be the legitimate target for prognostic marker and therapy. Estrogen receptor–ligand interactions produce diverse responses, which result in a complex and heterogeneous genetic alteration. Like, overexpression of ER suppresses p53 causes uncontrolled cell cycle and wild proliferations. Drugs are used either as antiestrogens or aromatase inhibitors, which gave adverse effects as endometrial proliferation or tumor flare or tumor-resistance in long use. Aim of our project is to design, synthesize and evaluate their ER binding affinity against human breast cancer cell lines for some novel flavones, flavones–estradiol conjugates and indanone based tamoxifen analogs. Flavones are derivatized for better lipophilicity. Flavone–estradiols are linked with alkyl or alkynyl chain spacer via C-C bond for better stability, structural flexibility and biological activity. Tamoxifen is a vital chemotherapy drug, however optimal tissue selectivity has not yet been demonstrated. Thus, tamoxifen analogs as novel scaffolds are still a need for additional diversity and new chemical scaffolds for improved tissue selectivity. This proposal will provide

molecular level insights into biological processes and explore living systems in chemical biology. Potentially target-specific anti-tumor agents expected to give new drug candidates against breast cancer treatment.

**(v) Synthesis of chelating ionophores and electroanalytical investigation as ion-selective sensor (Sponsoring Agency:CSIR) Total outlay :14 lacs

4.5 DEPARTMENT OF CIVIL ENGINEERING

Academic Staff : 47; Students Admitted : UG-120, PG-145, Ph.D.-39; Publications : Books/Book Chapters : 02; Journals -196, Conferences – 157, New Projects : Research – Rs. 66.46 Lacs,

1. SALIENT FEATURES

The Department of Civil Engineering at IIT Roorkee was established as Roorkee College in 1847 with Civil Engineering as the only discipline and, thereafter, re-designated as Thomason College of Civil Engineering in 1854. This college was, then, elevated to the status of technical university and, thus, the University of Roorkee came into existence in 1949. The Department and the University celebrated 150 years of imparting civil engineering education in India during 1997-98. The University of Roorkee was merged into the IIT system of India and, thus, renamed as Indian Institute of Technology Roorkee by the Government of India on Sept. 21, 2001. It is hailed as one of the best and most outstanding Civil Engineering Educational complexes of the world, with glorious past traditions.

The Department offers a four-year course leading to the Bachelor's Degree in Civil Engineering. It provides information about the latest developments in civil engineering to its students from India and abroad. The Department also provides education at Master's and Ph.D. levels in eight disciplines of civil engineering. At present, around 112 Ph.D. scholars are pursuing their doctoral research. The academic and research activities are coordinated by six major groups of specialization. These are Structural Engineering, Hydraulic Engineering, Geotechnical Engineering, Transportation Engineering, Environmental Engineering and Geomatics Engineering. The Department is known for its internationally reputed faculty having expertise in diverse fields. It has built up a wide research potential. The Department has unique facilities like Boundary Layer Wind Tunnel, Asphalt Rheometer, Electronic Total Stations, Flex 2D Software, 1000 kN Electro-hydraulic actuators, Electronic bed level recorder, Water Hammer and Surge Tank Experimental set-up, Data Acquisition System and Universal Testing Machine.

During the year 2012-2013, the faculty earned honours and awards for their achievements. The faculty visited a number of Institutions and participated in Seminar / Symposium / Conferences and short-term specialist courses.

During the year 13 Ph.D. degrees were awarded. Academic Staff at present is 45.

3. HONORS AND AWARDS TO FACULTY MEMBERS

Ahmad, Z.

- Journal of Institution of Engineers, India.
- Journal of Irrigation and Drainage, ASCE, USA
- Journal of Hydraulic Engineering, ASCE, USA
- Journal of Engineering & Material Science, NICAIR, India
- Flow Measurement and Instrumentation Journal, Elsevier, Cambridge, UK
- Journal of Hydraulic Engineering, Indian Society for Hydraulics, India
- Journal of Indian Water Resources Society, India
- Journal of Applied Soft Computing, Elsevier, Cambridge, UK
- Journal of Water Management, Institution of Civil Engineers, UK
- Journal of Pipeline Systems Engineering and Practices, ASCE, USA
- Journal of Water Science and Technology, IWA Publishing UK
- Journal of Hydraulic Research, IAHR, The Netherlands

Bhargava, Renu

- Member of the Editorial Board of the American Journal of Environmental Engineering
- Reviewer for the journal of Waste management Research, published by International Solid Waste Association.

- Reviewer of the Journal of Agricultural science And Technology Islamic Republic of Iran
- Worked as reviewer of Journal of Indian Water Resources Society.
- Reviewer for Jr. American Society of Civil Engineers (ASCE),
- Reviewer of ASCE -Practice Periodical of Hazardous, Toxic & Radioactive Waste Management
- Reviewer of Journal of Chemical Technology & Biotechnology, Elsevier Publications
- Reviewer for the journal of Environmental Management, NEERI

Chandra, Satish

- Nominated Member, Research Council, NATPAC, Trivendrum for a period of three years
- Bihar PWD Medal on Research paper titled "Simulation of mixed traffic flow on four-lane divided highways" published in the Journal of Indian Roads Congress in 2011.
- Member, BOS for the Department of Civil Engineering, Indian School of Mines, Dhanbad

Chowdhury, Rajib

- Newton alumni follow-on support from Royal Society

Garg P.K.

- Expert Member, Uttarakhand Public Service Commission for Examination related work.
- Expert Selection Committee at THDC Institute of Hydropower & Technology, Tehri
- Expert Selection Committee at PEC University of Technology, Chandigarh
- Expert Selection Committee at MNIT, Jaipur
- NBA Visit to G. Pulla Reddy Engineering College Kurnool, A.P.
- AICTE Visit to Krishna Anjana Institute of Management & Technology, Meerut

Garg, R.D.

- Outstanding Teacher Award by IIT Roorkee.
- Reviewer for The Journal of Hazardous materials, Elsevier's Publications.
- Member Indian Road Congress committee on environment (G-3) (national)
- Member of the Scientific Advisory Committee J&K Lake and Waterways Development Authority

G.D.Ransinchung, R.N

- Received Best Paper Award for the paper entitled 'Study on Use of Modifiers in Bituminous Mixes-A Review' on Twenty-Eight National Convention of Civil Engineers and National Seminar on Role of Infrastructure for Sustainable Development held during October 12-14, 2012 at IEI, Roorkee Local Centre, Roorkee.

Ghosh, J.K.

- INAE "Innovative Student Projects Award – 2012" for the doctoral thesis titled "Development of a Geo-Hazard Warning Communication System by Devanjan Bhattacharya".
- Gandhian Young Technological Innovation Award 2013 by SRISTI, IIM Ahmedabad for the doctoral thesis titled "Development of a Geo-Hazard Warning Communication System by Devanjan Bhattacharya".

Gosh, S.K.

- Awarded best paper at International Conference on System modeling and Advancement in Research Trends SMART 2012, Moradabad, and October 12-13, 2012.

Gurjar, B.R.

- Chairman, The Institution of Engineers (India) Roorkee Local Centre
- UK India Education and Research Initiative (UKIERI) Award to visit Univ. of Surrey (UK) from 20 December 2012 to 10 January 2013.
- Highly Cited Author of journal Atmospheric Environment (Elsevier)
- Editorial Board Member, American Journal of Environmental Protection.

Jain S.S.

- Best Paper Award by RLC, IE (I) on the paper an entitled "Application of GIS in Enhancing Urban Pavement Management System", 12-14th October 2012.
- Member, Executive Council DCR, University of Science & Technology Murthal (Sonapat)
- Member, Highway Research Board (HRB) & Core Group, HRB, IRC, New Delhi
- Co-Convenor, Road Maintenance & Asset Management Committee, IRC, New Delhi
- Member, Highway Specifications & Standards Committee (HSS), IRC, New Delhi
- Member, Flexible Pavement Committee, IRC, New Delhi

- Member, Governing Council, Institute of Urban Transport (UT), New Delhi
- Member, Road Safety & Design Committee of IRC
- Chairman, Roorkee Regional Chapter of IUT(I), New Delhi
- Member, Board of Studies, UPTU, Lucknow

Kazmi, A.A.

- EXPERT REVIEWER, Technical Options for Solid and Liquid Waste Management in Rural Areas- A Handbook, Ministry of Drinking Water Supply & Sanitation, Govt. of India
- TECHNICAL EXPERT, NOIDA AUTHORITY for NATIONAL GREEN TRIBUNAL.
- MEMBER, EDITORIAL COMMITTEE, Manual of Sewerage and Sewage Treatment (Part A: Engineering, Part B O&M, Part C: Management) Nov 2012.
- SESSION CHAIRMAN, Two-day National Workshop for Finalisation of Revised Manual on Sewerage and Sewage Treatment (Part B: Operation and Maintenance) and (Part C: Management) on 21-22 Jan 2013 at New Delhi
- MEMBER, ADVISORY BOARD, India Water Impact Summit 2012 at IHC, New Delhi 3-5 Dec 2012
- SESSION CHAIRMAN, A Two-day National Workshop for Finalization of Revised Manual on Sewerage and Sewage Treatment 20th – 21st September, 2012, Venue : Hall No 4, Vigyan Bhavan, Maulana Azad Road, New Delhi, 110011

Kumar, P.

- Member, Board of Studies (Civil Engg), Harcourt Butler Technical Institute (HBTI), Kanpur.
- Convener, Research Degree Committee (Civil Engineering), Uttar Pradesh Technical University
- Vice Chancellor's Nominee, Selection Committee, B.I.T. Engineering College, Meerut
- Member, National Executive Committee, National Rural Roads Development Agency (NRRDA) responsible for Pradhan Mantri Gram Sadak Yojna (PMGSY) at National level.
- Member, Empanelment Committee, NRRDA responsible for monitoring of National Quality Monitors of PMGSY.

- Coordinator, Principal Technical Agency, PMGSY for Uttar Pradesh, Bihar, Jharkhand and West Bengal.
- Coordinator, State Technical Agency, PMGSY for Uttar Pradesh and Uttarakhand
- Best Paper of the Session Award on paper Studies on Use of Modifiers in Bituminous Mixes -A Review, in National Seminar on Role of Infrastructure for Sustainable Development, 28th National Convention of Civil Engineers, The Institution of Engineers Roorkee, October 12-14, 2012.

Mittal, Satyendra

- IGS-Indira Joshi award for the best paper, entitled, "Underground basement construction adjoining historical monument by soil nailing- a case study".
- Delivered a keynote lecture in Administrative Training Institute Nainital on "Landslide control techniques".

Ojha, C.S.P.

- Best Theoretical Oriented Paper entitled "Virus Transport through unsaturated zone: Analysis and parameter identification", awarded at The World Environmental and Water Resources Congress, Cincinnati, Ohio.

Parida, M.

- Member, Board of Governor, Kamla Nehru Institute of Technology Sultanpur.
- Subject Expert, BOS, G.B. Pant Engineering College, Pauri Garhwal.
- Member, Board of Studies, School of Planning & Architecture, Bhopal.

Rastogi, Rajat

- Corresponding member of Urban Roads, Streets and Transport Committee (H-8) of Indian Roads Congress for the period January 2012 to December 2014.
- Member of the Board of Studies (BOS) Civil Engineering of Rajasthan Technical University Kota for the period February, 2010 to February 2014

Viladkar M.N.

- Best Paper award by Indian society for Rock Mechanical & Tunnelling Society

4. VISIT OF FACULTY MEMBERS TO OTHER INSTITUTIONS

Name of Faculty	Name of Institute/ Organisation Visited	Purpose of Visit	Dates
B.R.Gurjar	University of Surrey, Guildford, UK	To conduct Colloaborative Research under UKIERI Fellowship	Dec.21, 2012- Jan. 09, 2013.
Rajat Rastogi	IIT Bombay	Academic Interaction and conference	December 11- 15, 2012
P.K. Garg	Peiking University, China	e- learning forum Asia	April 24-27,2012
P.K. Garg	Osaka, Japan	Fourth Asian Conference on Education	Oct 24-28, 2012

5. PARTICIPATION OF FACULTY IN CONFERENCES/ SEMINAR/ SYMPOSIA/ WORKSHOP/GUEST LECTURE

Name of Faculty	Details of Conference/Seminar/ Symposia/ Workshop/Guest Lecture	Venue	Dates
Ahuja, A.K.	Conference on "WIND ENGINEERING (NCWE)"	CSIR, NEW DELHI	December 14 - 15, 2012
Chandra, Satish	National Workshop on "Transportation Challenges – 2022 and R & D Needs"	NEW DELHI	March 01-02, 2012
Chandel, M.K.	Ist International Brainstorming Workshop on "WASTE TO ENERGY IN INDIA"	Nehru Centre Worli, MUMBAI	August 24-25, 2012
G.D. Ransinchung R.N	Workshop on "EXPERIMENTAL STRUCTURAL DYNAMICS, STRUCTURAL HEALTH MONITORING AND NON- DESTRUCTIVE EVALUATION"	I.I.T. DELHI	March 09, 2013
Garg, R.D.	Conference on "URBAN TRANSPORT CONFERENCE"	Hotel Sheraton, NEW DELHI	August 28-29, 2012
Garg, R.D.	National Seminar on "Geospatial Solutions for Resource Conservation and Management (GEOS-2012)"	KRSRAC, BANGALORE	January 18- 20, 2012

9. SUMMARY OF MAJOR SPONSORED RESEARCH SCHEMES AND CONSULTANCY PROJECTS

(i) *Developmen of Vermireactor for Co-Treatment of Wastewater and Biodegradable Solid Waste for small Communities, Sponsored by: DST Delhi- PI Dr Renu Bhargava*

The conventional treatment methods cannot be applied for small communities or in the areas with scattered populations due to financial or other constraints. The solid waste is also scattered and also cannot be managed in these areas as it is a costly option. So, decentralized and smaller systems are the need of today for the co-treatment of both (sewage & biodegradable solid waste). Keeping in mind the water conservation this project is designed for recycling of the waste through simple treatment. In vermi filtration no external energy is required except for application of sewage (if required) and the wastes convert into useful products. Vermifiltration and co treatment shall provide water for non potable uses as well as fertilizers for agriculture. The design criteria for design of vermifilter for the treatment of domestic wastewater and also for the co-treatment of domestic wastewater and biodegradable solid waste shall be developed. The system so developed shall be used for small communities, un-sewered areas and industries.

(ii) *Development of INDO-HCM, Sponsored by: CSIR-CRRI, New Delhi, PI - Dr Satish Chandra*

The objective of the project is to develop guidelines for capacity analysis of different types of road facilities under Indian conditions. The project is funded by the

Planning Commission through CRRI, New Delhi and is an inter-institutional project. The different institutes involved in the project are IIT Bombay, IIT Roorkee, IIT Guwahati, SVNIT, Surat, Anna University, Madras, School of Planning and Architecture (SPA), New Delhi, BESU, Shibpur (Howrah) and CRRI, New Delhi. The project has just started in 2012-13 and is for duration of five years. The total share of IIT Roorkee is around Rs. 10.0 million.

(iii) *Dimensionality Reduction of Hyper-spectral Remote Sensing Data, sponsored by ISRO, Bangalore - PI Dr. J. K. Ghosh*

The Proposed research work is based on fractal mathematics for reduction of dimension of hyper-spectral data. The methodology has been envisaged on the concept of time series analysis of the spectral reflectance curve corresponding to IFOV of a hyper-spectral sensor. Further, optimization technique will be applied to find the optimal number of reduced dimension, suitable for further analysis of hyper-spectral data. The outcome of the proposed research work will be GUI based software for fractal based dimensionality reduction of hyper-spectral data.

(iv) *DST Project under Fast Track Scheme for Young Scientists, PI- G.D. Ransinchung R.N.*

The main objective of this research project is to study the influence of moisture states of recycled aggregates for use in Pavement Quality Concrete (PQC)."

4.6 DEPARTMENT OF EARTHQUAKE ENGINEERING

Academic Staff :21; Students Admitted : PG-64, Ph.D.-06; Publications : Journals -48, Conferences -44,

1. SALIENT FEATURES

Department of Earthquake Engineering at the Indian Institute of Technology Roorkee (erstwhile University of Roorkee) was established in 1960 as School of Research and Training in Earthquake Engineering. Four major areas of earthquake engineering viz., Structural Dynamics, Soil Dynamics, Engineering Seismology and Seismotectonics, and Instrumentation have been nurtured for the last fifty years. The major functions of the Department include teaching and research, and rendering expert advice to various organizations in the area of earthquake resistant design of structures and systems, such as dams, bridges, power plants, etc. The Department has played a key role at the national level in the formulation Indian Standard Codes of Practice for earthquake resistant design of Structures.

Several major facilities have been developed in the Department to conduct experiments related to earthquake engineering. Some of the major facilities include: a low cost railway wagon shock table for dynamic testing of structural models, a computer controlled shake table to stimulate strong ground motion, a quasi static testing laboratory having servo-controlled dynamic actuator systems and servo-controlled compression testing machine, a soil dynamics laboratory equipped with liquefaction table and cyclic triaxial testing system, a seismological observatory having state of the art broadband seismograph to record earthquake ground motion, a strong motion network of 300 digital accelerographs deployed in the Himalayan region to measure strong ground motion due to moderate and major earthquakes and a state-of-the-art 12-station telemetered network to monitor local seismicity in the environs of Tehri Dam.

3. HONORS AND AWARDS TO FACULTY MEMBERS

Shama, M.L.

- Awarded Prof. A.S. Arya Disaster Prevention Award by IIT Roorkee during the Annual Convocation held during August 2012. The award carries a cash prize of Rs. 1 Lac and a citation.
- Member of Advisory Committee on "Seismicity and Earthquake Precursors" constituted by Ministry of Earth Sciences, New Delhi
- Elected unopposed as the ISET Vice-President of the Society.
- Member of Earthquake Engineering Sectional Committee, (Committee No. 39) Sub Committee Bureau of Indian Standards, New Delhi
- Member of Earthquake Engineering Sectional Committee, (Committee No. 39) Sub Committee Bureau of Indian Standards, New Delhi

Sinvhal, Amita

- Amita Sinvhal, WISE India Award, Women in Science and Engineer in – India Awards 2012, for projects involving women engineers /scientists/ architects as key members, for carrying out Post Earthquake Damage Survey after the earthquake in Kashmir in 2005.

Maheshwari, B.K.

- Editorial Board Member, International Journal of Geotechnical Engineering, Maney Publishing, U.K., Since January 2013.

Paul, D.K.

- Member Sub-Committee of Advisory and Monitoring Committee on Seismic Microzonation study of NCT Delhi on 1:10000 scale constituted by Director General of Meteorology, IMD
- Member of Review Committees to Study Final Reports on Benchmarking of CWPRS & CSMRS, constituted by Ministry of Water Resources, New Delhi dated Feb.2, 2013
- Member of Short Term Consultant appointed to the Staff of the World Bank

Group for an assignment with Agriculture and Rural Development Unit constituted by the WORLD BANK

- Member of Task Force Committee to assess the progress of R & D projects on "Engineering of Disaster Mitigation and Health Monitoring for Safe and Smart Built Environment" and provide necessary guidance to project team, Constituted by the CBRI Director, May 2013
- Invited address at the National Symposium on Earthquake Resistant Design & Construction for Urban Social Housing Projects, India Habitat Centre, Lodhi Road, New Delhi, July 19-20, 2012
- Invited Speaker on Realistic Simulation in Earthquake Engineering at the 3D Experience Forum 2012, Dassault Systems, New Delhi, October 12, 2012
- Invited to deliver a Keynote Lecture on "Geophysical Investigations in Civil Engineering and Urban Seismic Risk Reduction" and to Chair a Technical Session in the National Workshop on Engineering Geophysics for Civil Engineering and Geo-Hazards (EGCEG), Organised by CSIR-CBRI, Roorkee from November 22-23, 2012
- Invited to deliver Keynote Lecture in the International Conference on Challenges in Disaster Mitigation & Management Strategies at CoEDMM, IIT Roorkee on February 15, 2013
- Invited to deliver Keynote Lecture in the Workshop on Structural Assessment and Safety of Structures" at Jamia Milia Islamia on Saturday 09, 2013
- Invited to deliver lecture on Tehri Dam, Cognizance- 2013
- Invited to Chair a Technical Session During a National Seminar on Safety of Structures on 26th April, 2013, New Delhi

Wason, H.R.

- Re-elected as President, ISET for 2013-15 term.

Kumar, Ashwani

- Member of Project Advisory Committee, Department of Science and Technology, Govt. of India

10. SUMMARY OF MAJOR SPONSORED RESEARCH SCHEMES AND CONSULTANCY PROJECTS

A six-station local Seismological Network in Himachal Lesser Himalaya

A six-station local Seismological Network has been deployed in the Himachal Lesser Himalaya to monitor the microearthquake activity in the environs of Koldam prior to reservoir impounding. The network became operational since April 2013 and during the first phase of recording shall be operated continuously for a period of one year to allow collecting data on the occurrence of microearthquake activity. The interpretation of data shall provide insight into the seismological conditions prevailing in the environs of Koldam site prior to reservoir impounding. As the Koldam site is located in the seismically active Himachal Lesser Himalaya in the vicinity of the Main Boundary Thrust, this data will be very useful to study the changes in the local seismicity during and after the reservoir filling. The study is sponsored by National Thermal Power Corporation Ltd.

Criteria for the Dynamic Analysis of Steel Railway

In the context of Indian practice the design of railway bridges includes the dynamic effect of the moving load by increasing the live load by an impact factor, which is a function of a single variable i.e. its length. However recent codes of practice address the problem by giving the full recognition to the fact that resonance in bridges may occur depending upon the characteristics of the train, parameters defining its passage, the bridge characteristics and track irregularities. In the wake of current International practice the provisions in the Steel Bridge Code and Bridge Rules need to be re-examined and amended appropriately, in the present context.

Strong Motion Instrumentation Project of IIT Roorkee

Indian Institute of Technology Roorkee (IITR) through funding from Department of Science and Technology and Ministry of Earth Science

(MoES) has Installed 293 strong motion accelerographs in cities of North and Northeast India lying in seismic zones V, IV and III, including 20 in Delhi region. About 250 of above instruments have been networked through NICNET of NIC / SWAN of various states / GSM modem and can be remotely accessed for data downloading. Ground motion records obtained from these instruments provide essential data base which is basic input for almost all earthquake engineering and engineering seismology related studies. This instrumentation has a potential of playing a vital role for real time disaster mitigation and management.

During the last few years of its existence, this instrumentation has recorded about 550 time histories from more than 200 earthquakes. First Indian website for dissemination of strong ground motion data for registered users was developed having address www.pesmos.in. Processed time histories of strong ground motion earthquake records obtained from this instrumentation are uploaded in this website immediately. This website has become very popular among earthquake engineers and seismologists. At present there are more than 300 registered users and the website had more than 30000 hits since November 2011. Data from this project has stirred lot of research in the field of earthquake engineering in general and ground motion studies in particular. During last few years, several PhD and M.Tech dissertations as well as publications have used this data.

4.7 DEPARTMENT OF EARTH SCIENCES

Academic Staff:22; Students Admitted : UG-Int.M.Tech.-28, PG-32, PhD-17; Publications : Journals-33, Conferences -30; New Projects : Research- 98.50 Lacs

1. SALIENT FEATURES

Department of Earth Sciences is one of the leading departments in country in diversified fields of geology and geophysics. The main strength of the department is amalgamation of two major disciplines of Earth Sciences-Geology and Geophysics. The pioneer research contributions in different disciplines of geology and geophysics have been recognized nationally and internationally. The department has been a recipient of financial aid from a number of agencies.

The department offers 5-year integrated M.Tech. courses Geological Technology and Geophysical Technology and a two year M.Sc. courses in Applied Geology. A number of research scholars are actively engaged in Ph.D. research resulting in large number of research publications.

A number of laboratories in the department have been modernized through the induction of specialized high quality instruments like microscopes resistivity meters and others. The faculty members of the department are engaged in different research activities. A number of sponsored research and consultancy projects have been taken up by the faculty members.

The faculty members are renowned workers in their fields of research and motivate students to excel in earth science education. Our students are highly skilled in various aspects of geology and geophysics and are preferred for jobs in national and international organizations such as ONGC, GSI,, AMD,NTPC, NHPC, IITs, Universities, CSIR Labs. , Schlumberger, Cairns Energy, Reliance Energy, Shell Technology etc.

8. SUMMARY OF MAJOR SPONSORED RESEARCH SCHEMES AND CONSULTANCY PROJECTS

Research Projects:

- SAR Interferometry in Surface Deformation Studies in Tectonically Active Parts of India, CSIR, New Delhi (as PI) (in progress) of Rs. 17.42 lakhs.

Title : Subsurface imaging of Uttarakhand Himalaya using a dense network of strong ground motion recorders

Amount : 64.18 lacs

Duration : 2010-2013

Funding agency : MOES

Write up of project: The first part of this project deals with the selection of various recording sites and installation of strong motion recorder in Kumaon and Garhwal Himalaya. In the present work we have selected several sites on the basis of recent activities recorded by existing network and installed the new stations at these sites. The strong motion data collected from different stations have been processed and earthquakes have been located. Second part deals with the development of algorithm for simultaneous inversion of strong motion data for site effect and shear wave attenuation coefficient. The algorithm for simultaneous computation of site effects and shear wave attenuation has been developed and tested for the data collected from the network. The inversion algorithms are based on the forward modeling approach given by Boore (1983) for simulation of strong ground motion. Algorithm for inversion of strong motion data for determination three dimension attenuation structures is in development and testing phase.

- Crustal attenuation studies of the Garhwal and Kumaon Himalaya for estimation of seismic hazard

Amount : 51.66 lacs

Duration : 2012-2015

Funding agency : DST

Write up of Project: Various study dealing with the attenuation properties of Garhwal and Kumaon Himalaya indicates that two regions have marked different in attenuation characteristics. Although the rock type and geology of two regions are similar the study shows that the attenuation characteristics of the Garhwal and Kumaon Himalaya are distinct in nature. Such verifications need to be confirmed from field data. Under a major MoES sponsored project a strong motion array of 14 stations has been installed by the department of Earth Sciences, IIT Roorkee in the Kumaon Himalaya and it has recorded many seismic events since its installation. The department of earthquake engineering is operating strong motion accelerographs in Garhwal and Kumaon Himalaya and also has recording of many events in this region. For estimation of attenuation property this strong ground motion data can be used in the present work. Verifications of results is done by the velocity profiles obtained in different parts of Garhwal and Kumaon Himalaya using seismic refraction survey. Simulation of SM data is heavily dependent on correct choice of input data. Attenuation parameters are the most influential parameter which effect SM heavily. Present work is aimed to correctly estimate attenuation and velocity parameter for different part of Uttarakhand Himalaya which is further used for simulation SGM due to possible great event in the region.

- Title:** Source modeling and generation of strong ground motion: A case study of Sumatra earthquake of 26th Dec, 2004

Amount: 30.02 lacs

Duration: 2009-2012

Funding Agency: BARC

Write up of project: Sumatra earthquake of 26th Dec, 2004 is one of the most devastating earthquakes which have raised concern over effect of Tsunami in the coastal region of India. It has exposed the vulnerability of hazard due to Tsunami at many important places which includes nuclear reactors in the east coast due to an earthquake in far off places like Sumatra. This project is aimed to model the earthquake ground motions generated due to this earthquake at its near source region and far field places like Andaman and Nicobar Island and coastal regions of India. An attempt is made to simulate the strong motion data of the Sumatra earthquake using semi empirical technique initially proposed by Midorikawa (1993) and later modified by Joshi (2001). The PPI station of JISNET is among the closest station which has recorded this earthquake. The strong ground motion record has been simulated at this station by using semi empirical method. Comparison of simulated and observed record is made in terms of accelerograms, velocity records, response spectra and several strong motion parameters. The application of semi empirical technique for study of Sumatra earthquake present a possibility that it can be used for simulation of ground motion at large and small distances for great earthquake. The modified technique will be the outcome of the project which can be used for providing input for safe constructions of major nuclear projects and large buildings in the coastal region in India due to great earthquakes occurring in oceanic crust.

9. CONTINUING MAJOR RESEARCH PROJECT

- Lode Gold mineralization in the Southern Granulite Terrain, Kerala: geochemical and petrological constraints on their genesis (PI - Dr. R. Krishnamurth)
Date of Started: Nov 2010
Date of completion: Nov 2013
Total cost of Project: 43.06 lacs
- Hydrothermal Alteration Pattern Based Exploration Model for Unconformity Type Uranium and Other Associated Metals in Southern Part of Sonari Basin, Lalitpur

Distt., U.P. Sponsored by BRNS (Project ended December 2012)

Total Amount: Rs. 15 lacs

P.I. Prof. A.K.Sen

Twenty-Eight Km long, E-W striking, Lower Proterozoic Bijawar basin rests unconformably over Bundelkhand Granite massif of Archaean age along a faulted contact and is unconformably overlain by the transgressional Middle Proterozoic Vindhyan Supergroup in the south. The surface exposure is about 5-7 km along N-S direction. The overall geological set-up of Sonrai Basin, presence of uranium and base metal in the basin, and possible extension of deep seated fractures below the Vindhyan rocks indicate possibility of unconformity related U-mineralization (?). The present project is outlined for systematic study of the area and to suggest future exploration strategy for U and other metal mineralization.

10. CONSULTANCY PROJECT:

- Geological Mapping and cross section generation of HRT/Feeder Tunnel for Phunatsangchu-III, THDC, Rishikesh of Rs. 5.00 lakhs.
- Feasibility study for the Road Tunnel across Sela Pass, Arunachal Pradesh, RITES Ltd., Gurgaon of Rs. 18.00 lakhs

Academic Staff : 22; Students Admitted : UG-76, PG-68, Ph.D.-12 ; Publications : Journals-42, Conferences-104; New Projects : Research – Rs. 39.40 Lacs

1. SALIENT FEATURES

The Department of Electronics & Communication Engineering is one of the major departments of the Institute in terms of the number of students and number of programmes. It offers a wide spectrum of academic programmes at undergraduate and postgraduate level. Undergraduate programmes lead to B.Tech. in Electronics and Communication Engineering, and B.Tech. in Computer Science and Engineering. Postgraduate programmes offered by the department include Communication Systems, Computer Science and Engineering, Information Technology, RF and Microwave Engineering, System Modeling and Control, and Microelectronics & VLSI. In addition, the department offers two Integrated Dual Degree (IDD) programmes, one leading to B.Tech. (Electronics & Communication) & M.Tech. (Wireless Communication) and the other leading to B.Tech. (Computer Science and Engg.) and M.Tech. (Information Technology). There are more than 40 full time research students working in various disciplines.

The department has always been on a high growth path and has experienced faculty with a strong commitment to teaching and sponsored research. A number of new sponsored research projects have been received in the current year in diverse areas like Data Mining, RF and Microwave Engg. and VLSI design. A new laboratory has been set up for research in Data Mining and Data Warehousing and capacity expansion of existing laboratories have been carried out. A new Computer Laboratory with about 90 computers has been built to cater to the needs of B.Tech Programmes. Three new faculty members also joined the department in the current year.

10. SUMMARY OF MAJOR SPONSORED RESEARCH SCHEMES AND CONSULTANCY PROJECTS

(i) *Project title : Critical Analysis of Mini-SAR data for Moon Surface*

PI: Dr. Dharmendra Singh

Interpretation of moon surface (i.e., different types of minerals etc) with remote sensing data is of paramount importance for understanding the natural resources and the possibility of water in lunar polar region. Thus, it is necessary to critically analyze the mini-SAR data to conclude some concrete interpretation of moon surface. For this purpose, critical analysis of Polarimetric concept is proposed on Mini-SAR data. Since radar sensors offer a potential means of determining the spatial distribution of various types of landscape and surface roughness over large areas within a short time and reasonable cost, therefore special efforts are needed to utilize this technology for generating information required for the interpretation of the areas in lunar polar region. In addition, the work will focus on fusion of multi-temporal available data [Available multi-temporal data (may be only 3 or 4) will be very much helpful for authentication of different clusters. It will be strengthening the classification accuracy.

(ii) *Project Title: Use of polarimetric data for Earth surface parameter retrieval*

PI: Dr. Dharmendra Singh

Assessment of earth surface parameters has been the one of the main objectives of several remote-sensing applications. Because of the importance of these parameters for correct planning of earth resource utilization as well as for timely availability of information about environment changes. One of the most important surface parameters are soil parameters. Studies in the field active microwave remote sensing have shown the feasibility to monitor these soil parameters with ground based,

airborne and space-borne sensors. Therefore, for the estimation of moisture content or surface roughness with remote sensing, it is important to understand scattering characteristics of both parameters individually. Land cover and land use change detection is very promising field which is required for various socio-economical applications. It has been generally agreed that change detection is a complicated and integrated process. No existing approach is optimal and applicable to all cases. Attention must be paid for development of a change detection technique using features extracted from polarimetric SAR data.

(iii) Project Title: Investigation of silicon nanowire FET reliability at high and low temperatures and its modeling ,Funding agency :DST ,Amount: 42.4 lacs ,Duration:3 year ,PI:Dr.Sanjeev Manhas

The main objective of this project will be to carry out reliability studies of gate all around (GAA) silicon nano-wire MOSFETs both at high and low temperature. Setting up of an electrical characterization probe system for wafer level device testing, and building a reliability model of GAA Si nano-wire MOSFETs through extensive experimentation/simulations to predict device lifetime. We also aim to fill a crucial gap between industry and academics in understanding reliability of nanowire devices in their potential replacement beyond 22nm CMOS technology node. To offer opportunities for students and staff of Microelectronics and VLSI group in Electronics and Computer Engineering department of IIT Roorkee to work on the cutting edge devices and process technologies. Create valuable opportunities for collaboration in IC design industries in India and abroad. The trained manpower out of this research will be highly recognized both in academics and semiconductors industry.

(IV) Project Title: “A Robust methodology for nanoscale VLSI circuit design considering layout dependent systematic variations” Amount: Rs. 38,37,000, PI : Anand Bulusu

Sponsor: Department of Science and Technology, GoI

Summary: Presently VLSI circuit design methods do not consider systematic causes of variation at transistor sizing/layout levels. This results in non-optimal performance of ICs and ad-hoc overdesign approaches. Of these systematic causes, process induced mechanical stress and INWE are not location dependent and affect all logic gates. Using fundamental physics of transistors, we propose to model the impact of mechanical stresses and INWE on circuit performance. Using these models, we aim to propose a systematic variation aware circuit design methodology which results in optimized performance. The steps that we follow for completing this task are as follows (for a stress-enabled CMOS technology):

- We have already modeled logical effort of inverters with constant device finger widths and proposed a methodology for design and layout of inverter chains having devices with a constant finger width [9-13].
- We will model the logical effort of an inverter as a function of widths of its device fingers.
- We will model logical effort of NAND/NOR gates and inverter followed by a pass-gate (which is the basic building block of a static latch) as a function of number of fingers and finger width.
- We will propose a methodology to design combinational logic paths having the above logic gates. We will design a ring-oscillator based unpackaged test-chip in a 45nm stress enabled CMOS technology. We will characterize this test-chip to verify the validity of our models. We will get it fabricated through a Multi-Project Wafer (MPW) vendor. Apart from verifying our models, designing such a test-chip in this advanced CMOS technology would be an enriching experience.

4.10 DEPARTMENT OF HUMANITIES & SOCIAL SCIENCES

**Academic Staff-11, Students Admitted : PhD.-05; Publications: Books : 13,
Journals- 37, Conferences-25**

1. SALIENT FEATURES

The Department runs various core and elective courses, which are taught to students of all the branches of B.Tech., B.Arch., MCA and MBA. There are also specialized courses on Technical Communication and Intellectual Property Rights, which are offered to PG students. An evening course on German Language is also run. The Department also has full fledged Ph.D. programs in various disciplines. The Department has a State of the Art Language Lab with a seating capacity of 55 students and advanced language learning software to train students LSRW; a Psychology Lab which contains tests and research material in the area of Organizational Behavior as well as an Economic Data Base containing on various macro-economic indicators of the economy that help the researchers in various fields. The Department also has a Computer Lab. In the year under review the Department has successfully hosted the 6th Annual Conference of Political Economy Association, and a Researcher Connect Workshop on Soft Skills Training.

10. SUMMARY OF MAJOR SPONSORED RESEARCH SCHEMES AND CONSULTANCY PROJECT

Estimation of PMF, design flood including determining spillway capacity for Gulf of Khambat development Project- Kalpasar project', sponsored by Kalpasar Department, 62.8 lakhs, 2012-2013

The Kalpasar Project is a multi -purpose mega project comprising construction of a dam for a total proposed length about 60.0 km, out of which 29 km length is Dam portion in Gulf, 20 km length on main land on western side and 11 km length on main land on eastern side, connecting Aladar in Bharuch District on eastern coast and Kalatalav in Bhavnagar District on western coasts of Gulf of Khambhat. The project envisages the construction of dam across the Gulf of Khambhat consisting of an area over 2000 km², and barrage on Narmada River near village Bhadbhut with diversion canal to divert Narmada Water to the extent the surplus water during the floods become feasible depending on the site specific topography and other relevant hydraulic parameters, to Kalpasar Reservoir to create a lake of fresh water. The gulf receives flood water from the major rivers namely Narmada, Mahi, Dhadhar, Sabarmati, Tapi on eastern coast and few small rivers from Saurashtra region on west coast.

The objective of the present study is to carry out detailed hydrological study for Estimation of Design flood, Probable Maximum Flood (PMF), Combined effect of PMF from the rivers discharging in to the Gulf at Dam Site, and sizing of Spillway Capacity.

1. SALIENT FEATURES

The Department has focused on Teaching, Training and Research activities for academic excellence. The sponsored workshop and seminars have been organized on the emerging trends of management including knowledge management, technology management and entrepreneurship development. The speakers were of National and International repute from Industry, academia and government. The knowledge sharing practices have been motivated amongst faculties and students through peer learning approach. The research scholars are facilitated with updated softwares and expert lectures in the different specific research areas of management. The local industries have been provided with academic input for their employee engagement and to nurture organizational culture and learning. As a part of social responsibility the Department also conducted QIP programs for effective teaching. A number of workshops on research methodology were organized in and outside of the Department and Institute. Campus placement of the department was highly successful with 100% placement of the final year students. All students of the first year were also provided summer internships; with most of them have good stipend. The new electives have been offered at Institute and Departmental level.

10. SUMMARY OF MAJOR SPONSORED RESEARCH SCHEMES

- i. **Ganga River Basin Environment Management Plan-A** project under The Ministry of Environment & Forests (MoEF) conducted by a consortium of seven IITs for the development of Ganga River Basin Environment Management Plan (GRBEMP). Implementation of this project is expected to result in the restoration of the 'wholesomeness' of all the rivers in the Ganga basin. It is for the first time that a consortium of 7 IITs has come together for a project of such national importance and magnitude. We are associated with the project in the Socio-Economic and Cultural theme segment wherein for past one year we have analysed the impact of river Ganga on the livelihood of the people in the basin and the impact of the livelihoods on the Ganges. In next phase, we are analysing the impact of cultural practices and rituals on the river from Gaumukh in Himalayas to Ganga Sagar in West Bengal.

ii. **Conducting a Project on the Cluster development of Weavers**

Here market development through capacity development of the weavers in the major thrust area.

- Jain, Madhu, Ph.D.** (Agra University)
Computer Communications Networks, Performance Prediction of Wireless Systems, Networking, Operations Research, Stochastic Processes, Queuing Theory, Inventory Models, Software and Hardware reliability, Industrial Maths., Mathematical Modelling, Biomathematics

Assistant Professors

- Gangopadhyay Aditi**, PhD (IIT Kharagpur)
Statistics, Psychometry, Statistical Simulation, Ranking & Selection, Statistical Inference.
- Kumar, Sanjeev**, PhD (IIT Roorkee)
Computer Vision, Computational Geometry, Machine Learning
- Maheshanand**, PhD (Jamia Millia Islamia)
Coding Theory, Cryptography
- Pandey, D.N.**, PhD (IIT Kanpur)
Differential Equations, Control Theory
- Pratibha**, Ph.D (Western Ontario Canada Univ.)
Symbolic Computation and Computational Fluid Dynamics
- Singh, Uaday**, PhD (C.C.S. University Meerut)
Fourier Approximation, Summability Theory
- Nayak, Aameya Kumar**, Ph.D. (IIT Kharagpur)
Computational Fluid Dynamics

3. HONOURS AND AWARDS TO FACULTY MEMBERS

Dr. Sanjeev Kumar,

- Selected and represented Indian delegation to attend DST/EPSRC interaction meeting for future research collaboration in Applied Mathematics between India and UK at ICMS Edinburgh during 11-13, July, 2012.

4. VISIT OF FACULTY MEMBERS TO OTHER INSTITUTIONS

Name of Faculty	Inst./ Organisation visited	Purpose of visit	Dates of visit
Prof. Rama Bhargava	Houston (TX), USA	To attend IEEE Healthcare Innovation Conference	7-8 November, 2012
Dr. Kusum Deep	Brisbane Australia	Presented papers, Chaired a session, IEEE Congress on Evolutionary Computations	June 10-15, 2012
Dr. Sandip Banerjee	University of Nice, France	kick-off meeting and invited talk organized by Indo - French Centre for Applied Mathematics (IFCAM)	Nov 19 – Nov 21, 2012
Dr. R. Balasubramanian	School of Computer Sciences, Universiti Sains Malaysia, Pulau Pinang, MALAYSIA	To deliver an invited talk	7th June 2012
Dr. R. Balasubramanian	School of Computer Sciences, Universiti Sains Malaysia, Pulau Pinang, MALAYSIA	To conduct a workshop on “Advanced Algorithms in Computer vision and imaging using MATLAB	8-9th June 2012
Dr. R. Balasubramanian	IS&T/SPIE symposium on Electronics Imaging, Conference On Image Processing: Machine Vision Application V, 2012, San Francisco, California, USA	To present a paper	3-7 February 2013
Dr. A. Swaminathan	International Symposium on Orthogonal Polynomials Special Functions and Applications (OPSFA – 12) Sousse, Tunisia	To present a paper	March 25 – 29, 2013
Dr. Uday Singh	AMAT-2012 International Conference on Applied Mathematics & Approximation Theory, Ankara Turkey	To present a paper	May 17-20, 2012
Dr. Uday Singh	International Congress in the Honour of Prof. H. M. Srivastava ,Bursa, Turkey	To present a paper	August 23-26, 2012
Dr. Sanjeev Kumar	ICMS Edinburgh	To attend DST/EPSRC research meeting	11-13 July 2012
Kumar, S.	IACSIT Singapore	To attend and present a paper in ICIII 2012	Mar. 16-19, 2012

1. SALIENT FEATURES

State-of-the-Art Laboratory:

1. Nuclear Thermo-hydraulics and Safety Research Laboratory

The Nuclear Thermo-hydraulics and Safety Research Laboratory has been developed in the Department with the financial assistance from BARC, Mumbai in the form of three projects having a cumulative outlay of approximately 400 Lac. In this Laboratory the Severe accident scenario in the Indian Pressure Heavy Water Reactors (PHWRs) and Advanced Heavy Water Reactors (AHWRs) shall be experimentally simulated in a single full length channel and the Reactor design safety shall be investigated. The generated experimental data will be helpful to validate the channel heat transfer models. The laboratory has state-of-the-art heating facility of 490 kW capacity (70/140VDC and 3500/7000A).

2. Fire Safety and Research Laboratory

The Fire Safety and Research Laboratory has been developed in collaboration with BARC, Mumbai through the sponsored project of 400 Lac outlay. The laboratory consists of fire test facility for defining the design fire environment relevant for Nuclear Power Plants and other establishments. The main features of the facility are the preparation of actual fire temperature-time, fire flux- time curves for actual combustibles (cable, liquid combustibles etc.), to study effect of ventilation on the design fire curves. Further, the acceptance criteria of various equipment, cable and instrumentations against possible design fire is adopted. The

facility consists of a cone calorimeter of real time analysis. The FTT make Cone Calorimeter has been procured to meet all existing Standards and find the heat release, mass loss, smoke production during the room fire.

Dvivedi Akshay

- To develop a micro-ultrasonic machining (μ -USM) setup for machining micro-moulds in hard and brittle materials. This machining may involve internal and external form machining.
To investigate the proposed μ -USM for the effect of various process parameters on the response characteristics (e.g., surface finishing capabilities and material removal rate) based on experimental design such as Taguchi method and Response Surface Methodology (RSM).
To develop scientific theory to explain the process mechanism of the proposed process by conducting detailed study of the surfaces produced and material removal rate (MRR) relating other process parameters. The process mechanism may be established by imaging techniques and subsequent computational analysis. To develop and validate predictive models for response characteristics of the proposed μ -USM.

Dvivedi Akshay, Kumar Pradeep and Sharma A.K.

- Electric discharge machining (EDM), wire-EDM, and electrochemical machining (ECM) are the most promising processes amongst the non-conventional machining methods, for shaping difficult-to-machine materials. Notwithstanding the merit of these machining methods, there are still problems which need to be solved and improvements to be made before they can be effectively utilized. Electrochemical discharge machining (ECDM) is a hybrid non-conventional manufacturing process which combines the features of electro chemical machining (ECM) and electro discharge machining (EDM). The proposed Grinding Assisted ECDM (GAECDM) process will be different from both the conventional electrochemical discharge grinding process, and the abrasive electrochemical grinding process. Unlike these two processes, the GAECDM process will function under a combined action of electrochemical effects, electrical discharge erosion, and direct mechanical grinding. The integration of the

mechanical action in the form of grinding assistance shall almost eliminate the major problem of 'passivation effect' encountered in normal ECM process, shall remove the re-cast layer formed due to EDM apart from enhancing the MRR which will significantly enhance the process performance.

Jain P.K.

- Experimental investigation and performance optimisation of high precision finishing of gears by electro chemical honing (ECH) process: This project aims at developing the setup for ECH of helical gears and study of effects of process parameters on process performance. Objective of the project is to develop the ECH process as a standard for finishing of gears, which is usually done by conventional methods (gear shaping, gear hobbing etc.)
- Establishing pre-heat time and development of nozzles for reducing pre-heat time while using Bharat Metal Cutting Gas (BMCG): The objective of this project is to study the performance of BMCG using PUG and CNC machine and to establish preheat time for various thicknesses of the metal plates. After study of preheat time with the existing nozzles, the new designs of the nozzles are proposed to reduce the preheat time using BMCG as cutting gas. (Sponsored by: BPCL; Rs. 1404500/)
- **Experimental Investigation on Machining of Ti-6Al-4V Alloy:** The objective of this project is to study the machining behaviour of Ti-6Al-4V Alloy under various conditions such as, minimum quantity lubrication, high pressure cooling, and nanofluids cooling. Investigations will focus on establishing the most appropriate methods of cooling and thereafter the range of suitable machining parameters. (Sponsored by: CSIR; Rs. 20,66000/)
- **Ultrasonic Vibrations Assisted Electro Chemical Machining with Abrasive Honing Gear:** Objective is to study the ECH of gears with ultrasonic vibrations assistance and abrasive honing gear as a tool. The focus will be on establishing the assistance of UV as performance multiplier. (Sponsored by: DST; Rs. 26,50,000/)

Kumar, Ravi

- As a part of Severe Accident Code development and Validation program for Pressure Tube Type Reactors, a set of experiments shall be conducted to recreate the accidental condition in the channel of

IPHWR and make detailed heat transfer studies for validating sub module CHASA which is a 3-D model reactor channel model. The CHASA model includes radiative and convective heat transfer model along with chemical reaction model. The generated experimental data will also be helpful to validate the channel heat transfer model with respect to radiation and high temperature chemical reaction model (Zr-oxidation).

Murugesan K.

- In the present energy scenario India uses 30 % energy for building sector. To have sustainable growth, the current conventional system has to be replaced with other alternative systems, such as the ground energy that is green and sustainable. In this research, it is proposed to study the performance of a solar assisted ground source heat pump (SAGSHP) for heating and cooling applications for building as well as industrial applications. The use of solar energy and ground energy will reduce central electricity demand and indirectly helps to reduce the green house gas emission.

Sahoo P.K. and Mishra Manish

- The success or failure of in-vessel core retention has a profound effect on the progression of severe accidents. The capability to flood the reactor cavity can have a significant impact on plant design. The work presents an attempt for numerical simulation of a deformed reactor channel under heat-up conditions because of LOCA or otherwise. The results can well be used for prediction of the channel behavior in actual heat-up conditions.

Sharma Satish C. and Harsha Suraj P.

- The project deals with the evaluation of the performance characteristics parameter of steam turbine hydrodynamic journal bearings for application in future designs of steam turbines as well as studying troubleshooting in the existing ones. The project will cover Finite Element Solution of the governing Reynolds equation of fluid film in between journal and bearing for the fluid film pressure distribution between the clearance space. The non-dimensional static and dynamic performance characteristics parameters of the bearing system will be computed. A source program will be generated and will be provided to the BHEL Haridwar.

The department has procured state of the art equipment "Thermomechanical simulator (TMS) (cost Rs. 4.2 crores), sponsored by DST, New Delhi under FIST IIT Roorkee, for the research work. Two major sponsored projects in the area of thermo mechanical processing of Zr-Nb alloys and development of erosion resistant duplex stainless steels were sanctioned based on this TMS facility available in our department. Cognizance 2012 was successfully organized by the department. Experts were invited from industries and Research Institutes for key note addresses. Many III year U.G Students went abroad for their internships during this summer vacation. The first batch of dual degree, B.Tech (Met) and M.Tech (Materials Engg) students has joined in our department in this year. The department has prepared the new curriculum for the dual degree students, in which new courses pertaining to electronic and magnetic materials, device materials are introduced.

As usual, the department is providing consultancy and testing facilities to public sector as well as private sector units in this state and around it. The significant work has been done in the area of failure analysis, development of ultrafine grained materials, nanostructured coatings for corrosion resistance and tribological applications, metallic foams, electroless coatings for RADAR, Metallic and Polymer matrix composites, Spray forming, Powder Metallurgy, Friction Stir Processing of Al alloys, Development of materials for hydroelectric power plants and mini hydel projects. NML Jamshedpur has recently associated us in the development of wear resistant material for hydro tubines. The collaboration with BARC, DRDO, ISRO, and DMRL laboratories has been further strengthened and sponsored projects regarding narrow gap welding, and fracture mechanics of pipes are being carried out. A new initiative on multi institutional research between sister I.I.Ts and other research organizations has been undertaken to develop high energy density Li-ion batteries. Active collaboration is continuing with AHEC, Mechanical, Centre of Nanotechnology (CON), Chemistry, and E&C departments in the

institute. There has been interaction between our department and MIED, CON, Electronics and Computer Science, and Physics for the joint guidance of research work in the interdisciplinary research areas. The new equipments such as SEM/EDS, Microhardness tester, Indentation Creep, Attritor Mill, Pin-on-Disk tribometer are added in the department for the research activities in the various areas of materials.

11. SUMMARY OF MAJOR SPONSORED RESEARCH SCHEMES AND CONSULTANCY PROJECTS

Thermo mechanical Simulator costing Rs 4.2 crores, sponsored by DST under FIST Programme, has been procured in our department and used extensively for the sponsored research projects and M.Tech and Ph.D students' research work. The project titled "Physical simulation of hot deformation processes (forging and extrusion) in a thermo-mechanical simulator and correlation with evolution of microstructure, texture and micro-texture in Zr-Nb alloys" has been sponsored by BRNS, Mumbai and the work is currently in progress. The projects such as mechanical behavior of ultrafine grained Zr and Zr-Nb alloys processed by cryorolling and development of creep resistant ODS steels through powder forging, sponsored by BRNS, Development of erosion resistant duplex stainless steels and Mechanical and Thermal Behaviour of Polymer Nanocomposites,

sponsored by DST, are currently being investigated in our department.

Our department has recently purchased SEM/EDS (Zeiss make EVO 18/MA-15) (costs Rs 85 lacs) and it is an invaluable facility for the microstructural characterization of materials. The facilities such as microhardness tester, indentation creep, Simoloyer attritor mill for mechanical alloying, high temperature creep testing, pin-on-disc tribometer are added in the department.

1. SALIENT FEATURES

The Saharanpur Campus has three departments viz. Department of Paper Technology, Department of Polymer and Process Engineering and Department of Applied Sciences and Engineering.

Department of Paper Technology

The Department of Paper Technology is one of the oldest Departments of the Saharanpur Campus which offers academic programs at various levels in Pulp and Paper Technology. The Department has well developed academic infrastructure. Its faculty is engaged in teaching, research and industrial consultancy. The courses aim to cater to the needs of Paper Industries across the country.

Department of Polymer and Process Engineering

Department of Polymer and Process Engineering (DPPE) is a new Department of the Indian Institute of Technology Roorkee, located in the Saharanpur Campus. The Department offers academic courses leading to B. Tech in Polymer Science & Technology, and a Dual Degree Program of B. Tech in Process Engineering with MBA. The Department also performs fundamental and applied research in Polymer Science and Technology, Process Engineering and Management. The courses aim to cater to the needs of the vastly developing and hugely demanding “**Polymer and Process Industries**” across the globe.

Applied Sciences and Engineering

The Newly incepted Department of Applied Science and Engineering comprises multi-disciplinary faculty members at present mainly related to Physics, Chemistry, Mathematics, Humanities (English literature), Electrical /Electronics Engineering background to cater the need of multi-disciplinary students at Saharanpur Campus of IIT Roorkee. Our faculty members, and scholars provides a home to the most promising doctoral and post-doctoral research with an access to state of art educational/Research Laboratory resources and unparalleled laboratory for both

Basic/Applied Science and Engineering research.

- All the above Departments have procured state of the art research and laboratory equipment worth **Rs. 15 Crore including FIST project** sponsored by DST, New Delhi. Most of the instruments have been installed and some of them are in the process of installation. List includes; AFM, Glove Box, Galvanostat, Hot Stage Polarizing Microscope, FE-SEM, Twin Screw Extruder, Micro Injection Molding, Rheometer, U.V. Vis., and other wide range of laboratory equipment for paper, polymer and process programs.
- Sports Complex development is in progress.
- Multi Story Faculty Residential Complex (TRIVENI APARTMENT) has been allotted to the faculty members.
- Air Conditioning of New Technology Block is in progress.
- Library, Auditorium, Guest House are under restructuring and modification process.
- Purchase of Physiotherapy Equipment for Dispensary is in progress.
- Saharanpur Campus is now connected with NKN network

4.17 DEPARTMENT OF PHYSICS

Academic Staff : 28; Students Admitted : UG-Int. M.Sc. : 24; PG-39, Ph.D.-8;
Publications : Journals-56, Conferences-67; New Projects : Research - Rs 177.24 Lacs

1. SALIENT FEATURES

The Department of Physics plays pivotal role in enriching the scientific endeavor of IIT Roorkee. The faculty members of Physics Department provide an excellent teaching environment to its students pursuing their studies for Ph.D., M.Tech. (Solid State Electronic Materials), 5-year Integrated M.Sc., 2-year M.Sc., and B.Tech. students. The Ph.D. programs are focused on advanced topics in several thrust areas of Physics in the fields of Atomic & Molecular Collision Physics, Atmospheric Physics, Condensed Matter Physics, Laser Physics, Nuclear Physics, and High Energy Physics.

The faculty of Physics Department has been actively pursuing research in important areas like High-Tc superconductivity, heavy fermions, transport in anisotropic fluids, magneto-optical properties of transition metal compounds, conducting polymers and device applications, smart electro-ceramics and biomaterials, nano-physics, scattering of spin-polarized electron with atoms and molecules, physics of deformed and super-deformed nuclei, nuclear isomers, exotic radio-activities, nuclear reactions and fission, lightning, auroral and airglow studies, and photonics and fiber Optics. The Department is presently running research projects sponsored by various agencies like DST, ISRO, DAE, AICTE, MIT and CSIR.

The Department has well developed research laboratories in the areas of Smart materials, High-Tc Superconductors, Functional nanomaterials. A new advanced facility of pulsed laser has recently been added and has started functioning. The department presently has about 55 Research Scholars.

The computing facility in the Physics Department consists of two Sun Fire X 2200 M2 X 64 Servers (dual-core dual-CPU), ideal machines for number crunching. In addition about five high speed works-stations have been added. This has helped research workers to handle problems of current interest that require distributed computing and parallelism. More powerful computers/servers are in the process of being procured.

2. LIST OF FACULTY MEMBERS

Professors

Indu, Byas Dev, DPhil (HNB Univ., Garhwal)

Condensed Matter Physics: Theoretical Study of Impurity & anharmonicity Effects on the Acoustical, Optical & Electronic Properties of High Temperature Low Dimensional Super Conductors, Semiconductors & Insulators and effects of lower dimensions.

Jain, Ashok Kumar, PhD (BHU, Varanasi)

Head

Nuclear Physics: High-Spin States, Super-Deformed Nuclei; Semi-Classical Physics: Order & Chaos in Nuclei, Periodic Orbit Theory.

Nath, Ravindra, PhD (IIT Delhi, India)

Condensed Matter Physics: Peizo-Pyro & Ferroelectric Properties of Polymers & Device Applications.

Nautiyal, Tashi, PhD (Roorkee)

Condensed Matter Physics: Theoretical Study of Electronic, Magnetic & Optical Properties of Compounds.

Rai, Jagdish, PhD (BHU, Varanasi)

Atmospheric Physics: Cloud Formation & Lighting; Ratio Propagation; GEC; Industrial Waste Management & Ionosphere.

Singh, Gauri Shankar, PhD (Roorkee)

Condensed Matter Physics: Electronic States in Nanosystems; Band Structures of Photonic Crystals; Transport in Ellipsoidal Fluids (Isotropic & Liquid Crystal Phases)

Singh, Vir, PhD (BHU, Varanasi)

Atmospheric Physics: Atmospheric & Space Science, Auroral & Airglow Studies, Planetary Atmospheres

Srivastava, Rajesh, PhD (BHU, Varanasi)

Atomic and Molecular Collision Physics: Theory of Scattering of Spin Polarized Electrons with Spin Polarized Atomic Systems. Atomic Structure Calculations with Relativistic Effects, Autoionizing States & their Decay.

Associate Professors

Kaur, Davinder, PhD (Delhi University, Delhi)

Experimental Condensed Matter Physics: Thin films & Devices of Solid State Functional Materials Especially High Temperature Superconductors and CMR Materials

Varma, Ghanshyam Das, PhD (BHU)

Experimental Condensed Matter Physics: High Temperature Super Conductor, Nano Carbon Tubes.

Yadav, Kanhaiya Lal, PhD (IIT Kharagpur)

Experimental Condensed Matter Physics, Smart Electro-Ceramics & Biomaterials

Patra, Binoy Krishna, PhD (BHU, Varanasi)

High Energy Nuclear Physics, Quark – Gluon Plasma in ultra-relativistic nucleus-nucleus Collisions and in the early Universe, Low-energy effective field theory, Spectral Representation in finite-temperature field theory.

Misra, Aalok, Ph.D (Rochester Univ. USA)

High Energy Physics: String Theory, Gauge Field Theories, Meson-Baryon Low Energy Effective Field Theories

Rastogi, Vipul, Ph.D (IIT Delhi)

Laser Physics: Fiber Optics, Integrated Optics, Photonics

Assistant Professors

Arumugam P., Ph.D. (MS Univ., Thirunelveli)

Nuclear Structure theory, Nuclear Astrophysics, Hot and rotating nuclei, Relativistic mean field theory

Chatterjee, Rajdeep., Ph.D. (SINP, Calcutta)

Theoretical Nuclear Physics, Nuclear Astrophysics, Low and medium energy nuclear reactions, Unified models of nuclear structure and reactions, exotic radioactivity, physics of dripline nuclei

Gourishetty Anil Kumar PhD (IIT Kharagpur)

Nuclear Physics (Experimental)

Maitra, Tulika, PhD (IIT Kharagpur)

Condensed Matter Theory, Correlated Electronic Systems, frustrated magnetic systems, Organic electronic systems.

Mitra Anirban, PhD (IIT Kanpur)

Laser, opto electronics, Optical properties of semiconductors

M.V. Sunil Krishna PhD (IIT Roorkee)

Atmospheric Physics: Atmospheric & Space Science, Auroral & Airglow Studies, Planetary Atmospheres

Sharma, Lalita Ph.D (IIT Roorkee)

Atomic and Molecular Collision Physics: Theory of Scattering of Spin Polarized Electrons with Spin Polarized Atomic Systems, Atomic Structure Calculations with Relativistic Effects, Autoionizing States & Their Decay

Wasan, Ajay, PhD (IIT Kanpur)

Atomic spectroscopy, Quantum Optics, Bose-Einstein condensation, Quantum computing

Srivastava, P.C., PhD (Allahabad Univ.)

Theoretical Nuclear Structure Physics, Exotic nuclei, Nuclear Models, Large-scale shell model, Double and Neutrinoless double beta decay.

Sanyal, P, PhD (IISc Bengaluru)

Theoretical Solid State Physics

Natraj S. Hulyiar, PhD (IAP, Bengaluru)

Atomic and Molecular Physics, Symmetry violations in atoms and molecules, Atomic and molecular cloaks, Matter-antimatter symmetry.

Maiti, Moumita, PhD (SINP, Kolkata)

Nuclear Physics and its applications, Production of neutron deficient radio nuclides.

Deo, Ajay Y, PhD (Mumbai Univ.)

Experimental Nuclear Physics, Nuclear structure at high-spin, beta-decay studies, heavy-ion induced.

Emeritus Professor/ Fellow

Singh, Ishwar, PhD (Roorkee)

Condensed Matter Physics: Theoretical Studies of Strongly Correlated Electronics Systems including Heavy Fermions and High- Temperature Super Conductors. Conceptual Foundations of Quantum Mechanics.

3. HONORS AND AWARDS TO FACULTY MEMBERS

Jain, A.K.

- Member, Cyclotron Users Committee, Variable Energy Cyclotron Centre (DAE), Kolkata, Since 2013.
- Patron, Indian Association of Physics Teachers, Regional Chapter, Uttarakhand, 2013.
- Member, International Advisory Committee, ND2013 - International Conference on Nuclear Data for Science & Technology, NNDC, Brookhaven Natl. Lab, USA.
- Member, National Advisory Committee, D.A.E. Symposium on Nuclear Physics, 2012, 2013.
- Member, Board of Studies, Thapar University, Patiala, 2013.
- Member, Program Review Committee, Nuclear Data Physics Centre of India, BRNS-DAE, Mumbai, 2012-continue.

Srivastava, Rajesh.

- Member of International Scientific Committee of “International Symposium on (e, 2e), Double Photoionization and Related Topics & the 17th International Symposium on Polarization and Correlation in Electronic and Atomic Collisions” to be held in Hefei, China, August 1- 3, 2013.
- Member of the International Committee of “IAEA’s Coordinated Research Project (CRP)” Spectroscopic and Collisional Data for Tungsten from 1 eV to 20 keV
- Member of the program advisory committee on “LASERS, OPTICS, ATOMIC & MOLECULAR PHYSICS” of Department of Science and Technology (DST), Govt. of India (2012-15).
- Member of the National Advisory Committee of “3rd DAE-BRNS Symposium on Atomic, Molecular and Optical Physics”, IISER Kolkata, Dec. 14-17, 2012.
- Member of the National Advisory Committee of “National Conference on Electron Collision Processes in Atomic and Molecular Physics”, Vallabh Vidyanagar, Gujarat, March 7-9, 2013

12. SUMMARY OF MAJOR SPONSORED RESEARCH SCHEMES AND CONSULTANCY PROJECT

Project Title : Some Aspects of Strongly Interacting QGP (Co-investigator with Dr.B.K.Patra) – CSIR project

PI: Dr. B.K. Patra , **Co-PI:** Dr. Aalok Misra

Summary: Our Project is about the study of some aspects of QGP from an appropriately uplifted M/string theory background, which has been missing in the literature. This includes a study of uplifts to manifolds of G_2 -structure/holonomy, e.g., the (resolved) warped deformed conifolds relevant to gravity duals of (non-)zero temperature gauge theory, the noncompact Calabi-Yau's involving other Sasaki-Einstein manifolds relevant to zero and finite temperature D3-D7 brane systems relevant to QGP studies, etc. and subsequent study of various thermodynamic quantities in the corresponding eleven-dimensional supergravity as well as the intermediate mirror type IIA string theory, such as entropy, shear viscosity, diffusion constant, etc.

Summary: The aim of the project is to study correlated electronic systems showing various long-range orders, often co-existing. Of late such systems have become extremely important both from the fundamental and applications point of view. The recent activities in systems like CMR manganites, double-perovskites, multi-ferroics and interface between a correlated and a band insulator testify the importance of a thorough investigation of such systems. In almost all these systems, the ground state shows co-existing LRO at different composition ranges. As a function of external parameters (temperature, pressure, magnetic field, composition etc), they show various other LR ordered phases as well. It is in this context we propose to study them using both electronic structure calculations as well as phenomenological modeling.

Project Title: Competing and coexisting long range orders in certain correlated systems

Academic Staff: 10; Students Admitted: PG -39, Ph.D-07 ; Publications: Journals-21, Conferences-24; New Projects: Research- Rs.92.27 lakhs

1. SALIENT FEATURES

Department of Water Resources Development and Management (formerly WRDTC) was established in the year 1955 by the Government of India with the objective to train serving engineers from Asia, Africa and other developing countries in various aspects of water resources engineering and to bring together engineering talent from these countries for a first hand understanding and appreciation of each others problems and to help evolve , by pooling of knowledge, new techniques in water resources development and management suited to conditions of Afro-Asian region. In addition, the programme of education in the department help foster a feeling of brotherhood amongst the engineers of various countries. Since its creation in 1955 the department has trained 2543 serving engineers from 49 countries

2. LIST OF FACULTY MEMBERS

Professors

Khare, Deepak, PhD (Roorkee)
Ground Water, Earth Dam, Water Resources Management
Head (w.e.f. 1 Jan., 2013)

Sharma, Nayan, PhD (Roorkee)
Head (upto Dec. 2012)
River Engg., Hydraulic Structures & Irrigation Engg.

Chaube, U.C., PhD (IIT Delhi)
Water Resources, Hydrology, Irrigation and Environmental Management of Rivers

Tripathi, S.K., PhD (Allahabad)
Agronomy, Irrigation Water Management and Agricultural Planning

Kansal, M.L., PhD (Delhi Univ.)
Water Resources Systems, Operation Management and Drinking Water

Associate Professors

Mishra, S.K. PhD (Roorkee)
Irrigation Water Management, Hydrology

Assistant Professors

Pandey, Ashish, Ph.D (IIT Kharagpur)
Irrigation Water Management, Hydrological Modeling of Watershed, Remote Sensing and GIS Applications

Chelliah Thanga Raj, Ph.D (IIT Roorkee)
Hydro Energy Storage, Energy Optimal Control of Induction Motors

Emeritus Fellow

Das, Devadutta, ME (Roorkee)
Hydro-Electric System Engineering, Energy Systems Planning & Economics

Professor (on Contract)

Chauhan, Gopal, ME (Roorkee)
Design of Hydro-mechanical and Construction Equipment

Programmer

Sunita, Devi, (Ms), PhD (Roorkee)
Optimization of Water Resources System

3. HONOURS AND AWARDS TO FACULTY MEMBERS

Tripathi, S.K.

- Member of the Task Group on WALMI's / IMTI's of Ministry of Water Resources Govt. of India New Delhi
- Chairman, Meteorological Instruments Sectional Committee PG 21, Bureau of Indian Standards, New Delhi
- Member, Working Group on "Agricultural Research & Education" for 12th 5 year plan (2012-2017) of Planning Commission Govt of India.
- Member, Research Advisory Committee, Directorate of Water Management (ICAR), Chandrasekharpur, Bhubaneswar.
- Fellow, Indian Society of Agronomy, Fellowship presented on Nov. 26, 2012 at 3rd International Agronomy Congress held at IARI, New Delhi.

- ICAR Team Member, Accreditation Team for CCS Haryana Agriculture University, Hissar Feb.12-14,2013.

Sharma, Nayan

- Member of Hydrometry Sectional Committee, WRD 01, Bureau of Indian Standards, Govt. of India, 2013-.
- Member of Hydraulic Structures Instrumentation sectional Committee, WRD 16, Bureau of Indian Standards, Govt. of India, 2013-.
- Member of Indian National Committee on Surface Water (INCSW), constituted by Central Water Commission, INCSW Secretariat, New Delhi, September 2012
- Member of the Expert Committee for Preparation of Bihar Flood Hazard Atlas, constituted by National Disaster Management Authority, Govt. of India in 2012
- Panel Expert for Kosi Bandh Katan Judicial Enquiry Commission, Govt. of Bihar,2010-2013 headed by Chief Justice (Retd.) of Patna High Court.
- Member Barrages And Weirs Sectional Committee–RAV 20 Bureau of Indian Standards, Govt. of India.
- Member of Sectional Committee on River Training and Diversion Works, WRD-22 of Bureau of Indian Standards, Govt. of India.
- Member of Board of Studies for Department of Rural Technology, HemvatiNandanBahugunaGarhwalUniversity, Srinagar, Uttarakhand (A CentralUniversity) 2012-2013.
- Member of Expert Committee for Scientific Assessment of Flood Prone Areas in India, Constituted by Ministry of Water Resources (Ganga Wing), Govt. of India 2012-2013.
- Member of the International Scientific Committee for Workshop on Labyrinth and Piano Key weirs – PKW 2013 to be held in Paris , France during November 2013.
- Member of Technical Expert Committee for Review of Asiganga-I and Asiganga-II Small Hydro Projects in district Uttarkashi, UttarakhandState, constituted by Uttarakhand Jal Vidyut Nigam Ltd., 2012-2013.
- Member of Advisory Group of Experts on Flood and Erosion and Water Management,

constituted by Govt. of Assam on 2012-2013.

- Member of ITRA – Water Review Panel under initiative entitled IT Based Innovations to Sustainability of Water Resources, constituted by Information Technology Research Academy (ITRA), Govt. of India, 2013.
- Member of ITRA – Water Review Panel under initiative entitled IT Based Innovations to Sustainability of Water Resources, constituted by Information Technology Research Academy (ITRA), Govt. of India, 2013.
- Member of Dams and Spillways Sectional Committee, WRD 9, Bureau of Indian Standards, Govt. of India, 2011-2013.
- Member of Apex Advisory Committee on R&D for Planning/ Monitoring, of various R&D activities related to Hydro Sector, Tehri Hydro Development Cooperation India Ltd.(THDCIL), Rishikesh, 2012-2013.

Khare, Deepak.,

- “Independent Expert Member” of the "APEX COMMITTEE" for Sustainable Development by Tehri Hydro Development Corporation Ltd. (THDC).
- Member of the Expert Committee formed by government of Uttarakhnad for technical examination of dam affected areas located above MFL of Tehri /Koteshwar reservoir.

Mishra, S.K.

- Member, Expert Appraisal Committee, Ministry of Environment and Forests, Govt. of India, New Delhi.

Pandey, Ashish

- Member of Indian National Committee on Surface Water (INCSW)of Ministry of Water Resources, Govt of India constituted by Central Water Commission, INCSW Secretariat, New Delhi, August 13, 2012.

Chelliah,T.R.,

- Awarded best paper award at IEEE International Conference on Advanced Computing and Communication Technologies,Rohtak (INDIA).

4. VISIT OF FACULTY MEMBERS : INTERNATIONAL ONLY

Name of Faculty	Name of Institute/ Organisation Visited	Purpose of Visit	Dates
Tripathi, S.K.	University of South Australia, Adelaide	Presented a paper at 4th International conference on Sustainable Irrigation 2012 held at University of South Australia, Adelaide	Dec. 11-13, 2012
Chelliah T.R	Massachusetts Institute of Technology (MIT), USA	Discussion with Electric Vehicle Team during a conference	31-01-2013
	– Harvard University (USA)	To attend Conference	30-01-2013
	– The Hong Kong Poly. University	To attend Conference & visit of Electric machines and Power Electronics Laboratories and have discussions with the experts	24-08-2012
	– University of Hong Kong	To visit Electric machines and Electric Vehicle laboratories visit and have discussions with the experts	22-08-2012
Pandey, Ashish	Dallas, Texas, United States of America	To present paper in the American Society of Agricultural and Biological Engineer's Annual International Meeting - 2012	July 27 - August 03, 2012

5. DISTINGUISHED VISITORS TO THE DEPARTMENT

Name	Designation	Affiliation	Purpose of Visit
Prof. Ganesh Chand	Vice Chancellor	Fiji National University	To deliver a lecture
Dr. Sanjay Shukla	Assistant Professor	TFAS Southeast Florida Research & Education Center, North Immokalee	To deliver a lecture

10. SUMMARY OF MAJOR SPONSORED RESEARCH SCHEMES AND CONSULTANCY PROJECT

The Major Sponsored Research Projects of about Rs. 4,97,31,000/- and Major Sponsored Consultancy Projects of about Rs. 1,33,16,904/- are under progress.

4.19 ALTERNATE HYDRO ENERGY CENTRE

**Academic Staff :07; Students Admitted : PG-44, Ph.D.-15;
Publications : Journals -41, Conferences-38;**

1. SALIENT FEATURES

Various activities related to education, research and technical expertise are undertaken by AHEC during the year in the area of small hydro power and other renewable energy development as well as environmental management of water bodies.

The planning and design of SHP for various states of the country has been undertaken. The centre has conducted several National and International training programmes attended by large number of professionals. Technical assistance & support was provided to Govt. of Arunachal Pradesh for development of SHP stations in the border areas of north & north-eastern region under Ministry of New and Renewable Energy, Govt. of India.

A number of consultancy & research projects are received and completed. AHEC provided technical support to the public utilities of the state of UP, Uttarakhand, Chhattisgarh, Bihar, HP, Andaman & Nicobar, Mizoram, Arunachal Pradesh, Gujarat, Madhya Pradesh, J&K and Financial Institutions viz. PTC, MNRE etc. in small hydropower sector.

The setting up of Small hydro power hydraulic turbine laboratory at AHEC with the support of Ministry of New and Renewable energy, Government of India is in progress.

2. LIST OF FACULTY MEMBERS

Associate Professors

Saini, Rajeshwar P., PhD (Roorkee)

Head (w.e.f. 1.1.2012)

Hydro mechanical Equipment, Solar Energy, Wind Energy, Modelling of IRES, EIA Environment Auditing and Energy Conservation.

Sharma, Mahendra P., PhD (Roorkee)

Bio Energy, Solar Energy, Wind Energy, Modelling of IRES, EIA, Energy Auditing, Energy Conservation of industries & Hydropower plants, water quality assessment and conservation of rivers & lakes.

Chief Scientific Officer

Kumar, Arun, PhD (Roorkee)

Head (till 31.12.2011)

Planning, Investigations, Designs of Small Hydropower Energy Economics and Policy, Project Management.

Senior Scientific Officers

Singal, Sunil K., Ph.D. (Roorkee)

Planning, Design of Civil Works for SHP projects, Financing and Economics of SHP projects.

Singh, Shyam N., ME (Roorkee)

Electrical Machines, Control & protection, Rural Transmission and Distribution lines of SHP stations, E&M works for small Hydropower stations, wind energy conversion and energy conservation.

Singhal, Mukesh K., ME (Roorkee)

Planning, Design and Analysis of Civil Works, Development of Software.

Assistant Professor

Khatod, Dheeraj K. PhD (Roorkee)

Planning of distributed generation systems.

3. HONORS AND AWARDS TO FACULTY MEMBERS

Saini, R. P.

- Outstanding Teacher Award 2012 - Indian Institute of Technology Roorkee

Sharma, M.P

- Member, Advisory Board of TERI for Higher Education, Professional and Reference Publishing Programme, Sept. 2011 – Aug. 2013.

Kumar Arun

- Invited to assist Inter Ministerial Group constituted by NGBRA, Ministry of Environment and Forests for considering the issues relating to hydropower plants and environmental flows 2012-13
- Invited for by Arena International as key speaker at 4th annual Small Hydro 2012 conference being organized by Arena International during 25th – 26th April 2012 in Toronto, Canada
- Invited to Chair the first plenary session on "Small hydro in Europe and worldwide" at Hydroenergia 2012, international conference organized by European Small Hydropower Association (ESHA) and the Polish Association for Small Hydropower Development (TRMEW) during may 23-26, 2012 at Wroclaw, Poland.

- Invited by UNIDO to visit and prepare a report for capacity building and visited Dar es salaam, Tanzania during June 6-11, 2012.
- Invited as expert member of delegation of DST, Govt. of India for the 'Indo Swiss Symposium on Renewable Energies and Rational Energy End-use' and presented "Small Hydro In India" held at EPFL, Lausanne, Switzerland from October 22 – 25, 2012
- Invited as guest speaker on Hydropower in Rural Development - Overview of solutions in India at symposium on "The Place of Water Power in the Renewable Energy Panel" held during November 20 – 21, 2012, in Grenoble, France".
- Invited as expert for small hydro development during IRENA General Assembly meeting on Jan 13 – 14, 2013 and presented two themes at Abu Dhabi, UAE
- Invited as expert to deliver lecture for "UN-CECAR postgraduate course on Renewable Energy" organized by United Nations University Institute of Sustainability and Peace (UNU-ISP), Tokyo, Japan on March 04 & 05, 2013.

4. VISIT OF FACULTY: INTERNATIONAL ONLY

10. SUMMARY OF MAJOR SPONSORED RESEARCH SCHEMES AND CONSULTANCY PROJECTS

Ministry of new and Renewable Energy (MNRE) has put considerable emphasis in recent years on the satisfactory performance of new SHP stations which are linked by financial incentives for the developer. Alternate Hydro Energy Centre (AHEC) was identified as the test agency for performance evaluation of SHP plants. Following plants have been assigned for their performance by AHEC during 2012-13:

- Beaskund SHP(9 MW) Disk. Kullu, Himachal Pradesh – M/s Kapil Mohan & Asso. Hydro Power Pvt. Ltd., Chandigarh (11.0 Lacs)
- Phatakwadi SHP(24MW) Dist. Kolhapur, Maharashtra – DM Corporation Pvt. Ltd., Kolhapur, Maharashtra (11.0 Lacs)
- **SHP Institution Building in Tanzania**– UNIDO, Vienna sponsored assignment to prepare a detailed feasibility report for establishing a SHP Technology Centre at the College of Engineering and Technology, University of Dar es salaam to build capacity to develop Small Hydropower (SHP) potential in Tanzania.
- **Solar Energy Use for IIT Roorkee Campus:** Ministry of New and Renewable Energy, Govt. of India sanctioned three research projects for Solar Energy Use for IIT Roorkee Campus. The Proposed Solar Systems, once installed in the Campus, would lead to huge savings both in terms of financial resources as well as environmental resources and shall be a good demonstration of the Technology to all the students, faculty and the visitors. Showcasing of the Technology would act as a catalyst for large scale deployment of Solar Systems
- Installation of SPV power plant on roof top of buildings at IIT Roorkee with subsidy of 90% of final cost or Rs. 30.99 crores which is lower.
- Installation of Solar water heating system at various locations in the IITR campus with subsidy of 60% of final cost or Rs. 3.03 crores which is lower.
- Installation of solar steam cooking system at premises of IIT Roorkee with subsidy of 60% of final cost or Rs. 0.91 crore which is lower.
- **RMU and RLA Study of Penstock for Kuttiadi** (3x25 MW) HEP in Kerala: Kerala State Electricity Board sponsored study to carry out the study on the combined water conducting system of Kuttiadi

scheme and to suggest remedy for anomalous reduction in power output which included field measurements and CFD analysis.

- **Study on Potential Assessment:** Seabell International Co. Ltd. Tokyo on behalf of the Ministry of Economy, Trade and Industry of Japan (METI) sponsored a study on potential assessment for very low head micro hydro sites on irrigation canals, drinking water channels, sewage channels and cooling water return channels in thermal power plants in the states Gujarat, Karnataka and Meghalaya. Such potential assessment shall be useful for micro hydro units on existing facilities.
- **Cumulative Environment Impact Assessment of Hydropower Projects on River Yamuna and Tons & Its Tributaries in Uttarakhand:** Uttarakhand Jal Vidyut Nigam sponsored assignment as partner institutions to prepare Cumulative Environmental Impact Assessment (CEIA) and Management Plan for Hydro-Electric Projects of River Yamuna & Tons and its tributaries in Uttarakhand for considering the development of hydropower sites in future
- **Bathymetric Survey of Ramgarh Lake:** UP Jal Nigam, Gorakhpur sponsored an assignment to carry out the pre-dredging and post dredging bathymetric surveys of Ramgarh Taal, Gorakhpur (U.P.) along with NIH Roorkee for lake conservation which is highly eutrophic presently.
- **Cumulative Environment Impact Assessment of Hydropower Projects on River Alaknanda and Bhagirathi and its Tributaries in Uttarakhand:** Uttarakhand Jal Vidyut Nigam Ltd. (UJVNL), - a Government of Uttarakhand Enterprise assigned a study to Alternate Hydro Energy Centre (AHEC), IIT Roorkee, for “Cumulative Impact Study of Hydro Power Projects on Alaknanda and Bhagirathi River Basins” for considering the development of hydropower sites in future.
- **Efficiency Testing of the Generation Unit of Bassi Hydropower Station (4x16.5 MW):** Andritz Hydro Private Limited, Palwal assigned the efficiency testing of the generating units of Bassi Hydropower Station (4 × 16.5 MW) in Mandi District of Himachal Pradesh using head and discharge method with e UTTF for their recently renovated turbines.
- Techno-Economic Review for Pakke Bung-III HEP (30 MW) and Pakke Bung-IV HEP (12 MW) in Ar. Pradesh - DHPD, Govt. of Ar. Pradesh, Urja Bhawan, Itanagar and Boom Systems Pvt. Ltd., SCO – 9, 2nd floor, City Plaza, Sector-16 Market, Faridabad.
- Techno-Economic Review for Marjingla (37 MW), Marjingla Lower (49.5 MW), Pakke Bung-I (46 MW) and Pakke Bung-II (16 MW) in Ar. Pradesh - DHPD, Govt. of Ar. Pradesh, Urja Bhawan, Itanagar and Energy Development Co. Ltd., SF-3, SCO – 9, City Plaza, Sector-16 Market, Faridabad.
- Techno-Economic Review for Pachuk-II Lower (55 MW) and Tsachu-I (37 MW) SHP in Ar. Pradesh – DHPD, Govt. of Ar. Pradesh, Urja Bhawan, Itanagar and Energy Development Co. Ltd., SF-3, SCO – 9, City Plaza, Sector-16 Market, Faridabad.
- Techno-Economic appraisal for Simang-I HEP Ar. Pradesh – DHPD, Govt. of Ar. Pradesh, Itanagar and M/s Adishankar Power Pvt. Ltd., C-12, 1st Floor, Green Parik Main, New Delhi.
- Review of Detailed Project Report Sipit (2x22.5 MW) HEP – M/s Aswani Power Projects Pvt. Ltd., Ameerpet, Hyderabad – 500073, Arunachal Pradesh (Rs. 12.00 Lac)

1. SALIENT FEATURES

- CTRANS is a Centre of Excellence of IIT Roorkee in the area of Transportation Systems with an aim to promote multidisciplinary and high quality research and education in Transportation Systems with collective participation of Engineers, Scientists and Researchers from Science & Technology, Humanities and Social Sciences, Architecture & Planning and Management Studies background. The Research and Education in multidisciplinary areas covers all modes of transport like Road Transport, Rail Transport, Air Transport, Inland Navigation & Water Transport & Pipe Line Transport.
- The research areas are Public Transport System, Airfield and Highway Pavement Management System, Intelligent Transport System, Design of Comfort (Rail Transport), Environmental Impact Assessment, Environmental Management, Biofuels for Automobiles, Air Quality Modeling, Mathematical Modelling, Supply Chain Management & Logistics, Electric Trolley System, Traction Technology, Remote Sensing, GPS & GIS Applications, Inland Water Transport, Polymer Applications in Transportation Systems, Accident Modelling and Road Safety, Urban Transportation Policy, Management of Transport Systems, Visual Communication Design System, Aesthetics, etc.
- The Centre is equipped with a number of modern equipments i.e., Road Measuring Data Acquisition System (ROMDAS), Portable Automatic Traffic Counter-cum-Classifer, Trimble IR 5600 Robotic Total Station, Electrodynamic Vibration System, Falcon Handheld Stationary Radar with Data Logger for Measurement of Vehicular Speeds, Integrating-averaging Noise Level Meter, 50" Plasma TV for Traffic Analysis study, Portable Falling Weight Deflectometer, Diamond Core Drilling System, Portable Reference Measurement System, Ground Penetration

Radar (GPR) for Utility Detection and High Cell Density Bio-Reactor, Electronic Portable Static Wheel/Axle Weight Scale, Hand held Analyser with Sound Level meter for Aircraft Noise measurement and Electronic Portable Static Wheel/Axle Weight Scale.

- The Centre has Sound Plan, HEADS, TRANSCAD VISUM & VISSIM softwares for a variety of transportation system problem analysis. The Centre has a good computing facility for modelling and simulation of transportation systems.
- The DST, GOI has sanctioned a R&D Project on "Design and Analysis of Urban Multimodal Mass Transportation System" CTRANS is also offering Advise and Consultancy Services.
- The CTRANS is providing Consultancy Services to CPWD for Development of State Highways in Bihar State for a Consultancy amount of Rs. 5.6 crors. The completed part of this project found helpful for getting services quickly.
- Five research scholars are pursuing Ph.D. on the identified multi-disciplinary research areas at CTRANS.
- The Ministry of Road Transport and Highways, Govt. of India has established Professorial Chair at CTRANS in the area of "Development of Highway System in the Country".
- The CTRANS has research collaboration with Queensland University of Technology (QUT) Brisbane, Australia.
- The CTRANS has developed following laboratories:
 - + Transport Asett Management
 - + Biofuels for Automobiles
 - + Simulation Modelling
 - + Environmental Impact Assessment
 - + Electrodynamic Vibration Simulation
- A new M.Tech Program in "Infrastructure Systems" developed by CTRANS has been approved by the senate of IIT Roorkee to be started from July 2013.

1. SALIENT FEATURES

Centre for Nanotechnology (CNT) has further strengthened its mission of academic excellence with the active participation of its faculty drawn from different departments. Its faculty has made significant research contributions in upcoming areas of Nanotechnology. CNT has successfully admitted students to the fifth batch of M.Tech. program.

CNT is now equipped with several state-of-the-art facilities namely, Zetasizer, DSC, LCR meter with magnetic measurements set up, Surface profiler, Upright microscope with fluorescent attachment. UV-VIS-NIR spectrophotometer and Fluorimeter, Spin coater, Gel-doc system, High speed refrigerated centrifuge, Laminar airflow hood, Orbital shaking incubator, Deep freezer for its M.Tech/ Research students. Molecular modeling software has been installed for Modeling and Simulation work.

Journals –04, Conferences –08, New Project : Research – 41.60, Consultancy -42.99 Lacs,

1. SALIENT FEATURES

A Centre of Excellence in Disaster Mitigation and Management was established at IIT Roorkee in March 2006 for national capacity building in Disaster Mitigation and Management. The Centre has many objectives.

- National capacity building in Disaster Mitigation through Human Resource Development
- Dissemination of technical know-how by conducting short term courses in Disaster Mitigation & Management
- Dissemination of technical know-how to meet the challenges arising of disasters through consultancy services
- Minimize the impact of natural disasters through R & D and extension activities by providing engineering solutions in the area of Disaster Mitigation

- Evolving strategies for mitigation and management of disasters and establishment of national technical data base for rapid dissemination of information and knowledge
- Conduct research in related areas leading to Ph.D. degree in Disaster Mitigation and Management
- Targets Achieved :
- Full M.Tech. Program in Disaster Mitigation & Management approved by the Senate of the Institute.
- One Ph.D. awarded in year 2012

The Centre of Excellence in Disaster Mitigation and Management is very young Centre. This draws strength of faculty members of other Departments to solve important problems. The Centre has already prepared the syllabus of a new M.Tech program in Disaster Mitigation and Management and soon this course will be launched.

9. SUMMARY OF MAJOR SPONSORED RESEARCH SCHEMES AND CONSULTANCY PROJECTS

Hazard Characterization and Isolation of Pesticide Degrading Bacteria for Mitigating the Environment

Absorption, desorption and degradation of pesticides are important processes affecting the leaching through the soil. Once pesticides move part the surface of the soil, there is a hazard of ground water contamination. Some of the pesticides are systemic toxic chemicals. Pesticides present danger to consumers, bystanders and the workers during manufacture, transport or during and after use. The pesticides wreak havoc by causing depression, allergies, miscarriages, birth defects, chromosomal abnormalities, neurological disorders and cancer. It is well known that Bhopal disaster which released 40 tons of methyl isothiocyanate (MIC), a chemical intermediate in have of the carbonate pesticide killing nearly 3000 people and ultimately caused 15000 deaths. Public concern over pesticide residues in food has been increasing during the last decade. Recovering from the euphoria of green revolution, India is also now battling from residual effects of extensively used chemical fertilizers and pesticides such as HCH, DDT, endosulfan, phorate, Imidacloprid and others. Pesticide residue pollution to the local environment (air, soil and surface water) affects the lives of birds, wildlife, domestic animals, fish, livestock and

human beings. Human health hazards vary with the type of the pesticides and also with the extent of exposure. Moderate human health hazards from the misapplication of pesticides include mild headaches, flu, skin rashes, blurred vision and other neurological disorders while rare, but severe human health hazards include paralysis, blindness and even death.

It is well established that microorganisms are the major or the only means of degradation/detoxification of several pesticides in the environment. In addition, microbial degradation is advantageous because a wide variety of pesticides can be degraded completely even under mild conditions compared with degradation through physical and chemical means.

The project explores the rich bio-diversity of Uttarakhand, for the isolation and characterization of Pesticide degrading bacterial strains particularly, endosulfan (Organochlorine) and Imidacloprid (Neonectinoids) degrading strain, that will initially, help us to understand the biodegradation of these pesticides. Later, we plan to identify the gene responsible for pesticide degradation and will also provide a platform for developing genetically engineered bacteria, which could grow in pesticides contaminated areas and act as a tool for bioremediation.

6.1 CONTINUING EDUCATION CENTRE

Academic Staff: 01, Short Term Courses-72,

1. SALIENT FEATURES :

It is a pioneering centre in the area of continuing education. It has completed more than 55 years of service and has played a very important role in the promotion of knowledge upgradation activity in our country by organizing refresher/specialist courses and workshops for in-service technocrats and professionals. This centre acts as a single window to disseminate information and technology on latest developments. The activities organised by this centre are innovative, refreshing and stimulating and address to the current needs of the

participants. Apart from the technical expertise available in the departments and centres of the Institute, experts from industries and R&D organisations are also invited to deliver talks/lectures wherever necessary.

Around 60 to 70 short term training programmes are being conducted every year in various disciplines of management, engineering, science and technology for participants from all parts of the country as well as from the neighboring countries. This year the Centre has conducted 72 courses including 12 International Courses in which about 1054 participants have been trained.

6.2 INSTITUTE COMPUTER CENTRE

Academic Staff: 07, Short Term Courses-3, Publication-3, Conference-19

SALIENT FEATURES : The Institute Computer Centre (ICC) is an academic service centre providing the following:

- (i) Facilities for B.Tech/M.Tech/MCA computer related laboratory classes
- (ii) Special needs for hardware/software of Research Scholars
- (iii) Central bulk licensing of Engineering/Scientific software
- (iv) High-Performance Computing
- (v) Central data storage facility

The Centre maintains a comfortable environment, conducive for research & training for both students and faculty. It has eight job-specific labs with about 250 workstations/desktops/thin clients of latest configuration in 100/1000 mbps CAT 6 based structured network having Gigabit Managed Switches with Internet connectivity at every system. The range of servers covers from Intel based servers to high-end RISC servers from SUN, IBM, SGI and NAS (Network Attached Storage) servers of 2x1.6 TB (terabytes) capacity. Centre is also equipped with colour laser printer, network laser printers and scanners. PARAM, Linux based HPC Cluster and all the other servers (including software licensing servers) can be accessed within the campus including DPT Saharanpur Campus.

ICC has state-of-the-art hardware and software for applications such as: CAD/MCAD, Computational Fluid Dynamics (CFD), FEM & FEA Image Processing / Scientific Visualization, 3DAnimation/ Visual Simulation/ Geospatial imaging and analysis. Centre has mid-range to high-end configured graphics workstations.

ICC's software licensing facilities provide the following major engineering and scientific software available throughout the campus over LAN:

- ANSYS Academic Research v 14.0
- ArcGIS 10.1
- Autodesk Revit Architecture Suite 2009 & Educational Solution Set 2009
- Abaqus 6.8.1
- Bentley Suite of Products under Academic subscription with a set of 53 software along with *Microstation* software
- ChemOffice Ultra 10.0
- ERDAS Imagine 2011 with LPS and Imagine Developers Toolkit and ER Mapper
- Felix for NMR

- Hytran 3.7.3-7
- Intel Visual Fortran 9.0
- LabVIEW 2013
- MATLAB R2012b with various tool boxes & Distributed Computing Engine
- Mathematica 5.0
- Mechanical Autodesk Inventor Series 11
- MagNet 64 bit v 6.22.1
- NAG Libraries and Compilers
- Oracle 9i & 10g
- Pro/ENGINEER Wildfire 4.0
- SARscape 4.2 with ENVI 4.7
- SAP 2000 v 15.0; ETABS Non-linear v 9.7.2 and SAFE v 12.3.1
- SPSS 16.0
- Solid Edge 18.0
- Adobe Acrobat 9.0 Prof. (Academic Version)
- Microsoft software products under School and Campus Agreement.

The academic activities supported by ICC are:

1. EC-101A/B practical class (both semesters) with C++ and JAVA programming environment on windows with NAS facility at ICC.
2. CE-201 (Computer Graphics) practical class – both semesters based on Bentley Microstation software served through Bentley Academic Select Server deployed at ICC with network floating licenses.
3. CE – 321 (Geomatics Engineering)) practical classes based on ArcGIS and Erdas Imagine.
4. CE – 291 (Introduction to Geomatics Techniques) practical classes based on ArcGIS and Erdas Imagine.
5. CE – 636 (Geomatics Engineering)) practical classes based on ArcGIS and Erdas Imagine.
6. CA-604: (Simulations and Modelling) practical classes based on VC++and JAVA programming environment on Windows/Linux.
7. ICE-02 (Digital Image Processing) practical classes based ArcGIS and Erdas Imagine.
8. CA-612 (Simulations and Network Programming) practical classes based on VC++ and JAVA programming environment on Windows/Linux
9. MA - 301/365 (DBMS practical) based on Oracle 9i server and clients
10. MCA practical classes of CA-711 and CA- 611 with facility for remote login for Linux based cluster for Parallel computing with MPI, network programming environment and Oracle server and clients at ICC.

11. Dedicated systems with specialized software required by students of M.Tech, and Ph.D scholars during their dissertation/thesis period in the Research Scholars lab at ICC. These are high- end workstations with multi-core with high processing speed and high capacity memory and graphics adaptors in network with remote access facility on 365x24x7 basis. Scientific and engineering software licenses being served through servers at ICC.
12. Online subject registration of undergraduate students
 - 03 – MNC (for placement in foreign) ~ 500 students appeared
 - 12 – MNC (for placement in India) ~ 3000 students appeared
13. Companies giving presentations and trainings to highlight latest development in Information Technology

Computer Centre is spread over two floors having two control rooms. For strengthening of these labs the following hardware/software and peripherals have been added in the reporting period:

Hardware strengthening:

During the reporting period new systems have been deployed to keep in tandem with the research requirements of all the engineering and sciences departments:

- (i) Mid-level Workstations 05 Nos. HP Z 600- Intel Xeon Hexa(6) core processor based/ 24 GB DDR3 RAM/1TB HDD/Graphics-/NVIDIA QUADRO 2000(1GB)// HP ZR 2440w -24" TFT Monitor High resolution Graphics (1920x1200)
- (ii) High-End Workstation – 01 No. HP Z820 - Dual CPU (2x Intel Xeon 8 core based based processors with liquid cooling /64 GB RAM ECC DDR3 1600 Mhz/2x600GB 10K SAS, 1TB SATA HDD/NVIDIA QUADRO 2000(1GB)/GPU Computing – NVIDIA Tesla C2075/HP ZR 272740w 27" LED S_IPS Monitor.

Software strengthening:

ICC is following one-point installation of Engineering/Scientific software for creating a central hub of software usage. The following new software/upgradation has been done at ICC and made them available throughout the campus over the LAN.

- (i) ANSYS Academic Research v 14.0- perpetual licenses incremented from 5 tasks to 15 tasks) - This software for Computational Fluid Dynamics

(CFD) is used for research in the following departments - MIED, Earthquake, Civil, Chemical and Electrical Engineering

- (ii) MATLAB with various tool boxes upgraded to v R2012b (50 users) - All academic departments/centres use this software for technical computing
- (iii) NI LabVIEW upgraded to v 2013 (Academic Site license) – This software is in use for B.Tech Projects, M.Tech Dissertation and research in the following centres/departments - AHEC, E&CE, EED, EQD, MIED
- (iv) ArcGIS upgraded to v 10.1 (30 users)– This is a major software suite for processing and analysis dealing in geospatial and is in use for GIS curriculum and research in the following centres/departments - AHEC, Earthquake, Earth Sciences, Civil, Hydrology, WRDM, E&CE, Centre of excellence for Transportation and Centre of excellence for Disaster Mitigation and Management.
- (v) Microsoft Campus Agreement under academic pricing for major and latest Microsoft software products ranging from latest versions of OSs (32/64 bit - Standard and Enterprise) for Server/Workstation/ Desktop along with .NET development environment and Office Applications suites, have been licensed for the period April 2012 – March 2013 for whole Institute under that agreement.

These software are available throughout the campus over the network.

Computer Centre runs in two shifts from Monday to Friday from 8:00 AM to 11:00 PM and on Saturday and Sunday 8:45 AM to 11:00 PM. It is rendering services all 7 days/week. Computing and software license serving facilities are available on 24x7 basis within the campus including DPT Saharanpur.

6.3 INSTITUTE INSTRUMENTATION CENTRE

**Academic Staff : 02; Publications : Journals-07, Conferences-02;
New Projects : Research - ` 12.46 Lacs**

SALIENT FEATURES

IIC runs & maintains twenty Analytical Laboratories with modern Equipment for research and teaching of UG, PG and Ph.D students, as listed below:

Besides these, Electronics Repair Laboratory takes care of in-house repair and maintenance of equipment at IIC and other departments. As support facilities, a Mechanical Workshop and a Refrigeration/Air Conditioning Workshop are also maintained.

1. OVERALL PERFORMANCE OF THE CENTRE DURING 01.04.2012 to 31.03.2013

S. No	Laboratory	No. of Samples Analyzed	No. of Users served
1	Atomic Absorption Spectrophotometer(AAS)	3388	78
2	DTA/ TGA	1625	285
3	Electron Probe Micro Analyzer (EPMA)	171	53
4	FE- Scanning Electron Microscope (FE-SEM)	4232	573
5	Fluorescence Life Time System (FLTS)	64	05
6	Laser Ablation Micro Analyzer (LA-ICP-MS)	1509	30
7	Macromolecular Crystallography Unit (MCU)	3135	62
8	Scanning Electron Microscope (SEM)	1294	91
9	SPM	740	145
10	SQUID	650	120
11	Transmission Electron Microscope (TEM)	1500	400
12	Thermal Ionization Mass Spectrometer (TIMS)	690	112
13	Universal Testing Machine (UTM)	105	26
14	Vibrating Sample Magnetometer (VSM)	270	59
15	X-Ray Diffractometer (Powder)	4404	881
16	X-Ray Diffractometer (Single Crystal)	47	37
17	X-Ray Diffractometer (Small Angle)	649	149
18	Liquid Nitrogen Plant	13,050 liters	364
19	Instrumentation Laboratory	One external B. Tech. student Summer Training (40 days)	
20	Electronics Repair Laboratory	Total equipment repaired- 93 (Sophisticated- 20, Analytical- 44, General- 29)	
Total 3470 users served, 24,473 samples analyzed			

2. SUPPORTING FACILITIES FOR IIC:

- (i) **Workshop:** For in-house fabrication of various mechanical parts of different equipment being used in the centre.
- (ii) **Refrigeration/Air Conditioning Maintenance:** In house maintenance of the air conditioners and refrigerators installed at the centre.

3. INITIATIVES:

- [1] Indigenization of ICPMS RF Load Coil thus saving hundreds of dollars in foreign currency per year.
- [2] Made PTFE Ion- separation micro- columns, for TIMS Laboratory.

Name	Designation & Affiliation	Purpose	Dates
Prof. Peter J. Coloe	Vice Chancellor & Faculties of Vall-E-ASR University of Rafsanjan of Iran Pro VC & Vice President, College of Science, Engineering and Health, RIMT University, Melbourne, Australia	To see facilities at the centre	06-02-13

6. SUMMARY OF MAJOR SPONSORED RESEARCH SCHEMES AND CONSULTANCY PROJECTS (>RS. 10 LACS)

Name of the PI	Title of the Project	Sponsoring Agency	Total Outlay
Dr. Ramesh Chandra	Project "Synthesis and Characterization of Metal Oxide Nanoparticles by Physical Vapour Deposition Process for Strategic Application"	DRDO	Rs. 12.46 lacs

6.4 INFORMATION SUPERHIGHWAY CENTRE

Academic Staff : 03

SALIENT FEATURES: The Information Superhighway Centre (ISC) was established in March 1996. It is the nodal centre for outside/inside connectivity to the campus and serves as an Information Technology Center for promoting the effective use of IT, IT Systems, resource management and facilities for modernization/automation of the IP Infrastructure of the Campus

The Institute has a star topology Gigabit Ethernet Switch based, state-of-the-art Enterprise class network with data, voice and video communication capabilities. All department and Centres are connected to the Information Superhighway through Optical Fiber. The network covers 365 acres of area through 35 Km of OFC and 70 km of CAT6/E CAT 5 UTP, connecting all Departments/Centres, Hostels and Saharanpur Campus. The Intranet has 3000+ wired-line I/Os and 3200+ points through Wireless access, providing internet/intranet and e-mail facility to all faculty, students, staff, library and laboratories.

Institute has 1.0 Gbps internet lease line link of National Knowledge Network (NKN) from NIC under MHRD Govt of India initiative , 200 Mbps internet leased line link from TATA

Communication, New Delhi, 100 Mbps internet leased line link from BSNL Haridwar, 2 Mbps Lease Line link from ERNET India, New Delhi 34 Mbps dedicated leased line (RailTel) in a close group to Saharanpur Campus and 100Mbps internet lease line link of National Knowledge Network (NKN) from NIC under MHRD Govt of India initiative to Saharanpur Campus.

Recently Institute has upgraded the Oracle Sun Java Mail messaging system successfully to provide a better and uninterrupted spam free mail services to the Institute Users. Now Institute has 8000 user license for users. Upgraded mail messaging system installed in active-active mode with full redundancy with separate storage. So that now user can have more mail space with the facility of calendaring and instant messaging also. Now all the two girls hostels are fully wired Internet connectivity. Superhighway Centre is also involved in **Multipoint Video Conferencing** to conduct interviews of overseas candidates appearing in absentia for the post of faculty in various department using Video-Audio conferencing and conducted **Multicast Video Streaming** for Convocation over campus LAN and at Internet.

LIST OF ASSOCIATED FACULTY MEMBER

1. Professor & Head

Singh, Dharmendra, PhD (BHU) *(w.e.f. 1.1.2012)*
Polarimetric, Interferometric application of Radas, Electromagnetic wave interaction with various media, Microwave techniques for buried object detection, Microwave and Optical remote sensing.

System Programmer *(deputed at ISC)*

Kumar Mukesh, M.Sc., PGDCA

Enterprise LAN/WAN designing, integration, management and trouble shooting, Internet/Intranet Application server hosting and management

Scientific Officer Grade-II *(in project on contract)*

Shukla, Naveen, M.Tech., I.T.

2. FACILITIES AVAILABLE

Network Structure and Facilities

- State-of-the-Art Data/Audio/Video capable campus wide network. with Enterprise Class Core, and Access switches, firewall etc.
- 10G and 1G Ethernet optical fiber (SMF/MMF) based backbone for campus wide connectivity to all departments, centres and hostels in star topology.
- Network Access security at gateway and time based management of internet access at the hostels.
- Wired line CAT 6 Internet / Intranet connectivity in each room of all research scholar hostels, new hostels and all girls hostels.
- Wireless Internet/Intranet connectivity in each room of Undergraduate/Graduate hostels through 802.11g Wi-Fi network.
- Cyber café equipped with 20 desktop for internet connectivity in Undergraduate/Graduate hostels.
- ADSL based broad band internet connectivity at faculty residences.
- RAS (Remote Access Server) dial up internet connectivity at staff residences.

Internet Bandwidth

- 1.0 Gbps internet lease line link of National Knowledge Network (NKN) from NIC under MHRD Govt of India initiative.
- 200 Mbps internet leased line link from TATA Communication, New Delhi,
- 100 Mbps internet leased line link from BSNL Haridwar
- 2 Mbps Lease Line link from ERNET India, New Delhi.
- 34 Mbps dedicated leased line (RailTel) in a close group to Saharanpur Campus.
- 100Mbps internet lease line link of National Knowledge Network (NKN) from NIC under MHRD Govt. of India initiative to Saharanpur Campus.

Application Server

- High Performance Internet/Intranet Applications servers for Upgraded E-mail, institute Internet/Intranet WebSite, DNS, DHCP, Radius etc.
- Anti Virus Solution for E-mail Gateway and Desktops.

Other Facilities

- E-mail Facilities to all faculty/Students and officials.
- E-notice Board, Portal for Online Placement for Campus interview, Online Undergraduate Registration, Alumni Portal,
- Publish online interactive JEE, JMET, JAM, GATE examination brochures and results.
- Channel-I and Internet site maintained by IMG students.

3. IMPORTANT ACTIVITIES

(for the period from 1.4.2012 to 31.3.2013)

Upgrade Internet Bandwidth

- Upgraded 100 Mbps to 200 Mbps internet leased line link from Tata Communication, New Delhi.

This ensures us uninterrupted internet gateway access in the event of failure of one of our internet gateway.

Upgraded Mail Messaging System

Recently upgraded Oracle Sun Java Mail messaging system installed successfully to provide a better and uninterrupted spam free mail services to the Institute Users. Now Institute has 8000 user license for users. Upgraded mail messaging system installed in active-active mode with full redundancy with separate storage. So that now user can have more mail space with the facility of calendaring and instant messaging also.

Wire-line Internet in Girls Hostel

Installed State-of-the-Art using Core-Distribution-Access based architect wire-line internet with 10 Gbps uplink of 1 Gbps at user end in Sarojini Bhawan.

Antivirus at E-mail Gateway and Desktops of Campus

Upgraded Trend Micro (InterScan messaging security virtual Appliance) with SPS (Spam Prevention Solution) and Trend Office Scan Corporate Edition with its upgraded versions.

Subscribe Norton Symantec End Point Protection for desktops.

Multipoint Video Conferencing

Conducted interviews of overseas candidates appearing in absentia for the post of faculty in various department using Video-Audio conferencing.

Multicast Video Streaming

Performed multicast video streaming for Convocation over campus LAN and at Internet.

6.5 QUALITY IMPROVEMENT PROGRAMME CENTRE

Academic Staff : 01; Short Term Courses-12

1. SALIENT FEATURES: The Government of India launched the Quality Improvement Programme (QIP) in the year 1971 to upgrade the expertise and capabilities of the faculty members of the degree level engineering colleges/institutes in the country. This programme is now being implemented and monitored by the All India Council for Technical Education.

At present, there are three principal activities under QIP scheme being carried out by the QIP Centre, IIT Roorkee.

(i) Providing opportunities for faculty members of AICTE recognized degree level engineering Colleges/institutes to improve their qualifications, i.e., Masters and Ph.D. degree programmes.

(ii) Organizing Short Term Courses for serving teachers working in engineering institutes/colleges

(iii) C.D. cell activities which include curriculum development (CD) as well as its revision, preparation of monographs and text books, laboratory manuals, examination reforms, undertaking of inter-institutional programmes, holding of seminars, **one day workshops** and panel discussions, developing educational technology, preparation of resource materials and undertaking of any other activity which helps to improve classroom teaching.

This year the QIP Center at IIT Roorkee has offered admission to 25 engineering college teachers for Ph.D programme and 16 teachers for M.Tech programme .

1. SALIENT FEATURES

Keeping in vision that library and information centers are backbone of any research institution of national importance, MGCL makes all efforts to fulfill its promises to provide best possible information support to students, research scholars and faculty. Like previous year this year also focus was on the strengthening of e-resources, collection development and implementation of latest information and communication technologies (ICT) in services. More than 2162+ latest eBooks have also been added in the collection. More than 1300+ theses have been digitized for instant access.

MGCL took initiative for the procurement, installation and training of Internet based Anti-Plagiarism software TURNITIN for checking of duplicity of contents of theses and dissertations submitted by IITR students.

Budgetary Details

MGCL received an allocation of Rs. 1227.35 lacs under PLAN and Rs. 28.21 lacs under NON-PLAN expenditure during the year under report. Out of the allocated Plan funds, Rs.

51.88 lacs has been utilized for purchase of books, Rs. 844.83 lacs for subscription to journals, Rs. 247.05 lacs for e-Books and Rs. 36.65 lacs for equipment purchase. Apart from this Rs. 6.83 lacs has been spent for digitization of 1300 theses. Table-1 gives the comparative expenditure details of allocated funds during last three consecutive financial years.

PERIODICAL SELECTION

During the FY 2012-13, MGCL added 133 new journals titles to its subscription list and renewed the subscription of 841 titles subscribed in previous years. The major additions were the subscription to the full package of Humanities, Social Sciences and Management collection of Sage journals having 82 titles. Thus total 974 print/ print + online journals are being subscribed by MGCL. Besides this, renewal of 117 journals and one database pertaining to previous FY 2011-12 have also been

done. Back files of American Chemical Society (ACS) and Institute of Physics (IOP) were renewed for this year too.

More than 14,500 e-journals published by almost all major publishers of Science & Technology, Humanities and Social Science were also renewed through INDEST-AICTE Consortium and made available to library users. Total expenditure incurred on periodical subscription was Rs.844.83 lacs.

ACQUISITION SECTION

Print Document Collection

During the year under report 2787 new books, 1663+ e-Books and 800 bound volumes of Journals were added to the Library. In addition to this, library has also acquired 453 Hindi books and 345 books on gratis from the Government, R&D Organizations, students and voluntary agencies. Besides this, 920 theses and dissertations were also added to library collection received from Ph.D. and M.Tech. students. The total number of documents in the collection has reached a significant figure of 3,87,017 volumes.

eBooks Collection-

To make MGCL users more satisfied and fulfill their needs timely for research and academic activities, MGCL have enriched its collection of e-books with the purchase of 2163+ new eBooks this year. Now we have 32143+ e-books available in its collection for full access and download.

TECHNICAL PROCESSING SERVICES

Technical Processing (Classification, Cataloguing and Indexing) and data entry in Library Management Software Libsys for creating electronic catalogue of more than 5000 new and old books, which were received during this period, have been successfully completed. Bibliographical services were provided to users in a much improved way. Technical processing & data entry of 920 theses and dissertations has also been carried out in this year

AUTOMATION AND NETWORKING SECTION-

Management of e-Repository & Scanning

1. More than 25,000 pages of various official documents, archival books etc. were scanned, cleaned, cropped for PDF creation for adding in Institutional Repository - Bhagirathi. 345 backlog files of rare/ archival books were also checked and uploaded in repository for access.

Automation Work of Departmental Libraries

2. Training provided to staff & apprentices for automation, cataloging and rectification of

catalogue of departmental libraries of Management, E&C, and Hydrology dept.

Creation of users' IDs and passwords

- For implementing self check-in & check-out (issue/return) services, approximately 350 login IDs with passwords were created and distributed through e-mail to the students/faculty/staff of IITR for self-managing online library accounts.

DOCUMENT DELIVERY SERVICES

The Library being the level one member of INDEST-AICTE Consortium is well aware of its responsibilities towards the institutions those do not have access to many information resources. The Library receives continuous requests from other IITs, NITs and other institutions for technical literatures. During this period, a total 90 articles request was fulfilled. Besides, 103 visitors from the other institutions also visited the library during this period.

(i) Xerox/ Printing

Through reprographic service, 160053 computerized prints and xerox pages has been provided to its users. During the FY 2012-2013 a sum of Rs.

1,53,108.00 was collected for these services from the users and deposited in the Institute Treasury.

- Digitization of more than 1300 Ph.D. theses has been completed. Further work is under process.
- MGCL has started checking the Dissertations and Ph.D. theses submitted by our research scholars through Turnitin - an Anti-Plagiarism software. More than 50+ dissertations and theses have been checked during this period.

AWARDS AND HONOURS

IIT Roorkee was awarded the First best Users Award for ASCE Journals and Second best Users Award for EBSCO Databases for the year 2012-13 among all IITs during 9th Annual Meet and workshop of INDEST-AICTE Consortium held from 17-19 Jan 2013 at IIM, Ahmedabad.

DISTINGUISHED VISITORS TO THE LIBRARY

Date of Visit	Name & Designation/Address	Comments
14/5/2012	Prof. Dr. Uwe W. Schulz Program Director, Business Engg. - Sustainable Energy Systems, Head of International Office Lucerne University of Applied Sciences & Arts, Switzerland.	Many thanks for the detailed tour of this fascinating library. I am impressed by the thoughts that went into it, outlining the history with modern technology. Congratulations to value its worth for the students and researchers.
19/5/2012	Mr Anil Kumar Saini Head, L&T Metro Rail Ltd.Hyd.	I visited the IIT/R after a span of about 21 years and felt extremely happy to visit the new library. It's indeed a big knowledge base for the students and faculty members. I am thankful to Mr. Yogendra Singh who has shown the each and every part of the library to me and I am really happy to put on record his association in developing the modern infrastructure done in this place.
19/6/2012	Prof. Raju B. Mankar, Vice-Chancellor Dr. Babasaheb Amedkar Technological University, Raigad, Maharastra	Lonere, Today, I got the opportunity to visit Mahatma Gandhi Central Library of IIT Roorkee. Sri Yogendra Singh, Librarian, briefed about the e-contents, archives and bound volumes of books, periodicals and the digitization work done by this library. He also showed the library building, all sections and the facilities like conference Hall, Reading section etc. I must mention here that, I am thoroughly impressed with the architecture of this building and the neat and clean maintenance of whole premises.
24/6/2012	Mr. Sunil Kumar GAIL (India) Ltd. Sector 16 A, Noida-201301	A very impressive world class facility excellently maintained.
24/7/2012	Prof. Karen Howard, School of Engineering, CARDIFF	Beautiful space to study .
24/7/2012	Prof. Alison Noble, University of Oxford, UK.	A wonderful library.
24/7/2012	Dr. Anil Namdeo, University, UK.	Newcastle Excellent building designed for Students.

24/7/2012	Dr. S.J. Antony, University of Leeds, UK.	One of the spaceiest library of world class.
28/7/2012	Dr. Roma Mitra, & Dr. Usha Mujoo Munshi, IIPA, New Delhi	A Group had visited from Indian Institute of Public Administration (IIPA, New Delhi), Which comprises of scientist and technologists from Pan India. The Library is huge, and great. We were astonished to explore the collection and other infrastructure. The Staff were cordial and Mr. Yogendra Singh was an absolute fine person. We would like to thank him for his cordial and nice attitude to us. Visit that we all cherished. A nice experience to visit the library. Thanks
14/9/2012	आचार्य डॉ० विष्णुदत्त राकेश पूर्व संकायाध्यक्ष मानविकी एवं प्रोफेसर हिन्दी तथा पत्रकारिता गुरुकुल कांगड़ी विश्वविद्यालय, हरिद्वार।	प्रौद्योगिकी और आधुनिक ज्ञान-विज्ञान के इस महान केन्द्र में आकर प्रसन्नता हुई। भारतीय भाषाओं-विशेषतः राष्ट्रभाषा हिन्दी में यदि विज्ञान, जनसंचार एवं प्रौद्योगिकी से सम्बंधित सामग्री यहाँ के मेधावी एवं राष्ट्रभक्त छात्र स्तरीय स्तर पर प्रस्तुत कर सके तो देश की बड़ी सेवा होगी। यहाँ के आचार्यों की गौरवमयी परम्परा रही है, मैं उसका हृदय से अभिनन्दन करता हूँ।
9/10/2012	Prof. Indira Samarasekhara, President & Vice-Chancellor University of Alberta, Edmonton, Canada	I am honoured to visit the IIT Roorkee Library named after the great Mahatma Gandhi. 7.2 EDUCATIONAL TECHNOLOGY CELL

Academic Staff : 01, Research Projects:Rs.293.70 Lakhs

1. SALIENT FEATURES

Educational Technology Cell, a part and parcel of IIT Roorkee is situated near the building of Center for Continuing Education. This cell was primarily conceived to produce high quality Video/ Web/ Multimedia based instructional material, syllabus based content development for the National Programme for Technology Enhanced Learning (NPTEL) project and to train faculty for the development of pedagogy based video/web courses. However, over the period of time, its role has been expanded to absorb new paradigms of e-learning and training of faculty from other institute, to utilize the power of video streaming, for creation of on-line question banks, for use of learning management system, for quality control of e-content and conduct of research related to pedagogies in e-learning.

The cell is under the process of modernization from SD format to complete HD format.

The cell has state-of-the-art, High Definition video cameras, non-linear editing system (Apple, Avid & Adobe based), high quality audio video systems, teaching aids, HD video conferencing system, 3D

video editing system, 2D & 3D animation and virtual environment, high quality still photography, a number of i7 computers, servers and required software to produce studio quality Web/Video based materials. The cell has already produced 6 web based and 9 video based courses in NPTEL Phase-I. These courses are accessible to anyone in India and abroad through the website <http://nptel.iitr.ernet.in>. During NPTEL Phase-II, the cell has already produced 809 web lectures and 355 video lectures. Further, 143 Web and 314 Video lectures are in pipeline. This centre is also connected to satellite through EDUSAT for conducting country-wide class room. For last two years, the cell has been streaming video lectures to in campus IITR students round the clock.

PATENT FILING

During the period 1st April, 2012 to 31st March, 2013, the IPR Cell received 21 new disclosures for patent filing. In this duration these disclosures

along with 3 carried over from the previous year amounting to 24 disclosures have been preprocessed for patent filing. Out of these 1 patent has been filed by the inventor.

EVENTS OF IPR CELL

A. WORLD IP DAY

World IP Day was celebrated on April 21, 2012. The Chief Guest was Dean (Academic Research). The CEO of M/s Sanshadow Consultants Pvt. Ltd., New Delhi delivered the expert lecture and the team accompanying her conducted a "Brainstorming Workshop" for the students. A team from Foundation for Innovation and Technology Transfer (FITT), New Delhi and Samsung Electronics India Ltd., New Delhi, also participated in this function, delivered expert lectures and launched SAMSUNG INNOVATION AWARD-2012.

B. Guest Lecture On RSBY

A guest lecture-cum-interactive session on Rashtriya Swasthya Bima Yojna (RSBY): An innovative healthcare Management Model was organized on 16 Feb, 2013 in the Bose Auditorium of Physics Department. Mr. Anil Swarup, Director General Labour Welfare, Govt. of India was the speaker. Mr. Swarup pointed out health insurance coverage of BPL families through RSBY. Many

faculty members, students and employees were present in the event.

C. Activity in Cognizance

IPR Cell hosted "IGenesis-Innovation" on event for presentation of ideas on March 23, 2013 (Saturday) in the COGNIZANCE-2013. 45 entries were received from all over India. Out of these 15 entries were selected for the presentation. First 3 entries were given the certificates of merit and cash prize.

TECHNOPRENEURE PROMOTION PROGRAMME OUTREACH CENTRE ACTIVITIES:

During this period the TePP Outreach Centre (TUC), IITR received 5 proposals for funding of Micro Technopreneurship Supports (TS) scheme. The entire proposals are in process and two projects are funded from DSIR.

National Conclave on “Innovation and Entrepreneurship in Higher Educational Institutes”

A Two days national conclave on “Innovation and Entrepreneurship in Higher Educational Institutes” from March 2-3, 2013 at IIT Roorkee was organized under MHRD-IPR Chair, IIT Roorkee.

The main objective of organizing this conclave is to understand the perspective of learned stakeholders about the prospects, scope, the relevance and the methodology of Innovation to be steered by Higher Educational Institutions in India.

Key Speakers of the Conclave Mr. Sam Pitroda, Adviser to the Prime Minister on Public Information Infrastructure & Innovations was invited as Chief Guest at this conclave. He addressed the gathering of eminent thinkers and the students through video conferencing from (Chicago USA) wherein he shared his views with pertinent points elaborating his personal experience on propelling innovation through his invention of digital diary and then patenting it and using it commercially.

Key Discussion Points of the Conclave were : (1) Propelling innovation at grass root levels and the necessary radical changes to be incorporated in the system. (2) Various initiatives by Government in HEIs for building a culture of innovation among students, scholars and faculties. (3) Industry perspective on innovation and need for University-Industry collaboration .

Outcome of the Conclave : (1) Fundamental outcomes for propelling structured innovation culture have to be developed through industry-university collaboration. (2) A National Roadmap was prepared which identifies the various key players along with the tasks and deliverables for propelling structured innovation in HEIs.

Short Term Course on “Promotion of Innovation in Higher Educational Institutes (HEIs)

A Short Term Training Course, ToT (Training of Trainers) on “Promotion of Innovation in Higher Educational Institutions (HEIs)” was organised during March 01 – 05, 2013 at Centre for Continuing Education, IIT Roorkee.

The core objective of organizing this ToT program is to educate the IP facilitators and managers of HEIs on the following aspects of innovation.

Creating awareness about the need and importance of innovative research.

Counselling and organizing research work for deliverable innovation.

Identifying value in research and education.

Developing suitable infrastructures for protection and management of innovation.

Appropriate strategies for commercialization of innovation.

The course were attended by 13 participants (Researchers, students, faculty members) from various Higher Educational institutes viz. IIT Roorkee, NLU Jodhpur, TMU- Moradabad, OIMT-Rishikesh, College of Technology & Engineering Udaipur, CSIR-IHBT Palampur, GKU Haridwar, CSIR-CLRI Chennai etc.

HEIP- link Erasmus Mundus Project

HEIP-link is a cooperation of 11 HEIs from Europe, Latin America, BRICS countries and ASEAN countries covering around 60 countries. The project is an initiative under HEIP-link, co-funded by the European Commission within the Erasmus Mundus Programme.

The objective of this international project is designed with an aim of promoting structured cooperation between Higher Education Institutions (referring to HEIs in Europe and third countries). The project was initiated in the month of January 2013 and is currently executing under the aegis of MHRD IPR Chair.

Scope of the Project : The project is currently running through the data collection phase under which data will be collected from 60 countries in Asia, Latin America, BRICS and Europe. India, South Korea and Sri Lanka are the countries from where the data collection is being done. The data template includes six domains; first domain includes data for possible sources of research financing, national agencies or other bodies supporting researchers. Further domains include information on intellectual property regime at national level and HEIs specific IP rules. Third domain requires data on ownership rules of research results prevailing in India and fourth domain includes data of rules for dissemination/publication of research results. Further domain contains data on rules for exploitation of research results. A domain devoted to model contracts for collaboration of projects and consortium agreements is also included.

10.1 GENERAL

During the year 2012-2013, the students performed extremely well in academics, displaying high sense of responsibility and discipline. They also excelled in organizing extracurricular activities and also in the management of hostels and mess facilities. Due to increased strength of students, the extension of several hostels and messes were carried out and various messes were modernized. Students' activities were multifarious and predominantly included participation in the Hobbies Club, Students Club, National Cadet Corps (NCC), Sports Association, Cultural Society, NSS/NSO, Cinema Club and Himalayan Explorers' Club.

The Sports Association continued organizing its activities with usual vigor during the year 2012-2013 and our students participated in Inter-IITs

annual sports meet at IIT Roorkee. Our girls won the women's championship and in the general championship stood at 3rd position.

The Annual Technical Festival, Cognizance was organized during March 22-24, 2013. The events attracted about 2000 participants from various reputed Technical Institutions across India.

Under the aegis of NSS, our students did commendable social work. Blood donation camps were organized. The other notable activities included helping handicapped people, holding classes for poor children, and visiting nearby villages to increase awareness regarding general and personal hygiene.

10.2 STUDENTS' WELFARE AND FACILITIES

The Elections of Students Affairs Council (SAC) for 2012-2013 were held in Sept. 2012. The Students Senate was elected and other bodies of SAC were constituted. Mr. Nikhil Kumar, M.Tech. (Corrosion), II Yr. was elected General Secretary of the SAC for 2012-2013. The Students' Affairs Council was constituted under the Chairmanship of the Director. The Coordinating Committee of the Bhawans were also constituted and these bodies started functioning immediately. Simultaneously, the Executive committee and Discipline committee of the Institute were constituted according to the constitution of SAC. A 'Students Loan and Aid Fund' scheme was started in 1957, to enable meritorious but financially weaker

students to pursue their education. For the past few years, a cash grant-in-aid is being provided to needy students instead of a loan. During the year 2012-2013, 104 students were given aid under this scheme and a sum of Rs. 13,59,000.00 was distributed to needy and deserving students as per the criteria made by a committee and approved by the Director. As a part of student welfare measures, an insurance policy has been taken from United India Insurance Company Ltd. which provides the reimbursement of medial expenses and compensation for laptop and cycle theft.

10.4 INSTITUTE SPORTS COUNCIL

Physical fitness is of the utmost importance for everyone, young and old. Participation in games and sports invariably ensures good health, fitness and, generally, freedom from ailments of various types.

Sports also offer an enjoyable, exciting environment in which to learn how to handle both failure and success. Everyone wins and loses some of the time in both sports and other endeavors. Winning feels great and empowering but can also cause a young person to feel pressure and anxiety the next attempt to win. Losing usually produces feelings of sadness, depression, and disappointment. Learning how to cope with these different feelings fosters good mental health.

The result has been the creation of a healthy, well-developed, disciplined and efficient society in which people know the right proportions in life, put everything in the right perspective, and seldom conduct themselves in an unsporting, ungentlemanly and unbecoming manner. Playing the game on the playground naturally instructs people to play the game of life in the right spirit, which is what matters most, not victory or defeat.

A large number of students daily visit and participate in different Indoor and Cue sports activities housed in the Club. Students Club is central to large number of other student's activities as well viz. COGNIZANCE, SRISHTI and THOMSO.

Students Club has improved in several aspects, club ambience and the facilities being the prime focus. ***We have added two Air Hockey tables also to our existing facilities.***

10.6 HOBBIES CLUB

Hobbies Club started its activities with the nomination of Council Secretary in its 1st council meeting held on 4th August 2012. After that an introductory cum orientation program was organized for 1st year students on 24th August 2012. An introductory talk was also delivered in Kasturba Bhawan for female students on 20th August, 2012. The students were invited to join the sections as members or as proficiency holders. The total membership in Hobbies Club was around 2600 students which included 650 proficiency holders.

In addition to the routine activities, a thorough analysis of the requirements of the Hobbies Club in terms of infrastructure was conducted in the Council Meetings held throughout the year. The secretaries of the various sections prepared detailed proposals for the improvement of infrastructure in their sections in consultation with the Staff Advisors.

As per past records, Hobbies Club served as platform for some students to complete their SURA projects and B.Tech projects of Electronics & Computer, Electrical, Mechanical and Industrial Engineering Departments.

This year following activities were undertaken by various sections.

Software Development Section

1. The section started an intranet portal for IITR students with services like DC++ file sharing, live streaming of sports and institute events, online music player, self-updating software repository, a SMS Notice Service and plethora of other services for students that run 24x7.
2. Lectures were conducted throughout the year on the following topics:-
 - a. HTML/CSS
 - b. PHP

- c. Javascript
- d. Android development
- e. Photoshop
- f. CorelDraw
- g. Video editing

A Linux user group was formed to discuss and solve issues faced by various linux users on campus. The group had an initial meeting in October and since then there have been active discussions on various problems while using linux.

The group also conducted a lecture followed by a hands-on session for using linux and ubuntu.

Three online coding competitions were conducted for students of the campus. The competitions lasted for around 12 hours each and solutions were submitted and evaluated in many languages including C, C++, Java, PHP, Python and PASCAL.

An android application called campus buddy was developed which had various features including an institute map, phonebook, timetable etc.

An android application was developed for THOMSO the technical festival of IITR.

A web application was developed for students to upload and share study material with each other.

An online discussion forum was developed for the students of the college to discuss various issues pertaining to the college.

Achievements:

- Students won the Deloitte Collegiate Cyber Threat Competition CCTC organised by Deloitte in

Hyderabad among all the IITs second time in a row, winning a prize of 1.2 Lakh Rupees.

- Student Team of section stood first in the HackU event organised by Yahoo in IIT Delhi (being the only team from Roorkee).
- Student team from the section stood first in Adobe App Development Contest and won a Sony PS3

Gardening Section

This year we organized various workshops on—

1. Tree plantation
2. Topiary workshop
3. Drip irrigation
4. Gardening tools workshop

Philately and Numismatics Section

Awards and Achievements:

Member students of Philately and Numismatics Section have participated in INDIPEX (Exhibition of Stamps and Coins held at PragatiMaidan, New Delhi) and won prizes and learnt more about new developments held in their related field of collection.

Initiatives:

Philately and Numismatics Section organizes Stamp Designing event for the students of Deaf and Dumb school and National Service Scheme (NSS) students which enhances their knowledge about the importance of stamps and coins in life and also gives them a chance to show their art and creativity.

Electronics Section –

Awards and Achievements:

1. Two Teams of three students, consisting of Electronics Section members qualified for the finals of Texas Instrument's TI MCU design competition. It is a global level Microcontroller based application design competition for college graduates and undergraduates. One of the team reached the quarterfinals (final 8 teams) while the other qualified for the semifinals.
2. Member students of Electronics Section have participated and won a number of electronics and robotics theme based events in technical festivals of other IITs (IIT Bombay and IIT Kanpur).
3. Recently we have forayed into image processing applications. Faiz Akram, a specialist on image processing, has developed a code to use the

computers via gesture recognition and facial expression.

Initiatives:

1. Electronics Section organizes numerous open-for-all workshops in which the objective is to deliver the functional and operational knowledge of electronics hardware and software. This year, we have organized more than 20 workshops covering a wide theme of topics such as:
 - a. Image processing – basic and advanced using MATLAB.
 - b. Printed Circuit Board (PCB) design and fabrication.
 - c. Soldering Techniques and PCB Optimization
 - d. Microcontroller Applications – basic and advanced on AVR and Arduino platforms
 - e. Digital design and synthesis using Field Programmable Gate Arrays.
 - f. Robotics workshop
 - g. IC applications, analog design and circuits.
2. We are working on ambitious projects such as GSM based automation, learning aids for the disabled, Gestures based action at distance, Sound processing on FPGA and arduino, automatic tuning of laser transceivers etc.

Fine Arts

Workshops: The following workshops conducted by the section attracted large participation from members and non-members alike:

- Sketching Workshop
- Painting Workshop
- Origami
- Electronic Art

Activities:

The ultimate test of an artist and an outstanding platform to showcase one's imagination, Art Mela is the flagship event of the Fine Arts section.

D Wall:

The wall painting competition of the section, it is where the southern wall of the Hobbies' Club gets a life of its own with colourful and meaningful graffiti.

Craft Pitara:

It is a craft making competition which aims at coupling the aesthetic and scientific bents of one's mind.

Taboo: It is a tattoo-making competition, a unique way of leaving an indelible mark.

Anushruti:

As a testimony to our unwavering commitment towards our social responsibilities as a premier institute, Fine Arts section has been a front runner in providing an excellent platform to the physically less privileged students of Anushruti to showcase their remarkable talents in the field of Fine Arts. Our initiatives include presenting them with an exclusive area for displaying their exhibits and exclusive prizes for them in their competition besides a number of other such steps in order to encourage them. The student and teachers of Anushruti have also expressed their heartfelt appreciation for our sustained efforts in this direction.

Star Gazing

I. COSMIC VOYAGE 2011

For the first time in the history of IIT Roorkee, the section organized a 3 day astronomy fest by the name Cosmic Voyage in 2011. It included workshops on measurement of Earth's diameter, telescope handling, solar photography, sky orientation, working with radio frequency and a guest lecture on The String Theory by Dr. Alok Misra.

II. COSMIC VOYAGE 2012

The second edition was even bigger with inclusion of workshop on intensity and wavelength determination using spectroscopy which 80+ participants. The events repeated from the previous edition saw a rise of more than 300 % in the number of participants.

III. WEBINAR WITH NASA

A web conference with Dr. Ashwin Vasawada, Deputy Project Scientist from the Jet Propulsion Laboratory, NASA saw a turnout of more than 200 students from IIT Roorkee. The webinar was arranged to know in depth about Curiosity Rover sent to the surface of Mars.

IV. KURT

The section now owns a personal Radio Telescope developed by the students of 3rd year from the Department of Physics, IIT Roorkee.

V. WEBSITE

The section has developed its own website by the name www.astronomyiitr.org to keep the world updated about the various activities of the section.

Photography Section

Photography Section for the first time has organized online photography competition on various themes and has got very good response from the students as large number of students participated in it.

Themes for the competition:

1. Campus Photography
2. Festival
3. Food ,Travel and Living

6. PehlaNasha
7. Choreo Section

Photography Section has now more than 1,600 online member most of them are from IIT Roorkee. We are planning to conduct online workshop so that maximum students can watch those workshop at their wish at any time. We are also planning to include students from outside of IIT Roorkee so that students can learn from each other too.

Model & Robotics Section

1. Member students of Models Section have participated and won a number of robotics events in technical festivals of other IITs and BITS Pilani.
2. All the robotics event of Cognizance are coordinated by the members of Models and Robotics Section.
3. A team of 20 students participated in an Asia Pacific Robotics Competition ABU Robocon 2012 held in Pune in which the team performed very well. We are also participating this year with much more experience.
4. Some members of the Models section are working on a numerous sponsored research projects in association with Mechanical and Industrial Engineering Department.
5. Last year's exhibition in Srishti attracted a lot of crowd coming from distant places to just have a look of our certain projects like dish washing robot, automated irrigation system, Mobile door locking system, Floor Mopping Robot etc.

Initiatives:

1. Models And Robotics Section organizes numerous open-for-all workshops in which the objective is to deliver the functional and operational knowledge of Robotics and Electronics. This year, we have organized more than 15 workshops covering a wide theme of topics such as:
6. Image processing – basic and advanced using MATLAB.
7. Printed Circuit Board (PCB) design and fabrication.
8. Industrial Robots
9. Microcontroller Applications – basic and advanced on AVR and Arduino platforms
10. Fabrication of Robots
11. Basic Robotics
12. We are working on numerous projects with main focus to make our life easier with the application of robots. Our projects include Automatic Waiter for Hotels, Rubik Cube Solver, Automatic Toll tax system, Electric vehicle for old people, Blind people assistance technology, Mobile operated irrigation application, Fire Fighting Robot, Robotic Soccer, Magnetic Wall Climber robot, Automatic Gardener Robot etc.

Srishti 2012-13

The 54th Annual Exhibition of Hobbies Club, Srishti 2013 was organized from 15th March to 17th March 2013. The working team and budget for Srishti was decided in the Hobbies Club council meeting held on 30th January 2013.

The inauguration ceremony (15th March) was held inside the Hobbies Club premises with Prof. S.P. Srivastava, ADOSW(Mess), I.I.T. Roorkee being the Chief Guest on the occasion. The exhibition was attended by approximately 7000 visitors from different walks of life. Students in high numbers participated in this event.

The official website of Srishti 2013 (developed by students of Web Designing Section) was launched on 1st March and was hosted on <http://www.srishtiiitr.in>. The website had approximately 92 visits per day in the period of 1st March – 15th March. The major exhibits of various sections were:

Software Development Section-

The leapmotion kit – Gesture recognition based gaming
The Skynet – Distributed cluster of old computers
Muzi – Online music player
Echo – An online ebook sharing site

Electronics-

Touch Based Musical instrument
Gesture recognition based Google Earth
Rotating LED display

Philately and Numismatics –

This year's Philately Exhibition for srishti was based on the 4 categories nature, culture, events, and personalities. The display this time was very colourful and highly appreciated.

Models and robotics section-

Its exhibitions like hand gesture recognition, wall climbing, pole climbing bots and ball following bots were immensely applauded.

Fine Arts-

The theme for this year was 'Kabala' and it had one of the best exhibits in Hobbies Club. This year in its pursuit of embracing the ever-widening horizon of art, the section explored new and exciting dimensions of creativity, like origami, wire-modelling, candle modelling, chalk carving, glass painting, bubble painting and electronic art.

Gardening-

For srishti, it had Flowering plants exhibition, Non flowering plants exhibition, garden flags and garden poster exhibitions.

Photography –

This year the section had varied themes and highly appreciable participation.

Star Gazing-

Cosmic Vistas, Astrophotographs, Knowledge Center, New Frontiers in Astronomy, Simulated were the exhibitions in Srishti by this section.

The Valedictory function was held in Civil Auditorium on 17th March.

10.7 CULTURAL COUNCIL

The Valedictory Function

10.9 FOREIGN STUDENTS' ACTIVITIES

This year, 69 students from various countries were registered in various undergraduate, postgraduate and Ph.D. programmes. The Institute is proud of imparting education and training to the students from various countries of Asia and Africa in different

disciplines of Science and Engineering. The foreign students stay in hostels along with other students and take part in the extra-curricular activities of the Institute.

10.10 TRAINING AND PLACEMENT CELL

The placement and training activities continue to grow under the guidance of Professor-in-Charge, Training and Placement (T & P) Office. A student core placement team and the Placement Advisory Council consisting of student representatives from the final year academic programmes and the faculty in-charge from each academic department work round the year to look after smooth execution of the activities.

The progress in placement over the years, as can be seen from the bar chart given below has been made possible due to following initiatives:

- i. Proactive approach in inviting companies
- ii. Multiple sessions of campus recruitment on each day
- iii. Complete computerization of the placement process
- iv. Active co-operation and participation by the students in assisting the companies during their stay in campus
- v. Personal visits to companies and establishing relationships and contacts at the highest level

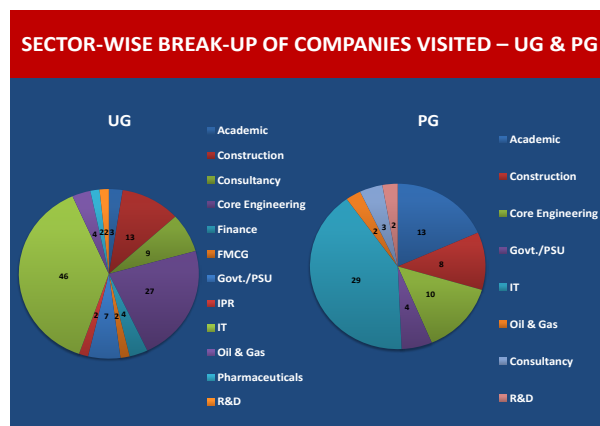

Since the start of 'on-campus recruitment' for the session 2012-2013, from 1st December 2012, 152 companies visited the campus.

Many big names visited the institute for the first time. Companies like Epic, Google Inc, Goldman Sachs (Strategies Group), WM Global Technology Services India Pvt. Ltd. Anand Automotive Ltd., Groupon India Pvt. Ltd., RBS Business Services Pvt. Ltd., GSK Consumer Healthcare, GEIPER, and many others recruited for the first time from IIT Roorkee. Some other key companies that visited the campus were Microsoft (Redmond), Rio Tinto, Schlumberger, Google, Shell, Reliance Industries Ltd. They were indeed impressed by the technical knowledge and the quality of students and did recruit a significant number of students. This year's placement session also had a healthy and uniform participation from various sectors like Finance, Core engineering, FMCG (Fast Moving Consumer Goods), Oil/Energy etc. Companies with financial operations, such as like Goldman Sachs (Strategies Group), RBS, Capital One, extended full time recruitment offers to most of the summer interns and also recruited students upon conducting the process at the Institute itself.

Besides IT, core engineering was also as popular among the students. Regular recruiters like Caterpillar, Analog Devices, Texas Instruments, Qualcomm, Tata motors, Hero Motocorp, Nestle etc. followed the same trends as the past few years and hired students for their operations pertaining to core engineering..

The sector wise break-up (UG & PG) of the companies visiting the campus this year is given the following figure

The Institute also witnessed a huge increase in terms of the number of offers received from companies for overseas recruitment. Some of the firms which have hired students for their overseas operations are - Epic, Google Inc, Rio Tinto, Microsoft India Development Centre (REDMOND), MIDAS IT Co. Ltd., Finisar Malaysia Sdn Bhd. A total of 903 offers were made. The company wise break-up of offers is given in Appendix 1.

The maximum and average overseas annual salary packages offered were Rs. 65 Lakhs and Rs. 38.00 Lakhs, whereas the maximum and average domestic annual salary packages offered were Rs. 28.00 Lakhs and Rs. 7.01 Lakhs across all branches of different academic programmes.

A glance at overall placement statistics in the following table and the figure clearly reflects that the campus placement for the 2012-13 has been quite satisfying across all the academic programme.

* Excluding a few students who opted out of placement to pursue other career opportunities or higher studies.

The branch/discipline wise placement statistics of undergraduate and postgraduate students is given in Appendix 2.

Academic programme	Number of students registered for placement	Number of offers made	Maximum CTC (Rs. in lac)		Average CTC (Rs. in lac)

1. Background

Since the very beginning of University Of Roorkee (Now IIT Roorkee) Dr.Chandrika Prasad, Head Mathematics Department, Dr.R.S.Mittal, Head Earth Sciences Department, Dr. K.K.Singh, Professor, Earth Sciences Department, and Dr. R.K.Goel, Reader, Earth Sciences Department have been associated with the Creation of scientific & technical Hindi vocabulary.

Besides this the faculty has also made a great contribution towards the progress of Official Language, by working as members of Official Language committees, Hindi Scientific Literature Council and by contributing Hindi papers on Scientific and Technological topics. They have also been active in making computers more suitable for Hindi work and have published many scientific reports on Hindi topics etc.

In 1965 a seminar was organized in Roorkee university on the topic 'Vaigyanik kaaryo me Hindi ka prayog' only 04 papers were presented in this seminar.

After two years again a Hindi seminar was organized in which the number of Hindi papers increased to 06.

A huge exhibition in the senate hall of University of Roorkee was organised on the topic 'Hindi ka badhata hua prayog' which went on for 5 days and attracted several thousand people.

With the success of this exhibition again one Hindi seminar was organized in University of Roorkee which was inaugurated by the then Vice-chancellor shri Mulk Raj Chopra and a total 12 of papers were presented in this seminar.

In 1978 again an all India Hindi seminar was organized in university of Roorkee in which 44 papers were presented by the participants who came from different parts of India. Total 250 delegates attended this seminar including Vice-Chancellors of five Universities, Directors of 2 national laboratories and many famous scientists. The quality of the papers presented in this seminar was so high that a special issue of the journal of the Institution of Engineers was published to include these papers. The seminar was inaugurated by Dr. Atma Ram the Chairman of National Committee for Science and Technology

On 22 August 1979 another Hindi seminar was organized in the Q.I.P. Centre of University of Roorkee on the topic 'Hindi Madhyam me

Takneekee Shiksha, ek kaalbaddh yojana'. 11 senior professors presented their Hindi paper in this seminar.

From July 5 to 7, 1984 University of Roorkee organized one more All India Seminar under chairmanship of the then Vice-chancellor Professor Bharat Singh. The topic of this All India Hindi Seminar was 'Urja Sansadhan- Vikas evam Pariyojanaayen'. Total 35 experts presented their papers in this seminar.

12.3 A Skill Management Improvement and Training Academy (ASMITA)

ASMITA SOCIETY FOR WOMEN:

ASMITA society for women was registered as a non-profit society under Indian Society's act during the year 2012-2013.

ASMITA stands for a Skill Management, Improvement and Training Academy for women. Under the Skill Management part, we provide employment for fully skilled girls and women. The Skill Improvement part looks into imparting knowledge on designing and tailoring aspects to half skilled girls and women and is at times hired temporarily as interns. Skill Training looks into training unskilled girls and women in Stitching, Embroidery and overall grooming.

Looking ahead, ASMITA has five initiatives. I am delighted to highlight for 2012-2013. In order to ensure ASMITA continues to be a transformative force and growth for underprivileged women, we need innovative ideas, resources, volunteers and support of corporate across India and internationally. Join us to make a difference in the lives of young girls and women, to ensure that we build a firm future.

Whether it is an idea, a few hours of your time as a volunteer or a financial commitment, together we can change few lives of our women at ASMITA.

Highlights of the activities carried out in various sections of ASMITA are given below for the period of 1-4-2012 to 31-3-2013.

Activities for the period of April 2012 to 31st March 2013

1. Stitching Section:

42 female students are enrolled in the diploma and choice course programme in stitching and tailoring at the centre. Out of these 11 students have opted for choice course and 31 students opted for a 6 month diploma course.

2. Gift Section:

In this section good quality stitched items like home linen, bags, kitchen linen are made by trained ladies for their income generation and for other visitors on regular basis. This section serves as an **income generating opportunity for less privileged women in the neighbouring rural community of Roorkee and families of IITR staff residing in D colony.** The program aims to **empower women to become income earners in their family by providing them with the**

resources and training for producing and selling handicrafts. With design and market assistance from our volunteers, the women stitch linens, cushion covers, handbags, placemat sets and a variety of beautifully handmade products, which are sold throughout the local community. The women receive the full benefits of their labor and are able to produce a sustainable income to ensure proper education, health and hygiene for their family. Last year these gift items were exhibited at the Alumni Day and Diwali Mela to raise donations for the Academy. This program aims to impart new skills to women, enabling them to become financially independent members of their families.

3. Spice Preparation Section:

100% pure spice powders and flours are being prepared and packed at the centre. Few ladies from the less privileged are employed on regular basis and few others are working on temporary for this section under the able supervision of our volunteers.

4. E- Learning Section:

Women are trained in basic computer skills. Trained tutors and volunteers assist in this section and two batches comprising of total number of 20 students have graduated successfully.

5. Adult Education or Praura Shiksha Abhiyan:

In this new section uneducated and unversed ladies from nearby areas are being given basic education along with awareness on health, hygiene, and other lifestyle tips.

6. Special Activities: Apart from the above mentioned

Activities, we conduct free workshops and events at The Academy from time to time in order to encourage our students and workers. These included an ethnic function like Monsoon Mania- "Sawan", fabric painting workshop, Embroidery workshop, Mehndi competition on the festival of Karvachauth, painted deeyas and other items for Diwali.

Skill enhancement workshop in the stitching unit was conducted with assistance from a local boutique.

A Way Forward: Our future endeavours include an internship program, initiated this summer for our Diploma students of the Stitching section who are completing their Diploma course. Some of these girls are assisting teachers as well as making specific products that ASMITA exhibits in the gift section. These girls will also be offered with basic Computer skills and a two week program targeted for enhancing their tailoring and handicraft skills.

Financial Report 2012-2013:

Total Fundraising in the year 2012-2013:

12.4 ADARSH BAL NIKETAN, SENIOR SECONDARY SCHOOL

Adarsh Bal Niketan was established in 1956 to cater educational facilities to the wards of faculty and staff of the University of Roorkee and other citizens. Since then it has grown in to a full-fledged senior secondary school due to keen interest taken by its management, the professors of University of Roorkee and now IIT Roorkee.

Education is imparted in ABN from nursery level to class XII and each class has two sections up to class X and three sections at plus two level. Two sections in science and one on commerce stream. Computer science is one of the important subjects taught in the science group. The total strength of the school is 1600.

The school also imparts NCC training (Senior Group).

The school has a majestic building in two parts, well designed and constructed by CPWD. It is well lighted and ventilated, with a big assembly, Hall library and an air conditioned Computer Lab, fully equipped with Pentium-4 computers.

The Assembly Hall is used to students for playing games like badminton, table tennis and carom etc. Small cultural functions also are organized in this hall.

The result of Board classes were par excellence (100%). Many students brought laurels to the school by scoring marks above 85%. A good number of students have been selected in different professional courses like engineering, medical & others.

School Management committee also awarded the best teachers from both Senior and Primary sections

for their remarkable services towards academic performance and other areas of duties in school.

It is a matter of great satisfaction that the school is financially self reliant.

The E-Learning centre at ABN is set up as technology demonstration centre of MHRD funded project titled "VSAT- Enabled Mobile E-Learning terminals". The project was taken up in April 2009 in Electrical Engineering Department with Prof. H.K.Verma as its Principal investigator.

Efforts are continuously being made to make the school one of the best schools of Utrakhand.

Institute Silver Medal

1. For obtaining the highest C.G.P.A. amongst the students undergraduating / IDD Program in their respective disciplines as follows :

- (i) Sreekant, P.S., B. Arch.
- (ii) Vasudha Khurana, B.Tech. (Biotech.)
- (iii) Akansha Agrawal, B.Tech. (Chemical)
- (iv) Baridhi Malakar, B.Tech. (Civil)
- (v) Mayank Garg, B.Tech. (Computer Sc. & Engg.)
- (vi) Anunaya Jha, B.Tech. (Electrical)
- (vii) Vishvendra Kumar, B.Tech. (E & C)
- (viii) Ankit Jain, B.Tech. (Met. & Mat. Engg.)
- (ix) Anurag Paul, B. Tech. (Prod. & Ind. Engg.)
- (x) Sambhav S. Shah, B.Tech. (Pulp & Paper)
- (xi) Ankit Kumar, IDD - B.Tech. (Chemical) & M.Tech. (CHH)
- (xii) Abhinav Duggal, IDD - B.Tech. (Computer Sc.) & M.Tech. (CSI)
- (xiii) Srikonda Hari Kishan, IDD - B.Tech. (Electrical) & M.Tech. (EPE)
- (xiv) Charul Agrawal, IDD - B.Tech. (E & C) & M.Tech. (ECW)

- (xv) Hande Aharnish Bhojaraj, IDD - B.Tech. (Process Engg.) & MBA
- (xvi) Rajeev Rakesh Tamhankar, Int. M. Tech. (Polymer Sc. & Tech.)
- (xvii) Keswani Urvashi Jethanand, Int. M. Tech (Geophysical Tech.)
- (xviii) Abhishek Moharana, Int. M. Tech (Geological Tech.)
- (xix) Sulabh Mali, Int. M. Sc. (Applied Mathematics)
- (xx) Jyotiranjan Beuria, Int. M. Sc. (Physics)
- (xxi) Amit Kumar, Int. M. Sc. (Chemistry)

PRIZE DISTRIBUTION FUNCTION

BACHELOR OF TECHNOLOGY/BACHELOR OF ARCHITECTURE

Institute Medal

For Best Project in Engineering & Architecture amongst the undergraduate students in their respective disciplines as follows:

- (i) Siddharth Mahim Bansal, B. Arch.
- (ii) Nimish Gopal, B.Tech. (Biotech.)
- (iii) Himanshu Goyal, B.Tech. (Chemical)
- (iv) Pratima Singh, B.Tech. (Civil)
- (v) Saket Saurabh, B.Tech. (Computer Sc. & Engg.)
- (vi) Tanvir Kaur, B.Tech. (Electrical)
- (vii) Swapnil Agrawal, B.Tech. (E & C)

A3 - HOSTEL ACCOMMODATION ON THE CAMPUS

Co-ordinating Committee of Bhawans (CCB) takes care of the overall management of all the hostels and messes under the Chairmanship of Dean of Students Welfare/Associate Dean of Students Welfare (Mess) respectively. There are 09 bachelor hostels for boys and girls, providing accommodation to under graduate, post graduate and Ph.D. students. Married hostels are also available for married students. All bachelor hostels have their own messes. Bhawan and Mess councils are constituted for each Bhawan under the Chairmanship of the Chief Warden with the Warden, Asstt. Warden and

elected students representatives as members to ensure smooth functioning of the Bhawans and messes. Last year the kitchen of almost all Messes have been modernized to cater to the growing needs of the students. With this set up the students of the Institute are enjoying their meals in different messes which has improved the hygiene and cleanliness within the messes. Automatic chapatti making machines have also been installed in all the messes to meet the requirement of increased intake in different courses.

1. Gupta Niruti, Devadas V, "Role Of Technology Management In Development", Driving The Economy Through Innovation & Entrepreneurship, Dec 2012.
2. Kumari Rashmi, Devadas V, "Analysis of Inter-Regional Disparity In India", International Conference On Managing Inclusive Growth: The Bottom Up Approach For Harmonious Development, New Delhi, 15-16 MARCH, 2013.
3. Nigam Pooja, Devadas V, "Urban Land Management: The Retrospect Of 3 Metropolitan Cities Of India", Dept Of Management Studies, ISC Bangalore, DEC 2012.
4. Sangeetha P, Shankar R, "A Proposal For The Smart Growth Of Chennai", National Congress of ITPI Held In Ahmedabad, FEB 8-10, 2013.
5. Sharma Rohita, Gupta Ila, "Applications and Impact of Culture In Career Enhancement", "Indian Values & Culture – Role in Career Enhancement In Institute of Hotel & Tourism Management, MDU Rohtak, 21 FEB 2012.
6. Sharma Rohita, Gupta Ila, "Applications and Impacts Of Culture In Promotion Of Hospitality & Tourism In Concept Of Mughal Era Architecture & Mural Decoration", Nourishing The Balance Of The Universe: Through Tourism & Cultures, DSVV Haridwar, MARCH 3-5, 2012.
7. Sharma Rohita, Gupta Ila, "Modern Architectural Decoration In References Of Mughals", AARCV M.S. Ramaiah Institute Of Technology (Autonomous Institute Affiliated To VTU, Belgaum) Bangalore.23-25, June,2012.
8. Tejas S. Rawal, Devadas V, "Sustainability Assessment on Ahmadabad Bus Rapid Transit System", National Conference On Sustainable Cities In Arid Region, MNIT Jaipur, December 26-28, 2012.

(b) International Conferences

1. Bansal Neha, Mukherjee M. and Gairola A "Compact Developments as LUP Tool for UD Management", Remixing The City, 14-16 MAR, 2012.

2. Bansal Neha, Mukherjee M. and Gairola, A., "Ushering Changes in Indian Cities", Cities Under Change, 17-19 Oct, 2012.
3. Chani P.S, "Energy Assessment Of Multistoried Apartments In Roorkee", International Conference of Civil Engineering and Architecture, AUG. 2012.
4. Pushplata, Praliya Seema, "Issues of Public Spaces in Small Cities in India", Fourth IJAS Conference at Cambridge, USA from 27 May to 31 May 2012.
5. Sharma Rohita, Gupta Ila, "The Art From Realistic To Abstract: Post Colonialism", Humanism, Democracy And Culture: Postcolonial Discourse And India, an International Conference in RKSD College Kaithal (Haryana, MARCH 20-21, 2012).
