

SUSTAINABLE IITD

The Future Lies In Your Hands

WHO WE ARE

Sustainable IITD brings together people across the institute with a vision for a more sustainable, self-sufficient and green IIT Delhi campus.

OUR VISION

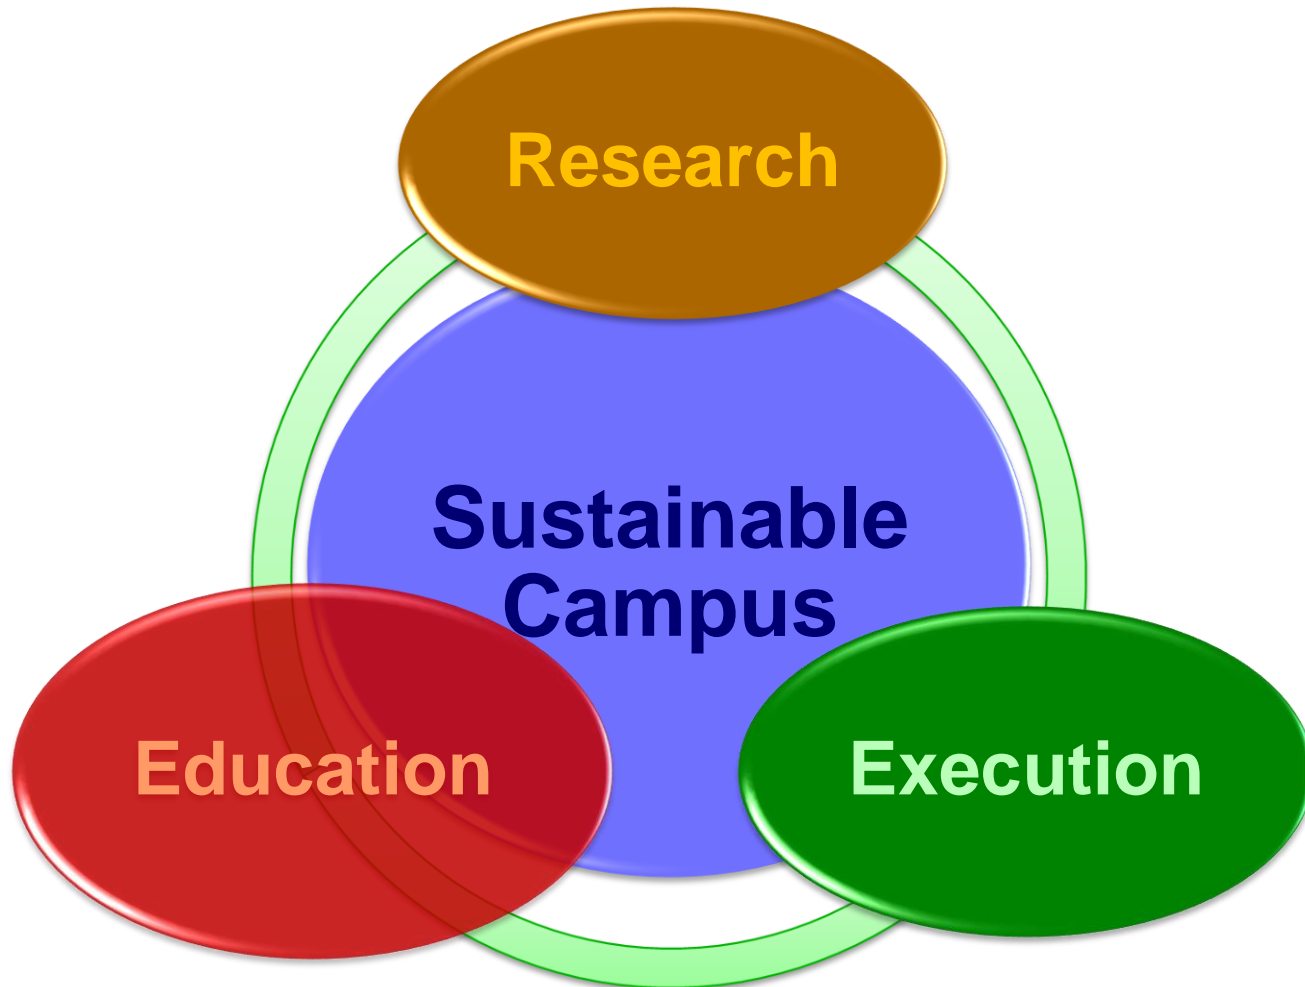

To make IIT Delhi campus

- **Green:** To reduce our net ecological impact and carbon footprint
- **Sustainable:** To meet our present demands without compromising for the future generations
- **Self-sufficient:** To manage our resources well and reduce our dependence on fossil fuels

Education

CAMPUS PROJECTS

Sustainable IITD acts as a bridge between students and professors where they can share their project ideas for a sustainable campus and address the challenges faced through academic research and innovation.

STUDENT'S INITIATIVES

An active team of students dedicated towards implementing solutions and bringing about sustainable changes by translating research into action on campus.

AWARENESS EVENTS

EVERY A TIME YOU RIDE A BICYCLE,
YOU TAKE THE WORLD
ONE STEP AWAY FROM
GLOBAL WARMING !!

बिच पाठ
नचु ओर !!

ENVIRONMENTAL DEVELOPMENT

SAVE WATER ...
EVERY DROP COUNTS !!

IIT Delhi has an extensive network
of Rain Pits across the campus
for Rain Water Harvesting

Events are to be conducted by student bodies with the help of faculty members where students can learn about current environmental issues and find out how can they help in making the greener.

THE TEAM

Advisory Board

Past students, Faculty members, Staff members

To guide research projects and mentor student's initiatives on campus

Working Group

Currents UG/PG students, Faculty coordinators

To carry out projects and awareness events on campus promoting the concept of sustainability

Join Us

Come lets make a move
towards a Sustainable Campus
